The brave, bold Ella Whelan is a leading voice of a rising generation of young warriors for free speech, which is lamentably threatened from both the left and the right in today's world. -- Camille Paglia And now, in this brilliant book, she puts the case for female autonomy against feminist victimhood. Some feminists will no doubt cry 'anti-feminist!', but this would be inaccurate; in fact, this book is in the tradition of the Suffragettes, the female explorers, the female workforce and other female pioneers of the 20th and 21st centuries who demanded that society should mine rather than suppress women's potential. All women and men who value women's liberation should read this. -- Brendan O'Neill (from the Foreword).

A “tense, taut, and thrilling” (Marie Claire) novel about a teenage girl, a predatory teacher, and a school’s complicity from the highly acclaimed, bestselling National Book Award finalist and author of *A Short History of Women*—“riveting, terrifying, exactly the book for our times” (Ann Patchett). They were on a lark, three teenaged girls speeding across the greens at night on a “borrowed” golf cart, drunk. The cart crashes and one of the girls lands violently in the rough, killed instantly. The driver, Jo, flees the hometown that has turned against her and enrolls at a prestigious boarding school. Her past weighs on her. She is responsible for the death of her best friend. She has tipped her parents’ rocky marriage into demise. She is ready to begin again, far away from the accident. “Devastatingly relevant” (Vogue) and “fueled by gorgeous writing” (NPR), *His Favorites* reveals the interior life of a young woman determined to navigate the treachery in a new world. Told from her perspective many years later, the story coolly describes a series of shattering events and a school that failed to protect her. “Before things turn treacherous, there’s a moment when predation can feel dangerously like kindness...Walbert understands this...His Favorites begs to be read” (Time).

Those Who Knew Hachette Books

The basis of the Oscar-winning film from writer/director Sarah Polley, starring Rooney Mara, Claire Foy, Jessie Buckley, with Ben Whishaw and Frances McDormand. INTERNATIONAL BESTSELLER “This amazing, sad, shocking, but touching novel, based on a real-life event, could be right out of *The Handmaid's Tale*.” -Margaret Atwood, on Twitter “Scorching . . . a wry, freewheeling novel of ideas that touches on the nature of evil, questions of free will, collective responsibility, cultural determinism, and, above all,

forgiveness." -New York Times Book Review, Editors' Choice One evening, eight Mennonite women climb into a hay loft to conduct a secret meeting. For the past two years, each of these women, and more than a hundred other girls in their colony, has been repeatedly violated in the night by demons coming to punish them for their sins. Now that the women have learned they were in fact drugged and attacked by a group of men from their own community, they are determined to protect themselves and their daughters from future harm. While the men of the colony are off in the city, attempting to raise enough money to bail out the rapists and bring them home, these women—all illiterate, without any knowledge of the world outside their community and unable even to speak the language of the country they live in—have very little time to make a choice: Should they stay in the only world they've ever known or should they dare to escape? Based on real events and told through the "minutes" of the women's all-female symposium, Toews's masterful novel uses wry, politically engaged humor to relate this tale of women claiming their own power to decide.

 A taut, timely novel about what a powerful politician thinks he can get away with and the group of misfits who finally bring him down, from the award-winning author of *Ways to Disappear*. On an unnamed island country ten years after the collapse of a U.S.-supported regime, Lena suspects the powerful senator she was involved with back in her student activist days is taking advantage of a young woman who's been introducing him at rallies. When the young woman ends up dead, Lena revisits her own fraught history with the senator and the violent incident that ended their relationship. Why didn't Lena speak up then, and will her family's support of the former regime still impact her credibility? What if her hunch about this young woman's death is wrong? What follows is a riveting exploration of the cost of staying silent and the mixed rewards of speaking up in a profoundly divided country. *Those Who Knew* confirms Novey's place as an essential new voice in American fiction.

 'This book highlights the fact that women are brought up to understand men's emotional needs but men are not brought up to understand women's.'
 Woman Many women today feel that they pour love, commitment and understanding into their relationships, but that it is not returned in kind. He seems secure and independent, she feels insecure and clingy. The truth is that men and women are both dependent. But his needs are catered to so well - first by his mother, then by his girlfriend or wife - that he doesn't know he has them, while her needs for closeness and tenderness are constantly

rebuffed as he retreats from intimacy. Susie Orbach and Luise Eichenbaum set out to explore this crisis in the relationships of men and women. They explain how men have learned to 'manage' their dependency needs very differently to women, and why women feel dependent and hungry for love. Finally they show why dependency on both sides is the essential core of any successful relationship.

What Women Want Little, Brown
 The women's movement is perhaps the most baffling of the recent social reforms to sweep the United States. It is composed of numerous distinct groups, each with specific interests and goals, each with individual leaders and literature. What are the philosophies behind these groups? Who are their leaders and how have their ideas evolved? Do they have a vital connection with the women's movement of the past? And where are feminist groups headed? In this study that brilliantly illuminates the literature and purposes of feminists, *What Women Want: The Ideas of the Movement*, Gayle Graham Yates has produced the first comprehensive history of feminist women's groups. Concentrating chiefly on the movement from 1959 to 1973, when it erupted in such activist groups

as the National Organization for Women (NOW), the Women's Equity Action League (WEAL), and the National Women's Political Caucus (NWPC), the author analyzes in detail their literature, factions, and issues. Her survey encompasses virtually every major expression of the movement's multiple facets, from *The Feminine Mystique*, *Born Female*, and *Sexual Politics*, to *Sex and the Single Girl* and *Memoirs of an Ex-Prom Queen*. In a significant breakthrough, the author discerns the pattern underlying this diversity, which should contribute to a fuller understanding of future developments in the women's struggle. She accomplishes this by identifying three key attitudes informing the movement: the feminist, the women's liberationist, and the androgynous or cooperative male-female relationship. The author provides a sensitive, yet critical analysis of the chief spokeswomen in contemporary America, activists like Gloria Steinem, Shulamith Firestone, and Ti-Grace Atkinson. She treats each of the feminist ideologies with balance and respect, yet is refreshingly unafraid to criticize new developments. She bolsters her own conclusions in support of an androgynous or "equal sexual society" with a judicious spirit. Scholars and the general public alike will find Yates's book not only an indispensable contribution to women's studies, but also a strong and timely addition to contemporary American life and thought.

An invigorating and inspiring take on the new ways American women are changing and improving our culture and the way we live from Kellyanne Conway, counselor to president Donald Trump, and Celinda Lake, a leading political strategist for the Democratic party. Women are the most powerful force reshaping the future of America. There is a newly defined unified power base among women that crosses all the usual lines of division—politics, race, religion, age, and class—heralding the most significant change in American culture in the past century. Kellyanne Conway,

counselor to president Donald Trump and president and CEO of The Polling Company, Inc. and Celinda Lake, a leading political strategist for the Democratic party—two of the most prominent trend-spotters and analysts in America—demonstrate how women are rejecting outdated traditions in order to get what they want and need. They are breaking the old rules about when and whether to marry and have children, living fully and equally as singles, and creating flexible, inclusive workplaces that don't sacrifice family or sanity. They are controlling \$5 trillion annually as the primary purchasers of homes, cars, appliances, and electronics. They are making their mark at ages twenty, forty, sixty, and beyond, drawing strength, inspiration, and intellectual stimulation from other women. Using the eye-opening results of interviews, focus groups, and polls (three of which were created especially for this book), Conway and Lake—who often fall on opposite sides of the country's most polarizing debates—come together to seek out what women buy, what they believe, how they work, how they live, what they care about, what they fear, and what they really want. By delving beneath the hot-button issues, Lake and Conway discovered common causes with which women are inventing a new age of opportunity—doing it their way and, in the process, improving life for all Americans.

The author of *Why We Buy* reports on the growing importance of women in everybody's marketplace--what makes a package, product, space, or service "female friendly." He offers a tour of the world's marketplace--with shrewd

observations and practical applications to help everybody adapt to the new realities. Underhill examines how a woman's role as homemaker has evolved into homeowner; how the home gym and home office are linked to the women's health movement and home-based businesses; why the refrigerator has trumped the stove as the crucial appliance; why some malls are succeeding while others fail. "The point is," writes Underhill, "while men were busy doing other things, women were becoming a major social, cultural, and economic force."
