**.NET cloud applications | Build and consume cloud services**  
Building Cloud Apps With Microsoft Building Real-World Cloud Apps  
with Azure. 06/12/2014; 7 minutes to read +4; In this article. by  
Mike Wasson, Rick Anderson, Tom Dykstra. Download Fix It  
Project or Download E-book. This e-book walks you through a  
patterns-based approach to building real-world cloud  
solutions. Building Real-World Cloud Apps with Azure | Microsoft  
Docs As noted in a recent post, MS Press has published an e-book  
based on Scott Guthrie's presentation, Building Cloud Apps With  
Windows Azure. The book consistently features Azure Websites as

the default choice for hosting web applications, with one  
exception where it switches to Cloud Services. In the queue-  
centric work pattern chapter, the book uses a Worker Role to  
handle backend processing for ... Building Cloud Apps with the  
Azure WebJobs SDK | Azure ... Building Web Services with  
Microsoft Azure . by Alex Belotserkovskiy, Stephen Kaufman,  
Nikhil Sachdeva. There's a plethora of development tools and  
frameworks available today. But Microsoft Azure provides a  
scalable and manageable platform for customers to easily deploy,  
monitor, and troubleshoot their cloud-based applications. Building  
Cloud Apps with Microsoft Azure - Free Download ... Last week MS  
Press published a free ebook based on the Building Real-World  
Apps using Azure talks I gave at the NDC and TechEd  
conferences. The talks + book walks through a patterns-based  
approach to building real world cloud solutions, and help make it

easier to understand how to be successful with cloud  
development. Free ebook: Building Cloud Apps with Microsoft  
Azure Building Cloud Apps with Microsoft Azure Logic Apps  
simplifies how you design and build scalable solutions for app  
integration, data integration, system integration, enterprise  
application integration (EAI), and business-to-business (B2B)  
communication, whether in the cloud, on premises, or both.  
For Building Cloud Apps With Microsoft Azure Best Practices  
... Build Modern, Scalable Cloud Apps. .NET enables you to build  
fast, modern, and scalable cloud applications on all major cloud  
platforms. If you haven't yet decided on a cloud, we recommend  
Azure. Azure is the best cloud for .NET developers because it was  
built with .NET developers in mind. .NET cloud applications | Build  
and consume cloud services Download Book Download: Building
