African Books Collective
This book focuses on
news silence in

Zimbabwe, taking as a
point of departure the
(in)famous blank spaces
(whiteouts) which
newspapers published to
protest official censorship
policy imposed by the
Rhodesian government
from the mid-1960s to the
end of that decade. Based
on archived news content,

the author investigates the cause(s) of the disappearance of blank spaces in Zimbabwe's newspapers and establishes whether and how the blank spaces may have been continued by stealth and proposes a model of doing journalism where news is inclusive, just and less productive of blank spaces. The author explores the broader ramifications of news silences, tacit or covert on society's sense of the world and their place in it. It questions whether and how news media

continued with the practice of epistemic deletions and continue to draw on the colonial archive for conceptual maps with which to define and interpret contemporary postcolonial realities and challenges in Zimbabwe. This book will be of interest to scholars, researchers and academics researching the press in contemporary Africa, critical media analysis, media and society studies, and news as discourse.

Restoring the Educational Dream. Rethinking Educational Transformation in Zimbabwe UNESCO Regional Office
This book is the first to tackle the difficult and complex politics of transition in Zimbabwe, with deep historical analysis. Its focus is on a very problematic political culture that is proving

very hard to transcend. At the center of this culture is an unstable but resilient 'nationalist-military' alliance crafted during the anti-colonial liberation struggle in the 1970s. Inevitably, violence, misogyny and masculinity are constitutive of the political culture. Economically speaking, the culture is that of a bureaucratic, parasitic, primitive accumulation and corruption, which include invasion and emptying of state coffers by a self-styled 'Chimurenga aristocracy.'

However, this Chimurenga aristocracy is not cohesive, as the politics that led to Robert Mugabe's ousting from power was preceded by dirty and protracted internal factionalism. At the center of the factional politics was the 'first family': Robert Mugabe and his wife, Grace Mugabe. This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe, taking seriously such issues as gender, misogyny, militarism,

violence, media, identity, modes of accumulation, the ethnicization of politics, attempts to open lines of credit and FDI, national healing, and the national question as key variables not only of a complete political culture but also of difficult transitional politics. *Meeting Basic Educational Needs in Zimbabwe : an Evaluation* Springer Science & Business Media PSPCL was incorporated as company on 16-04-2010 and was given the responsibility of operating and

maintenance of State's own generating projects and distribution system. The business of Generation of power of erstwhile PSEB was transferred to PSPCL.

Empirical Insights Into Qualitative Research Methodology Taylor & Francis

In 1980, the newly independent and democratic Zimbabwe was a beacon of hope in a troubled region. Three decades later, Zimbabwe became the focus of international attention for very different reasons: acrimonious racial relations, controversial elections, economic hardship, and military

intervention in the Democratic Republic of the Congo. Mugabe and the Politics of Security in Zimbabwe argues that this unfortunate transition is intrinsically linked to the ways in which President Robert Mugabe used the politics of domestic and external security for his own gain. Abiodun Alao presents a comprehensive study of defense institutions, domestic security policy, and external use of military force during Mugabe's decades of rule. He identifies the role of

personality in security and explains how the machinations of a self-perpetuating ruler shaped the economic and political dynamics of the struggling nation. He also provides analytical perspectives on Mugabe's transformations from a freedom fighter to a stable president of a relatively economically strong, independent country, and finally to an imprudent autocrat and international pariah. Nuanced, impassioned, and timely, *Mugabe and the Politics of Security* in

Zimbabwe sheds new light on the effects of national security policy and develops a clear picture of the country's past, present, and future. *Beyond the Enclave* Springer Nature
The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe. It challenges scholars to think about the role of education, its funding and the egalitarian approach to widening access to education. The nexus between education,

democracy and policy change is a complex one. The book provides an illuminating account of the constantly evolving notions of national identity, language and citizenship from the Zimbabwean experience. The book discusses educational successes and challenges by examining the ideological effects of social, political and economic considerations on Zimbabwe's colonial and postcolonial education. Currently, literature on current educational

challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe. This book is likely to be one of the first on the impact of social, political and economic meltdown on education. The book is targeted at local and international academics and scholars of history of education and comparative education, scholars of international education and development, undergraduate and

graduate students, and professors who are interested in educational development in Africa, particularly Zimbabwe. Notwithstanding, the book is a valuable resource to policy makers, educational administrators and researchers and the wider community. Shizha and Kariwo's book is an important and illuminating addition on the effects of social, political and economic trajectories on education and development in Zimbabwe. It critically

analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture. The book offers new insights that may be useful for an understanding of not only the Zimbabwean case, but also education in other African countries. Rosemary Gordon, Senior Lecturer in Educational Foundations, University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden

era of populist, universal elementary education to the disarray of contemporary socioeconomic crisis; covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching, this text provides a comprehensive, wide ranging and yet carefully detailed account of education in Zimbabwe. This engagingly written

portrayal will prove illuminating not only to readers interested in Zimbabwe's education specifically but more widely to all who are interested in how the sociopolitical shapes education- how ideology, policy, international pressures, economic factors and shifts in values collectively forge the historical and contemporary character of a country's education. Handel Kashope Wright, Professor of Education, University of British Columbia

UPPSC Previous Year Papers - General Studies CSAT Paper 1 - Uttar Pradesh Civil Services Exam The Effectiveness of the Primary School Teacher in Zimbabwe Zimbabwe Books in Print International Handbook of Mathematical Learning Difficulties From the Laboratory to the Classroom The role of education in human well being and social development cannot be overestimated. After a number of highly commendable policies on

education in the first decade of independence, the education system in Zimbabwe has taken a tumble that needs both examining and rectifying. This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980. The book is targeted at academics, scholars, college and university students, policy makers

and other stakeholders and advocates a multi-pronged approach that must involve all stakeholders if educational retransformation, reconstruction and restoration are to be achieved. The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe.

Beyond the Enclave sets out to unravel the contradiction of a country, Zimbabwe, where a rich, diverse resource base co-exists with endemic poverty. One reason lies in the colonial economy, which was predicated on an ideology of white supremacy, creating an enclave formal economy employing one-fifth of the labour force. Yet over three decades after independence, the non-formal segment has become even more entrenched. This book

assesses Zimbabwe's economy through three main phases: 1980-90 when a strong social policy framework proved difficult to sustain due to erratic growth, and 1991-96, when structural adjustment demanded a market-driven approach to development. The third phase is characterized by crisis-management leading to policy inconsistencies and reversals. Not surprisingly, such incoherence saw the economy descend into hyperinflation and

paralysis in 2007-2008, leading to the signing of the Global Political Agreement in September 2008. In the absence of formal dollarization, economic recovery after the adoption of the multi-currency regime has remained fragile, leaving an estimated 70 per cent of the population outside the banking system. This has further entrenched uneven (enclave) growth as the economy remains locked in a low-income poverty trap. There is a need to facilitate transition towards

formality to promote decent jobs. Furthermore, a strategic, developmental role for the state in the economy is now widely recognized as vital for development. Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro-poor and inclusive strategies, which will contribute to the well-being of all of its citizens and wise stewardship of its resources. It offers suggestions on policy formulation, implementation,

monitoring and evaluation in all sectors, designed to promote inclusive growth and humane development.

Resources in Education
Routledge

At Independence in 1980, Julius Nyerere called Zimbabwe 'the jewel of Africa', and cautioned its new leaders not to tarnish it. Tragically, they paid no heed to Africa's esteemed elder statesmen. Arguably - and only if one ignores the carnage of Gukurahundi - the first decade was a developmental one, with

resources being used prudently to benefit the formerly disadvantaged majority population. However, the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis, where it has remained ever since. While many African countries have moved forward over the last three decades, Zimbabwe has gone relentlessly backwards, save for the four-year interregnum of the tripartite coalition

government, 2009-2013. Virtually all development indicators point in the wrong direction and the crisis of poverty, unemployment, and the erosion of health, education and other public goods continues unabated. The imperatives of political survival and power politics supersede those of sound economics and public welfare. Moreover, unless good politics are conjoined with a sound people-first policy, the country will continue sliding downhill.

Zimbabwe's Trajectory tells the story of the country's post-independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world.

 This book presents 21 papers given at a workshop held to demonstrate future policy towards hunting by tourists in Tanzania. The volume brings together contributions from experts from eastern and southern African countries. Papers cover a range of topics from administration of hunting, setting quotas, safari

volume and returns from hunting, the involvement of local communities, and the professional hunter. The volume also includes recommendations from the workshop that were used to guide the preparation of policy. A comprehensive guide to different aspects of hunting as a form of wildlife use in Africa.

This comprehensive
volume provides teachers,
researchers and

education professionals
with cutting edge
knowledge developed in
the last decades by the
educational, behavioural
and neurosciences,
integrating cognitive,
developmental and
socioeconomic
approaches to deal with
the problems children
face in learning
mathematics. The
neurocognitive
mechanisms and the
cognitive processes
underlying acquisition of
arithmetic abilities and
their significance for
education have been the

subject of intense
research in the last few
decades, but the most
part of this research has
been conducted in non-
applied settings and
there's still a deep
discrepancy between the
level of scientific
knowledge and its
implementation into
actual educational
settings. Now it's time to
bring the results from the
laboratory to the
classroom. Apart from
bringing the theoretical
discussions to educational
settings, the volume
presents a wide range of

methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments. It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues. And it does so from an international

perspective, dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world. All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge

society.
