Oxford IB Study Guides: Chemistry for the IB Diploma Mometrix Media Llc  
 This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the Oxford Biology Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. Fully comprehensive and matched to the new 2014 syllabus Concise and focused approach simplifies complex ideas, building truly confident understanding Clear and explanatory style uses plenty of visuals to make each concept accessible, easing comprehension Build a strong foundation of assessment skills, strengthening potential with integrated exam questions Develop assessment confidence, drawing on thorough assessment support and advice Clear and straightforward language  
Oxford IB Diploma Programme: Economics Course Book OUP Oxford  
 The only textbook that fully supports the Chemistry part of the Oxford AQA International GCSE Combined Sciences specification (9204), for first teaching from September 2016. Written by experienced authors, the engaging, international approach ensures a thorough understanding of the underlying principles of chemistry and provides exam-focused practice to build exam confidence. It fully covers the 3 chemistry required practicals in the specification, enabling your students to build the investigative and experimental skills required for assessment. This textbook helps students to develop the scientific, mathematical and practical skills and knowledge needed for the Oxford AQA International GCSE Combined Sciences exams and provides an excellent grounding for further study at A Level.  
*Psychology for the IB Diploma* OUP Oxford  
 Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. This digital version of Chemistry for the IB Diploma Coursebook, Second edition, comprehensively covers all the knowledge and skills students need during the Chemistry IB Diploma course, for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Chemistry teaching, the text is written in an accessible style with international learners in mind. Self-

assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.

*For the IB diploma* Hachette UK

Completely updated for the 2011 syllabus at SL and HL and written by an experienced IB Economics teacher, this comprehensive study tool supports top achievement. With full coverage of the new quantitative element at HL and an expanded glossary, past exam questions build confidence and the focused approach distinctly strengthens comprehension.

*For the IB diploma* OUP Oxford

Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016.

### IB Chemistry SL and HL Examination Flashcard Study System

Developed in collaboration with the International Baccalaureate Organization, Oxford's Course Companions provide extra support for students taking IB Diploma Programme courses. They present a whole-course approach with a wide range of resources, and encourage a deep understanding of each subject by making connections to wider issues and providing opportunities for critical thinking. It has been written by a principal examiner for the IB Diploma Program Chemistry and has been extensively reviewed by teachers, consultants and the IBO. With material integrated to include international and historical perspectives, students are encouraged to think critically and make connections to other subjects and to world issues. Includes material for cross curricular connections to help students think critically about science and consider its evolution, full coverage of the core and AHL as well as selective coverage of the Options, provides a wealth of illustrations to help explain difficult concepts, material for CAS and the extended essay as well as examination questions included for critical thinking, examination practice and reinforcement of concepts learned.

*Revision Guide and Workbook* OSC IB Revision Guides for the International Baccalaureate Diploma Programme
