This volume on virtual and augmented reality

(VR/AR) and gamification for cultural heritage offers an insightful introduction to the theories, development, recent applications and trends of the enabling technologies for mixed reality and gamified interaction in cultural heritage and creative industries in general. It has two main goals: serving as an introductory textbook to train beginning and experienced researchers in the field of interactive digital cultural heritage, and offering a novel platform for researchers

in and across the culturally-related disciplines. To this end, it is divided into two sections following a pedagogical model developed by the focus group of the first EU Marie S. Curie Fellowship Initial Training Network on Digital Cultural Heritage (ITN-DCH): Section I describes recent advances in mixed reality enabling technologies, while section II presents the latest findings on interaction with 3D tangible and intangible digital cultural heritage.

The sections include selected contributions from some of the most respected scholars, researchers and professionals in the fields of VR/AR, gamification, and digital heritage. This book is intended for all heritage professionals, researchers, lecturers and students who wish to explore the latest mixed reality and gamification technologies in the context of cultural heritage and creative industries. It pursues a pedagogic approach based on trainings,

conferences, workshops and summer schools that the ITN-DCH fellows have been following in order to learn how to design next-generation virtual heritage applications, systems and services.

The Canon EOS Rebel X line of consumer-oriented D-SLR cameras has made its indelible mark on the market. Canon sells tons of these models--and that's why the Magic Lantern Guides and DVDs that explain how to use

them are bestsellers too. The Rebel XSi (the EOS 450D outside of North America) is the most recent update, and it's bound to be a hit with its 12.2 MP sensor fast-focusing 9-point AF system; and large 3.0-inch LCD monitor with Live View function. Released right alongside this fabulous camera, Magic Lantern's book and DVD will be a must for every XSi owner.
