He preached to thousands. Inspired heretics to return to the Church. Performed miracles. Lived in deepest intimacy with Christ. The story of Saint Anthony of Padua has been told many times. But never like this. In this compelling biography, Madeline Nugent, CFP, seamlessly unites historical facts with engaging narrative that reads like a novel. She draws on primary sources, scholarly research, time spent in Italy, and interviews with Franciscan experts to vividly present the world of Saint Anthony through the eyes of those who knew him best—and through the words of Anthony himself.

The biographic text of St. Anthony is presented complete in this edition for the reader's absorption and contemplation. First published in the 4th century A.D., Anthony the Great's biography was authored by Christian Saint Athanasius of Alexandria. Since its release, the book has helped spread the beliefs, practices and arduous faith of Anthony the Great. A significant progenitor of the monastic tradition, Saint Anthony lived an ascetic lifestyle in the arid lands of Egypt. Although not the earliest of religious figures committed to this tradition, through actions and preaching Anthony helped popularise and spread principles that would contribute heavily to the establishment of Christian monasteries in Europe and beyond. One event in St. Anthony's life was his encounter with the supernatural in the remote Egyptian desert. This occurrence, where the otherworldly presence tried to tempt him from his spartan philosophy of living, is much recreated in Western art and literature.

Among the followers of St. Francis there were saints and teachers who were endowed by God with a natural and supernatural kinship with their holy founder. They developed the Franciscan spirituality which had its origin in the simple practical life and the rules of St. Francis; and they gave further, clearer expression to it both by their lives and their writings. Thus they pointed out the characteristic traits of Franciscan spirituality, both in a practical and a theoretical way. Concerning the distinctive features of Franciscan spirituality, as contained in the Franciscan tradition, suffice it to say that its essence is doctrinal Christocentrism and practical imitation of Christ, conformity with Christ, prompted by love. Distinctive aspects of Franciscan piety are childlike love of God, our Father, devotion to the Humanity of Christ, His Sacred Heart, the Holy Eucharist, the mysteries of the Nativity and the Passion, His Virgin Mother Mary, and reverence for the Catholic priesthood.

Franciscan love of God finds expression also in charity to our fellowmen, understanding them as our brothers, especially in aid to the poor and sick and in apostolic zeal for souls, Christian and pagan. Total poverty detaches the Franciscan soul from creatures, but at the same time it recognizes God in created things and uses the latter to mount to God. Emphasis is placed on the will, and hence on love and action above speculation. The atmosphere in which the Franciscan spirit develops is one of individual freedom of the spirit, absence of coercive and confining methods, love of enterprise, and a sense of realism. On the path of this traditional Franciscan way of life many have attained sainthood. Thus, The Seraphic Order, which recounts their lives and virtues, can well serve as a practical textbook of Franciscan spirituality.

Excerpt: 2. S. Antony of Padua was not only one of the greatest, but, perhaps, the most popular, among the preachers of the Middle Ages. His extant Sermons, or, as they might rather be called, Sermon Notes, though coming down to us with all the disadvantages of their skeleton form, nevertheless evince a grasp of the Sacred Volume which well entitles him to the name bestowed on him by Gregory IX., -"The Ark of the Testament." That which he exemplifies in his discourses, he shows in a not less striking manner by the "Concordantiæ Morales," which are now, for the first time, presented to the English reader. 3. To enter into the question of the allegorical interpretation of Scripture in which the Middle Ages delighted, would require a volume instead of a preface. [Further remarks on this subject may be seen, if the reader wishes it, in the introduction to my Mediæval Preachers.] It is not denied that many of the passages adduced by S. Antony could scarcely be quoted to a modern audience in the sense in which he applies them. Nevertheless even from these, by way of illustration, if not by way of proof, a preacher of the present century might learn much, as a few examples, presently to be given will, perhaps, prove. 4. The "Moral Concordances" have come down to us in a very imperfect state. They were long supposed to be lost, and indeed considerable doubts were entertained whether such a book had ever existed. S. Antony died in 1231, and the manuscript was not discovered till about 1638, when it was disinterred in the library attached to the Church called Aracoeli, in Rome. It seems to have been published without very much attention to the correctness of its references; and as its author had, of course, merely referred to the chapter, without the verse, a great portion of the mistakes which occur may be owing to such (then necessary) vagueness of quotation. Further, it would seem that the subjects and the texts had been written in parallel columns, so that sometimes the verse which ought to have been last on one list, has found its way into the section which follows. The references are throughout most incorrectly given; one book even of Holy Scripture being sometimes substituted for another, while the chapters are very frequently wrong, and the verses in the later edition badly quoted in, perhaps, one instance out of three. 5. In the present edition all the references have been verified, and have been made to correspond with the authorised version

This volume is the first English translation and annotation of the sermons of António Vieira, a major cultural figure in the Portuguese-speaking world. Born in Lisbon in 1608, Vieira was a Jesuit who lived and worked in both Europe and Brazil in the service of the church and the Portuguese crown. His sermons are among the most renowned pieces of baroque oratory in the Portuguese language. These carefully selected sermons offer insight into Vieira's visionary thought on social and spiritual matters. In the Sermon for the Success of Portuguese Arms against the Dutch, Vieira inveighs against God for His apparent abandonment of the Portuguese and begs for divine intervention. His Sermon of St. Anthony is an allegory that addresses the inequities that he witnessed in Brazil. The Sexagesima Sermon parodies literary clichés from his time while prescribing a more effective, if harsher, style of preaching. The Sermon of the Good Thief is a rebuke to the imperial officials who used their positions for personal enrichment, and a warning to kings against complicity with corruption. Vieira's Sermon XXVII addresses African slaves and their Brazilian masters, attempting to comfort the first group in their trials and to admonish the second for their brutality. Finally, the Sermon called Arm tells the story of the relic of Francis Xavier's arm sent from India to Italy in 1614, and pays tribute to the obedience of Vieira's Jesuit predecessor.

If ever man, if ever saint received the Holy Spirit abundantly, it was unquestionably the saint whose life we now present for the edification of the faithful. It was by the Holy Spirit and His sevenfold gifts that St. Anthony accomplished those great wonders which we admire in his life. Supernatural light and piety and strength were the means which God furnished him, and by which he so marvellously fulfilled his mission. When the Saviour wished to save men, He commenced His ministry by instructing them. He preached in Judea and in Galilee, in fact He declared that His mission was precisely to preach to men. When He was about to ascend to heaven, He charged His apostles to continue the work He had begun, and insisted that they also should preach His word to men. Yet let us not suppose that preaching consists merely in the discourses which the apostle delivered: "No," said a great preacher, "the apostle is not only a man who knows, and who teaches by means of the

word delivered; the apostle is a man who preaches Christianity with his whole being, and whose very presence is the appearance of another Christ." And such was St. Anthony of Padua, to whom devotion is so widespread to-day. This amiable saint was at once both monk and apostle. To the preaching of the Gospel he added the strict observance of the severest counsels and the constant practice of fasting, of penance, and of prayer. It was by these means that he captivated countless followers: the just were strengthened, the slothful fired with zeal, sinners were converted, and heretics recognized their errors. At the comparatively early age of thirty-six years his earthly mission ended. After his death, even as during his life, wonders were wrought through his intercession. And now, after seven centuries have passed away, the great wonderworker still spreads out his blessings on those who invoke him, with such profusion as is well calculated to encourage his devout servants to continue the offering of their homage. It is for this end that we devote these few pages, which will proclaim the virtues of this great friend of God, and the power he possesses in heaven. To render to the saints the honor which is love them, we should invoke and imitate them. We should strive to follow the good examples which they have given us while on earth; and to do this we should read and know their lives. Let us read especially the life of St. Anthony of Padua, and we shall be astonished at such exalted sanctity. We cannot fail to admire the power granted by God to this wonderworker. Devotion to St. Anthony of Padua crossed the ocean with our fathers, and with the Virgin Mother and St. Joseph he is invoked in almost every Catholic household, with a fervor and a piety which, we must admit, have received their fullest recompense. Who can deny the power of St. Anthony, especially in certain circumstances? When we read this little book, we shall learn, after the example the saint has given us, that there is everything to gain by serving God faithfully and lovingly, while there is everything to lose by abandoning Him. We shall learn also the great advantages which follow the invocation of the saints, and how much our sorrows shall be soothed, if we only know how to form friendships in heaven.

This Catechism is divided into three parts: The first part treats of faith, the second of morals, the third of the means of grace. In the first part Our Lord appears in His character of Teacher; in the second in His character of King; and in the third in His character of High Priest. And since this Catechism proposes as its primary object to answer the question, for what purpose are we here upon earth, thereby emphasizing and giving prominence to man's high calling and destiny, it is especially suited to the present day, when the pursuit of material interests, self-indulgence and pleasure, engrosses the attention of so many. This Catechism is in fact nothing more nor less than an abstract of Our Lord's teaching, and may be called a guide book for the Christian on the road to heaven. - Preface.

The reputation of the wonders and miracles performed by St. Anthony of Padua found its place in the first biographies devoted to him. Among these was The Book of Miracles which the Franciscan Arnaud de Serranne, provincial of Aquitaine in the 14th century, included in his Chronicles of the beginning of the Order of Friars Minor, and from which are drawn these Fioretti. This widespread

work was the main inspiration for the iconography of St. Anthony, of which a few examples highlight this book. As for the wonders themselves related here, if they appeal to a sensitivity different from ours, nonetheless they are proof of a candor, of a poetry and sincerity that have preserved a moving freshness.
