The Challenge for Global Christianity

An action-packed series from the creators of Longarm, featuring the rousing adventures of the most brutal gang of cutthroats ever assembled—Quantrill's Raiders. When Kansas Charley Beckett massacres a Bushwhacker's family on the Fourth of July, the only red, white, and blue Win and Joe want to see are the red of his blood, the white of his eyes, and the blue of his body as it hangs from the gallows.

A Portrait of Intercession is a collection of articles, often prophetic in nature dealing with various aspects of intercession. Each chapter will at once challenge the believer to go not only the first mile with Jesus, but willingly and joyfully press on in true and vital fashion, overcoming faith to go the second mile with Him in prayer and intercession. A Portrait of Intercession is a series of challenges, calling the believer to stretch out in believing and bold faith. It is a call to a more intense and intimate relationship with Jesus; to see His vision for the nations and to hear His heart for the peoples of the world. Intercession is, of necessity, a hidden ministry. Its labors may be seen only by a few but it is

recognized and welcomed at the Throne of Grace. It is possibly the most noble of ministries and surely the most noble of the various forms of prayer. Intercession willingly joins us with Jesus in His never-ending, ever-watchful prayer for His people. It is a selfless praying which readily enters into Christ's sufferings; that is, our joining with Him in His divine laboring at the expense of our own wants and desires.

We are all at the mercy of time, moving towards a significant moment. This collection of stories takes us through the events leading up to death and beyond for a number of characters living in different periods of history. They meet their maker in a variety of circumstances which are rarely peaceful. His last breath choked out without ceremony, as Joes

boys went through his pockets and relieved him of every dime. What did a corpse want with money after all?(A Deadly Game) Taking the action further, the dead come to terms with their new situation, some with difficulty. Hed just died, but here he was, not knowing what would happen next. Expecting nothingness, real peace, an end to the ego that was Peter Tearson; yet the end had not come: an end of a sort, but what end, or what beginning? He didnt know because it had never occurred to him, even as the remotest possibility.(Crossing Over)

Mark Twain once said, "The two greatest days in your life are the day you were born, and the day you find out why." But what happens when you know the why but can't figure out how to make it happen? It is this journey between the realization of your purpose and its actualization that Randall Worley calls process. Purpose, which answers why, can be realized in moment. However, process, which must answer how, is not actualized as quickly. In other words, "becoming an overnight success takes years." Purpose has been a hot topic for several years, capturing the attention of those adrift in a culture of apathy and aimlessness. It is certainly a far more palatable subject in today's culture of self-improvement than is process, because it seems to offer a free carpet ride from here to there. Your destiny, however, is not downloadable. The dream of your future is free, but the journey will demand a price. Yet it is in the sacrifice and effort of process that God will turn your purpose into a world-changing reality.

These are volatile times. Fear, suspicion, and cynicism are chronic. A mere tweet inflames the passions of millions while click-bait "hot takes" stoke the amygdalas of everyone with an Internet connection. We treat those not in our tribe as a threat and deem anyone with a different opinion as evil. Mistaking myopia for measure, we lack all sense of proportion in our judgments. We are shortsighted, mired in the present, ignorant of history, and blind to the future. We thought that technology would save us by connecting us to each other and the world's information. Instead, it enticed our vices, encouraged our biases, and eroded the one virtue we need now more than ever: wisdom. *A Time for Wisdom* is for readers who feel beleaguered by the incivility of the modern world, dispirited by its coarse rhetoric and toxic partisanship. It is an invitation to escape the shallow cacophony and restore peace and perspective to our daily lives. Written by

two psychologists, the book takes the best scientific research on wisdom and integrates it with timeless concepts that have, for ages, guided troubled souls through life's hardships. From this foundation, the authors present four steps we can follow to practice wisdom in the 21st Century: Receiving knowledge. Practicing detachment. Experiencing tranquility. Cultivating transcendence. These are profound and spiritual principles that can bring us immense satisfaction when we aspire to live by them. In *A Time for Wisdom*, the authors show us how. They commend a course of action towards the Good, the True, and the Beautiful, towards calm and clear moral reasoning. They lead us out of the circus of contemporary life and show us a path beyond our petty self-centeredness. By journeying along that path, we can, like the great sages and scientists before us, rise above the immediacy of the moment and partake of the numinous and the infinite.

She sees phantoms. Yet she craves a simple life singing out with her musician brother, Johnny, and caring for her elderly aunt and uncle; to be with her friends, Sarah, a psychic, and Walter, a clown in a carnival circuit. On the cusp of their epic battle with Shinzon, many of Captain Jean-Luc Picard's long-time crew were heading for new assignments and new challenges. Among the changes were William Riker's promotion to captain and his new command, Riker's marriage to Counselor Deanna Troi, and Dr. Beverly Crusher's new career at Starfleet Medical. But the story of what set them on a path away from the Starship Enterprise has never been told...Until now. More than two centuries ago, the Dokaalan sent an unmanned probe into the void, bearing a distress call for anyone who could save their doomed world. But the message

reached Federation space too late to save the planet or its people. Or so it was believed... Generations later, Captain Jean-Luc Picard and the crew of the Enterprise-E are stunned to discover the last of the Dokaalan—now only a colony fighting to stay alive in a decrepit asteroid mining complex. Although their home planet was destroyed long ago, the survivors hope to someday transform a nearby planet into a new home for their people. But bitter divisions exist among the Dokaalan, sowing the seeds of sabotage and terrorism—and placing Picard and the Enterprise in the middle of an escalating crisis that can only lead to total destruction!

Many professional ministers struggle at some point with the desire to pursue another career. For those at such a place on their journey, this book poses questions, offers practical suggestions gathered from other ministers who have traveled this path, and shares insights from the authors' own experiences of career change. The authors emphasize two principles. First, entertaining the possibility of leaving professional ministry is not to be condemned or viewed as a sign of failure; rather, it should be accepted as part of the spiritual journey. Second, a new career apart from the institutional church does not mean one is leaving the ministry, but simply that one is changing the mode of expressing that ministry.

Four-star General Wesley K. Clark became a major figure on the political scene when he was drafted by popular demand to run for the Democratic nomination for President of the United

States in 2003. But this was just one of many exceptional accomplishments of a long and extraordinary career. Here, for the first time, General Clark uses his unique life experience—from his difficult youth in segregated Arkansas where he was raised by his poor, widowed mother; through the horror of Vietnam where he was wounded; the post-war rebuilding of national security and the struggles surrounding the new world order after the Cold War—as a springboard to reveal his vision for America, at home and in the world. General Clark will address issues such as foreign policy, the economy, the environment, education and health care, family, faith, and the American dream. Rich with breathtaking battle scenes, poignant personal anecdote and eye-opening recommendations on the best way forward, General Clark's new book is a tour de force of gripping storytelling and inspiring vision.

Within the framework of an increasingly troubled world, this manuscript presents a series of essays written over a twenty-year period offering some practical, non-partisan suggestions as to how our country, and other countries like it can pull together to improve the situations of our citizens, our nation, and our communities. The book suggests that the solutions to the problems we face do not fit neatly into any one political camp, but instead require innovation, system redesign, and fair mindedness on the part of both politicians and citizens. Informed world citizens are demanding far more objective analyses of our policies, our actions, and the values we employ in pursuing the policies we do. Should those of us in leadership fail to provide those valuable insights, the world is likely to deprive us of our leadership role. The title, *From Riches to Rags at a Time of Prosperity*, was purposely chosen. There is still time for us to modify our behavior. But, if we

misread or ignore world events, we will be poorer as the time available for improvement is quite finite. The United States is currently the world's largest debtor by a substantial margin. Our prosperity is largely based on the rapid depletion of liquid fossil fuels which are likely to be virtually fully exhausted this century. Our education system is sub-par. Our retirement promises are vastly in excess of what we can afford. Our environment is eroding. Though most US citizens are comparatively prosperous at the moment, we are gradually transitioning to much less prosperous circumstances. From Riches to Rags at a Time of Prosperity. The book is divided into eight major parts. The Introduction includes a brief history of some of the earlier writings in the field of management with particular emphasis on our responsibilities as managers. Part Two deals with the economy and what we may have to do to sustain prosperity for the world's citizens. Part Three includes some essays written in response to the euphoria of the stock markets. Part Four deals with manufacturing and its role in an integrated society. Part Five discusses the role of business management in a wholesome society along with some suggestions and caveats for the practice of management. Part Six reviews the importance of education and the responsibilities of those of us who are educators. Part Seven deals with a few of the nation's pressing public policy questions. Part Eight closes with a question: Will real leadership emerge?

A Time For Us Castrovilli Giuseppe
The relationship between eternity and time is a common subject for theologians and philosophers. What difference does it make for this discussion that God became man and inhabited time in Jesus

Christ? In *God's Time for Us*, James J. Cassidy examines the theology of Karl Barth to show that God is our Father who does not neglect us for lack of time; he is the God who has time to be with us. God also quite literally has time in his own being by virtue of the incarnation. Cassidy shows that Barth seeks a rapprochement between eternity and time, which is overcome by Jesus Christ. There is today a resurgence in interest in the theology of Barth, especially among evangelicals. Yet Barth is often read without discernment and discussed in churches without full understanding. Cassidy illuminates his thought so evangelicals can make a better, more well-informed appraisal of the man and his theology.
