The new edition of the best-selling reader
Understanding Health and Social Care
(previously edited by Maragraet Allot and
Martin Robb) combines classic works with
newly-commissioned material, offering
readers unparalleled coverage of the key
issues in health and social care. The

breadth of material encompasses voices of
service users, professional and lay carers,
as well as academics and researchers.
This Second Edition is organised into four
new sections, each with a part introduction
pulling together the main themes: - People
focuses on those who use and provide
health and social care services. - Places
looks at where care is given - Approaches
considers different ways through which
care takes places - Ideas focuses on the
ideas and policies that underpin care
provision Full of real practice scenarios
and examples, the book successfully

makes the links between theory and practice, and will be an essential resource for all students studying at undergraduate level across the wide spectrum of health and social care.

From the patient's perspective, a complaint about healthcare or service is an urgent statement of fact. "I am here where I don't want to be," "I am frightened and unsure what will happen next," "I put my trust in you, and now something is wrong," or "How can I be sure I will be okay?" When you respond to a patient's complaint, you are responding to the patient's sense of helplessness and anxiety. The service recovery scripts offered in this book can help you recover a patient's confidence in you and your organization.
