KYLEE BECKER

The Making of India and Pakistan, New Edition Stanford University Press

An examination of the ideas, practices and controversies surrounding the Indian Constitution.

Defining a Nation Harvard University Press

Today, the Indian state claims to possess a harmonious territorial unity, to embody the values of a stable political democracy, and to adhere to a steadfast religious impartiality. Even many of those critical of the inequalities of Indian society still underwrite such claims. But does the "idea of India" correspond to the realities of the Union? The Indian Ideology suggests that the roots of the republic's current ills go very deep, historically. They lie, it argues, in the way the struggle for independence culminated in the transfer of power from British rule to Congress in a divided

subcontinent, not least in the roles played by Gandhi, as the great architect of the movement, and Nehru, as his appointed successor, in the catastrophe of partition. Only an honest reckoning with that disaster, Perry Anderson argues, offers an understanding of what has gone wrong since independence. Revisiting a century's history, and sifting the uncomfortable realities from the ideology, Anderson offers an alternative way to look at the story of the nation, and the nature of a state that is less in conflict with caste than built upon it.

Reflections on the Origin and Spread of Nationalism St. Martin's Press

The definitive, bestselling book on the origins and development of nationalism...

India's Living Constitution Brookings Institution Press

Why are some countries rich and others poor? Colonialism, globalization, bad government, gender inequality, geography, and environmental degradation are just some of the potential answers to this complex question. Using a threefold framework of

the West, the South, and the natural world, *Shaping the Developing World* provides a logical and intuitive structure for categorizing and evaluating the causes of underdevelopment. This interdisciplinary book also describes the social, political, and economic aspects of development and is relevant to students in political science, international studies, geography, sociology, economics, gender studies, and anthropology. The Second Edition has been updated to include the most recent development statistics and to incorporate new research on topics like climate change, democratization, religion and prosperity, the resource curse, and more. This second edition also contains expanded discussions of gender, financial inclusion, crime and police killings, and the Middle East, including the Syrian Civil War.

The Republic of India Verso

En-Gendering India offers an innovative interpretation of the role that gender played in defining the Indian state during both the colonial and postcolonial eras. Focusing on both British and Indian literary texts—primarily novels—produced between 1857 and 1947, Sangeeta Ray examines representations of "native" Indian women and shows how these representations were deployed to advance notions of Indian self-rule as well as to defend British imperialism. Through her readings of works by writers including Bankimchandra Chatterjee, Rabindranath Tagore, Harriet Martineau, Flora Annie Steel, Anita Desai, and Bapsi Sidhaa, Ray demonstrates that Indian women were presented as upper class and Hindu, an idealization that paradoxically served the needs of both colonial and nationalist discourses. The Indian nation's goal of self-rule was expected to enable women's full participation in private and public life. On the other hand, British colonial officials rendered themselves the protectors of passive Indian women against their "savage" male countrymen. Ray shows how the native woman thus became a symbol for both an incipient Indian nation and a fading British Empire. In addition, she reveals how the figure of the upper-class Hindu woman created divisions with the nationalist movement itself by underscoring caste, communal, and religious differences within the newly emerging state. As such, Ray's study has important implications for discussions about nationalism, particularly those that address the concepts of identity and nationalism. Building on recent scholarship in feminism and postcolonial studies, *En-Gendering India* will be of interest to scholars in those fields as well as to specialists in nationalism and nation-building and in Victorian, colonial, and postcolonial literature and culture.

What Is a Nation? and Other Political Writings Columbia University Press

He examines debates over fundamental issues that included citizenship qualifications, minority linguistic rights, Jewish emancipation, and territorial disputes, and offers valuable insights into nineteenth-century liberal opinion on the Jewish Question, language policy, and ideas of race."--BOOK JACKET.

Insights from Practitioners, Researchers, and Innovators from Around the Globe Verso Books

The anthrax incidents following the 9/11 terrorist attacks put the spotlight on the nation's public health agencies, placing it under an unprecedented scrutiny that added new dimensions to the complex issues considered in this report. *The Future of the Public's Health in the 21st Century* reaffirms the vision of *Healthy People 2010*, and outlines a systems approach to assuring the nation's health in practice, research, and policy. This approach focuses on joining the unique resources and perspectives of diverse sectors and entities and challenges these groups to work in a concerted, strategic way to promote and protect the public's health. Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research,

policy, and community engagement. The status of the governmental public health infrastructure and what needs to be improved, including its interface with the health care delivery system. The roles nongovernment actors, such as academia, business, local communities and the media can play in creating a healthy nation. Providing an accessible analysis, this book will be important to public health policy-makers and practitioners, business and community leaders, health advocates, educators and journalists.

En-Gendering India Riverhead Books (Hardcover)

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

Soft Power John Wiley & Sons

From Amartya Sen to Aamir Khan, Raghuram Rajan, Sachin Tendulkar, His Holiness the Dalai Lama, Pranab Mukherjee, Arun Jaitley, Nirmala Sitharaman and Sania Mirza among others, in this book eminent journalist Sonia Singh opens a window to the myriad worlds of these stalwarts, who share their idea of India in freewheeling conversations. Chatty, candid and amazingly gripping these 15 interviews uncover the pivotal moments in their lives that have become defining moments in the history of the nation.

The Development of Its Laws and Constitution OECD Publishing

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Shaping Membership, Defining Nation University of Chicago Press
Historical analysis explores the country's energy and unpredictability in democracy, voting patterns, economic development, city and village cultures, and political identity

Human Development Report 1997 Currency

Following the death of the great historian, Ainslie T. Embree, this remarkable document was found in his study, a project to which he had devoted the last years of his life. It is an insightful exploration of how the boundaries of the modern South Asian states were created in the late 18th and early 19th centuries, based on a careful examination of original materials in archives in England and India. Artfully written with rich local detail, this book reveals the fascinating interplay of colonial and local interests as the modern states were carved into being. It is destined to be a classic in the history of South Asian nation building.

Well-Being: Expanding the Definition of Progress Har

Anand Publications

#1 NEW YORK TIMES BESTSELLER • In this powerful new collection of oil paintings and stories, President George W. Bush spotlights the inspiring journeys of America's immigrants and the contributions they make to the life and prosperity of our nation. The issue of immigration stirs intense emotions today, as it has throughout much of American history. But what gets lost in the debates about policy are the stories of immigrants themselves, the people who are drawn to America by its promise of economic opportunity and political and religious freedom—and who strengthen our nation in countless ways. In the tradition of *Portraits of Courage*, President Bush's #1 New York Times bestseller, *Out of Many, One* brings together forty-three full-color portraits of men and women who have immigrated to the United States, alongside stirring stories of the unique ways all of them are pursuing the American Dream. Featuring men and women from thirty-five countries and nearly every region of the world, *Out of Many, One* shows how hard work, strong values, dreams, and determination know no borders or boundaries and how immigrants embody values that are often viewed as distinctly American: optimism and gratitude, a willingness to strive and to risk, a deep sense of patriotism, and a spirit of self-reliance that runs deep in our immigrant heritage. In these pages, we meet a North Korean refugee fighting for human rights, a Dallas-based CEO who crossed the Rio Grande from Mexico at age seventeen, and a NASA engineer who as a girl in Nigeria dreamed of coming to America, along with notable figures from business, the military, sports, and entertainment. President Bush captures their faces and stories in striking detail, bringing depth to our understanding of who immigrants are, the challenges they face on their paths to citizenship, and the lessons they can teach us about our country's character. As the stories unfold in this vibrant book, readers will gain a better appreciation for the humanity behind one of our most pressing policy issues and the countless ways in which America, through its tradition of welcoming newcomers, has been strengthened by those who have come here in search of a better life.

An Inquiry Into the Nature and Causes of the Wealth of Nations

Oxford University Press, USA

Want a sneak peek? Download this free sample of *Roadmap* by Roadtrip Nation. This welcome antidote to the conventional career guide answers the old question—"So, what are you going to do with your life?"—in a groundbreaking way. From the team behind the campus and online resource and the inspirational TV series in its eleventh season, *ROADMAP* helps emerging careerists think deeply about how they can enter the workforce and thrive, using Roadtrip Nation's interest-based approach. Full-color charts and graphs offer a unique visually engaging reading experience and prompts for reflection are interspersed, making the reading process interactive and the discoveries personally impactful. With actionable, real-world wisdom on every page, it's an essential tool for today's young professionals and the parents, educators, and advisors seeking to inspire them.

The Indian Ideology National Academies Press

Hindutva: Who is a Hindu? is an ideological pamphlet by Vinayak Damodar Savarkar. Originally published under the title *Essentials Of Hindutva* in 1923, it was retitled *Hindutva: Who Is a Hindu?* when reprinted in 1928.

Defining a Nation Duke University Press

The balancing of competing interests and goals will have momentous consequences for Japan—and the United States—in their quest for economic growth, social harmony, and international clout. Japan and the United States face difficult choices in charting their paths ahead as trading nations. Tokyo has long aimed for greater decisiveness, which would allow it to move away from a fragmented policymaking system favoring the status quo in order to enable meaningful internal reforms and acquire a larger voice in trade negotiations. And Washington confronts an uphill battle in rebuilding a fraying domestic consensus in favor of internationalism essential to sustain its leadership role as a champion of free trade. In *Dilemmas of a Trading Nation*, Mireya Solís describes how accomplishing these tasks will require the skillful navigation of vexing tradeoffs that emerge from pursuing desirable, but to some extent contradictory goals: economic competitiveness, social legitimacy, and political viability. Trade policy has catapulted front and center to the national conversations taking place in each country about their desired future direction—economic renewal, a relaunched social compact, and projected international influence. *Dilemmas of a Trading Nation* underscores the global consequences of these defining trade dilemmas for Japan and the United States: decisiveness, reform, internationalism. At stake is the ability of these leading economies to upgrade international economic rules and create incentives for emerging economies to converge toward these higher standards. At play is the reaffirmation of a rules-based international order that has been a source of postwar stability, the deepening of a bilateral alliance at the core of America's diplomacy in Asia, and the ability to reassure friends and rivals of the staying power of the United States. In the execution of trade policy today, we are witnessing an international leadership test dominated by domestic governance dilemmas.

Aftershocks Yale University Press

Cities and countries around the globe are starting to incorporate a well-being approach by reorienting policies and budgets to benefit people and long-term sustainability. With insights from an international group of scientists, practitioners, and innovators, *Well-Being* considers the measurement focus of conversations surrounding well-being, then moves beyond to action: shifts in policy, narratives, and power, and alignment with other movements across sectors.

The Great Partition Reacting to the Past(tm)

Shaping Membership, Defining Nation explores and interprets the social politics, religion, and history of Africans (Habshis/Siddis) in Karnataka of South India. Focusing on the continuous dialog between African Indian historical formations and contemporary power structures, Pashington Obeng clearly explains the process of constructing socio-political and religious mores to respond to India's religious, socio-economic, and caste systems. The study begins by contextualizing the history of Africans in India before moving onto a sociological study. Pashington Obeng examines the formal and non-formal religious customs that stress African Indian agency in appropriating and shaping new forms of Indianness as well as African Diasporic realities. The book concludes with an important analysis of African Indian folksongs and dances. *Shaping Membership, Defining Nation* is a groundbreaking study of interest to scholars of African History and contemporary Indian society.

OECD Benchmark Definition of Foreign Direct Investment Third Edition Columbia University Press

Ernest Renan was one of the leading lights of the Parisian intellectual scene in the second half of the nineteenth century. A philologist, historian, and biblical scholar, he was a prominent voice of French liberalism and secularism. Today most familiar in the English-speaking world for his 1882 lecture "What Is a Nation?" and its definition of a nation as an "everyday plebiscite," Renan was a major figure in the debates surrounding the Franco-Prussian War, the Paris Commune, and the birth of the Third Republic and had a profound influence on thinkers across the political spectrum who grappled with the problem of authority

and social organization in the new world wrought by the forces of modernization. *What Is a Nation? and Other Political Writings* is the first English-language anthology of Renan's political thought. Offering a broad selection of Renan's writings from several periods of his public life, most previously untranslated, it restores Renan to his place as one of France's major liberal thinkers and gives vital critical context to his views on nationalism. The anthology illuminates the characteristics that distinguished nineteenth-century French liberalism from its English and American counterparts as well as the more controversial parts of Renan's legacy, including his analysis of colonial expansion, his views on Islam and Judaism, and the role of race in his thought. The volume contains a critical introduction to Renan's life and work as well as detailed annotations that assist in recovering the wealth and complexity of his thought.
