The Resurgent Terrorist Threat

Oceana Publications
Terrorism:
Commentary on
Security Documents is
a series that provides
primary source

documents and expert
commentary on
various topics relating
to the worldwide effort
to combat terrorism, as
well as efforts by the
United States and
other nations to
protect their national
security interests.
Volume 142, Security
Strategies of the
Second Obama
Administration: 2015
Developments,
examines the major
national security and
military strategy
documents released by

the Obama administration during 2015: the National Security Strategy; the National Military Strategy; the National Intelligence Strategy; and the Department of Defense Cyber Strategy. This volume is intended as a sequel to Volume 137 of this series, which considered the de facto national security strategy of the Obama administration prior to the release of these documents. It is divided into four topical sections, each of which is introduced by a commentary written by series editor Douglas C. Lovelace, Jr. In addition to the documents listed above, this volume also contains recent reports analyzing those documents, as well as a legal update on the

current status of the Authorization for the Use of Military Force (AUMF) and a consideration of the War Powers Resolution. *Security Strategies of the Second Obama Administration* Terrorism: Commentary on Security Documents Volume 103, Global Issues, continues the recent changes to this series that have justified a new publisher-brand, a new title, and a re-designed cover. That new title emphasizes the expert commentary now provided by three leading scholars in the field: Doug Lovelace, Director of the Army War College's Strategic Studies Institute, Kristen Boon of Seton Hall Law School, and

Aziz Huq of the University of Chicago School of Law. In this particular volume, Lovelace updates researchers on new developments in various regions of the world. He devotes many pages to the debacle along the Afghanistan-Pakistan border, where Pakistan harbors extremists conducting the insurgency in Afghanistan. Both the documents selected by Lovelace and his insightful commentary describe how the U.S., under advice from Special Envoy Dick Holbrooke, has changed its approach to the problem by treating Afghanistan and Pakistan as one party instead of two. Volume 103 ("Global Issues") also examines the complex issue of

China's possible assistance to terrorists overseas. For example, some weapons used against coalition forces in Afghanistan originate from China, despite China's promise to help the U.S. in its war against terror. Lovelace and the documents he presents also assess India's measured, thoughtful reaction to allegations that Pakistan facilitated the November terrorist attacks in Mumbai. The volume also alerts readers to disturbing developments in South America, where such groups as FARC in Colombia and The Shining Path in Peru have persisted in their profit-seeking campaigns of violence, despite those countries' general success in diminishing

their power.

Terrorism:
Commentary on
Security Documents is
a series that provides
primary source
documents and expert
commentary on
various topics relating
to the worldwide effort
to combat terrorism, as
well as efforts by the
United States and
other nations to
protect their national
security interests.

Volume 144,
Autonomous and
Semiautonomous
Weapons Systems,
examines the impact of
robots and
autonomous and
semiautonomous
weapons systems on
the waging of modern
warfare. It considers

the likely effects of
emerging technological
innovations in this area
from both a political
and strategic
standpoint, in addition
to considering the
implications of such
technologies within the
context of the law of
armed conflict and
international
humanitarian law. This
volume is divided into
three sections: (1) U.S.
policy and approaches
to the use of
autonomous and
semiautonomous
weapons systems; (2)
U.S. armed forces use
of such weapons
systems; and (3)
potential terrorist use
of such weapons
systems. Official policy
documents from the
DoD and the U.S. Army
and Air Force are
complemented by
reports from the
Strategic Studies

Institute/Army War College Press and other U.S. military sources.

The Evolution of the Islamic State Oxford University Press
Terrorism: Commentary on Security Documents Volume 103, Global Issues, continues the recent changes to this series that have justified a new publisher-brand, a new title, and a re-designed cover. That new title emphasizes the expert commentary now provided by three leading scholars in the field: Doug Lovelace, Director of the Army War College's Strategic Studies Institute, Kristen Boon of Seton Hall Law School, and Aziz Huq of the University of Chicago School of Law. In this particular volume,

Lovelace updates researchers on new developments in various regions of the world. He devotes many pages to the debacle along the Afghanistan-Pakistan border, where Pakistan harbors extremists conducting the insurgency in Afghanistan. Both the documents selected by Lovelace and his insightful commentary describe how the U.S., under advice from Special Envoy Dick Holbrooke, has changed its approach to the problem by treating Afghanistan and Pakistan as one party instead of two. Volume 103 ("Global Issues") also examines the complex issue of China's possible assistance to terrorists overseas. For example, some weapons used

against coalition forces in Afghanistan originate from China, despite China's promise to help the U.S. in its war against terror. Lovelace and the documents he presents also assess India's measured, thoughtful reaction to allegations that Pakistan facilitated the November terrorist attacks in Mumbai. The volume also alerts readers to disturbing developments in South America, where such groups as FARC in Colombia and The Shining Path in Peru have persisted in their profit-seeking campaigns of violence, despite those countries' general success in diminishing their power.

Terrorism: Documents of International and Local Control, Volumes

1-100 Oceana Publications Terrorism: Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism, as well as efforts by the United States and other nations to protect their national security interests. Volume 143, *The Evolution of the Islamic State*, focuses on the U.S. response to the Islamic State (IS) both in Syria and Iraq from a foreign policy standpoint and a military strategy perspective, as well as considering the impact of the rise of IS on the broader global jihadist movement. Consideration is also given to the

importance of information warfare in countering IS's worldwide recruiting efforts via the Internet. This volume also includes documents examining related issues of great importance, including a report considering IS's financing, a report on the legal issues arising in connection with U.S. military action against IS, the role of Shia warlords and militias in Iraq in opposing IS, and the lessons that can be learned from the support provided to IS by European fighters.

Catastrophic Possibilities Oxford University Press
Volume 109 of
Terrorism:
Commentary on
Security Documents,
"Terror-Based
Interrogation,"
provides a

documentary history of U.S. interrogation policy since 9/11. General Editor Douglas Lovelace presents in this volume the Bush Administration memos that asserted a legal basis for coercive interrogation, commonly known as the "torture memos," including those written by the controversial Department of Justice attorney John Yoo. Volume 109 guides researchers from those memos through Congressional efforts at banning torture to current Obama Administration steps to ensure compliance with international norms against coercive interrogation. Students and scholars alike will find in this volume an indispensable source for research on U.S. interrogation policies in

the post-9/11 era.

Terrorism 1 Oxford University Press, USA With approximately eight new volumes released each year, this series is an extensive collection of significant U.S.-generated documents covering all major and minor issues and events regarding terrorism. Government reports, executive orders, speeches, court proceedings, and position papers are presented.

2015 Developments Oxford University Press
Terrorism:
 Commentary on Security Documents Volume 104: Current Trends brings readers up to date on the major trends in U.S. counter-terrorism efforts. In this volume, General Editors Doug Lovelace, Kristen Boon

and Aziz Huq categorize the selected documents into three realms: strategic trends, economic trends, and intelligence trends. In the strategic realm, Lovelace provides helpful commentary on such underreported national security threats as the threat of conventional arms posed by developing countries. The main economic trend that this volume explores is the immense economic burden created by the US military campaigns in Afghanistan and Iraq. The last section of this volume presents the latest information on how technology is improving the intelligence capabilities of the U.S. military. In particular, Volume 104 (Current Trends) details how the U.S.

military has adjusted its counter-terror strategy in light of the Global War on Terrorism's open-ended, seemingly endless nature. Lovelace's commentary and document selection also reveal the problem the U.S. federal government faces in its commitment to insure victims of terrorism for their losses. Lastly, this volume shows how the U.S. intelligence community has now sought to improve its effectiveness by studying the non-terrorist criminal steps that extremist groups take in preparation for an attack.

U.N. RESPONSE TO AL-QAEDA Oxford University Press, USA
Volume 110 of
Terrorism:

Commentary on Security Documents, "Assessing the GWOT," provides researchers with a one-volume update on how the U.S. is faring in its global war on terrorism, or "GWOT." The volume pays special attention to the monetary cost of that war. General Editor Douglas Lovelace also guides readers through a regional tour of the GWOT's battlefields, particularly in Iraq and Afghanistan. Researchers will benefit especially from Lovelace's analysis of the influence that Iran currently exercises over insurgent activity in Iraq. Given the many facets of U.S. anti-terror policy and the many strands of the legal debate over it, this volume provides a helpfully concise and

illuminating picture of the current state of that policy.

TERRORISM:
Commentary on
Security Documents
Volume 106 Terrorist
Financing and Money
Laundering Oxford
University Press

TERRORISM:
Commentary on
Security Documents
Volume 107 Terrorism,
Commentary on Secur
Volume 106 of
Terrorism:
Commentary on
Security Documents,
Terrorist Financing and
Money Laundering,
guides readers through
the complex legal
terrain of terrorist
financing and money-
laundering.
Researchers will
benefit from the
diversity of this

volume's selection:
from U.S. agency
reports on how to
implement the
recommendations of
the 9/11 Commission
to the efforts of the
European Parliament in
seizing assets to two
perspectives on how
well Saudi Arabia is
combating terrorist
financing within its
borders: the U.S.
perspective and the
perspective of Saudi
Arabia itself. Equally
important for
researchers is this
volume's extensive
treatment of U.N.
measures on terrorist
financing and money
laundering. The volume
concludes with the full
text of the model rules
for regulating
terrorism-related
financial transactions,
as promulgated by a
joint body of the U.N.
and the International

Monetary Fund.
Hybrid Warfare and the Gray Zone Threat Oxford University Press
Volume 118 of Terrorism: Commentary on Security Documents, International Nuclear Security contains documents that illustrate the implementation and evolution of the nuclear regulation, disarmament, and non-proliferation regimes created by various states and international bodies. Efforts to control nuclear weapons have redoubled since the events of September 11, 2001. In order to help States prevent and respond to the risk of nuclear terrorism, the International Atomic Energy Agency established a nuclear

security program in 2002 and the United Nations General Assembly also adopted the International Convention for the Suppression of Acts of Nuclear Terrorism in 2005. Both instruments focus on verification and the various other documents in this volume provide a comprehensive look at modern efforts to combat nuclear security concerns. Assessing the 2017 U.S. National Security Strategy Oxford University Press
Terrorism: Commentary on Security Documents is a series that provides primary source documents and expert commentary on the worldwide counter-terrorism effort. Among the documents collected are

transcripts of Congressional testimony, reports by such federal government bodies as the Congressional Research Service (CRS) and the Government Accountability Office (GAO), and case law covering issues related to terrorism. Most volumes carry a single theme, and inside each volume the documents appear within topic-based categories. The series also includes a subject index and other indices that guide the user through this complex area of the law. Volume 122, U.N. Response to Al Qaeda-- Developments Through 2011, discusses recent actions by the United Nations in response to Al-Qaeda, particularly focusing on sanctions under Security Council Resolution 1267 as

well as regional responses and court challenges to 1267 sanctions. The documents introduced by Kristen Boon include the key Security Council resolutions, EU regulations, court decisions, and reports by Security Council committees and external bodies.

Commentary on Security Documents, Index Oxford University Press
Terrorism: Documents of International and Local Control is a hardbound series that provides primary-source documents on the worldwide counter-terrorism effort. Chief among the documents collected are transcripts of Congressional testimony, reports by such federal government bodies as

the Congressional Research Service and the Government Accountability Office, and case law covering issues related to terrorism. The series also includes a subject index and other indices that guide the user through this complex area of the law. Overall, the series keeps users up-to-date on the panoply of terrorism issues now facing the U.S. *Terrorism 1* Terrorism: Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics in the worldwide effort to combat terrorism. Among the documents collected are transcripts of

Congressional testimony, reports by such federal government bodies as the Congressional Research Service (CRS) and the Government Accountability Office (GAO), United Nations Security Council resolutions, reports and investigations by the United Nations Secretary-General and other dedicated UN bodies, and case law from the U.S. and around the globe covering issues related to terrorism. Most volumes carry a single theme, and inside each volume the documents appear within topic-based categories. The series also includes a subject index and other indices that guide the user through this complex area of the law. Volume 125, Piracy and

International Maritime Security - Developments Through 2011, builds upon the maritime security issues presented previously in Volume 112 to detail the most recent initiatives at the multinational, regional, and domestic levels towards eradicating the maritime security threat stemming from piracy and armed robbery off the coast of Somalia. Professor Kristen Boon has organized and framed investigative reports by the UN Secretary-General, UN Security Council Resolutions, documents by UN bodies and NGOs, and international caselaw in order to detail efforts by the global community, including the UN's Contact Group on Piracy Off the Coast of Somalia, towards

ending the immediate threat of piracy and armed robbery off the Somali Coast while also addressing its underlying causes.

Documents of International and Local Control Oxford University Press Volume 108 of Terrorism: Commentary on Security Documents tackles the contentious issue that appears in the volume's title: "Extraordinary Rendition". Although many commentators and publications have focused on the U.S. policy of such troubling transfers, little focus has been devoted to the reaction to this policy by the rest of the world. In this volume, new General Co-Editor Aziz Huq both presents the key documents

demonstrating that reaction and comments authoritatively on what those documents mean for the future of torture-based international transfers. For ease of research, Huq has divided the volume into two sections: the first deals with U.N. and E.U. responses to the U.S. policy, including a case before the U.N. Committee Against Torture, and the second section tours the reports and cases on rendition that have arisen from national jurisdictions, specifically Italy, Sweden, the U.K., Ireland, and Canada.

Volume 147 Oxford
University Press
Terrorism:

Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism, as well as efforts by the United States and other nations to protect their national security interests. Volume 145, *The North Korean Threat*, examines the strategies adopted by the United States, China, and the international community in response to the nuclear threat posed by North Korea. The volume includes a selection of documents chosen to illustrate developments in this area from 2010 through 2016, with commentary from series editor Douglas

C. Lovelace, Jr. The documents in this volume include 2016 UN Security Council resolutions on North Korea, Congressional Research Service reports covering various aspects of the U.S. response to North Korea's nuclear program, a U.S. Department of Defense report prepared for Congress on military and security developments related to North Korea, and a detailed description of the U.S. sanctions program against North Korea from the U.S. Treasury Department's Office of Foreign Assets Control.

Russia's Resurgence
Oxford University Press
Terrorism:
Commentary on Security Documents is a series that provides primary source

documents and expert commentary on various topics relating to the worldwide effort to combat terrorism, as well as efforts by the United States and other nations to protect their national security interests. Volume 148, *Lone Wolf Terrorists*, examines the phenomenon of the solitary domestic terrorist, analyzes the distinction between such terrorists and mass murderers who are not deemed to be terrorists, considers the motivations of violent extremists, and examines the dilemmas faced by law enforcement in preventing solitary political extremists with violent ideologies from translating their beliefs into actions. The volume is divided into three sections,

providing an overview of the topic, an examination of strategies for prevention of such attacks, and a consideration of the Internet's role in contributing to radicalization. Documents included in this volume include a CRS report on domestic terrorism, a report examining violent radicalization from a criminal justice perspective, and a CRS report differentiating hate crimes from domestic terrorism, as well as other reports on the lone wolf terrorism phenomenon and strategies to prevent and/or counter it. The last document in the volume is a CRS report relating to the advocacy of terrorism on the Internet, especially including

social media, and the ways in which law enforcement might be able to address the problem of dangerous online speech within the current U.S. legal structure.

Terrorism:

Commentary on Security Documents is

a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism, as well as efforts by the United States and other nations to protect their national security interests. Volume 135, *Assessing Future U.S. National Defense Needs*, examines the changes in U.S. national defense priorities in the second term of the Obama administration, including a decreased emphasis on the war against terrorists and a new conceptualization of national defense firmly nested within the larger context of national security. The documents included in this volume include policy statements from the Secretary of

Defense, strategic intelligence estimates, defense efficiency initiatives, assessments of the ramifications of reducing the size and capabilities of the U.S. Army and Marine Corps, and reports on irregular warfare and special operations,
