This book shall draw a conclusion from it and show at the same time that the premise is incorrect. Forbidden Confessions is Author Indrani Karmakar's very first attempt to let free and wild some prisoned thoughts and spread it's aura all

around the globe in the disguise of an Anthology. The book Forbidden Confessions is a beautiful collection of those entrapped messages which were supposed to be embedded in the hearts of some agitated souls for almost forever , had the name of this Anthology hadn't showed up out of nowhere, such a herd of wonderous feelings and perceptions as these ones here in this book would

have never gone this wild and contented .This book is an oral substitute of some unspoken promises ,goodbyes , feelings, grudges and every supposed-to-kept-sealed thoughts and perceptions from the realm of "Forbidden" revelations .Hence the name "Forbidden Confessions" doesn't seem so blurred anymore

 The book, written with a rich teaching and research experience of the author, emphasises the critical evaluation of contemporary human rights law and practice with special reference to India. It evaluates the ongoing discourse on various issues relating to life, liberty, equality, and human dignity and their reflections in international human rights law referring to the state practices

through constitutional guarantees, judicial decisions as well as through enacting appropriate legislations. This lucid and comprehensive book is logically organised into nine chapters. Beginning with the theoretical foundations of human rights law referring to origin, development, and theories of human rights at the preliminary level, the book proceeds to "International Bill of Human

Rights" demonstrating various facets of civil and political rights as well as economic, social and cultural rights. It further discusses the importance of human rights law in protection against inhuman wrongs and examines a large number of debates concerning human rights to the development and protection of the environment. Then, it moves on to explore various issues relating to

human rights in Indian Constitutional Law. The second half of the book emphasises the protection of the rights of women and children, which has been the focal point of all human rights discussions. It also deals with the scope and ambit of the rights of indigenous peoples and minorities including their protection. At the end, the book examines the utility and justifications of human rights law in

 For the longest time, parents and children both, knew and believed that Medicine, Engineering, Management and Law were the only true 'careers' which could provide job security and steady paycheques. However, youngsters today couldn't

have been more open to trying out offbeat careers. They are bold, patient, resilient and aware of the fact that a career that is in line with their interests has a higher chance of being satisfying. An equal, or probably more, parents are sceptical about these unconventional careers and would rather have their children go in for 'tried and tested' jobs. With 'Steps to Career', the author has

attempted to dilute the dilemma of such children and their parents, providing them a wealth of information on the available conventional and unconventional career options, to help the children decide the right career for them, and the process. *Vocational & Technical Schools - East* Pearson Education India

Selected from different Indian languages, it includes fascinating stories by celebrated and emerging authors. It also excavates stories from early women's journals such as *Tehzeeb-e-Niswan*, *Saogat*, and *Indian Ladies' Magazine*. Written in different styles, modes, and forms, the stories deconstruct cultural essentialism often involved in imagining Muslim womanhood and reflect upon the diversity of imagined and lived experiences. They challenge sundry labels, explore intersections of identities, debunk several myths, and demonstrate how the authors navigate the world of voices and silences. Ranging from imaginary geographies to topographies of Muslim ghettos, most of these powerful stories narrate the spaces that Muslim women inhabit, and delineate their courage, desires, freedom, struggle, and myriad subjectivities.

 Is travelling to distant stars and planets a scientific fantasy? I beg to differ. In this book a simple theory is introduced, which if holds true would not only help cover huge distances in outer space in relatively little time but will redefine our core understanding of space and time.
Christianity
 Notion Press
 Published in

the Series Encyclopedia of Indian Religions, this volume is devoted to Christianity in India, where it has had a long presence, going back to the time of the apostles of Jesus Christ. Divided into two parts, this volume focuses on the history, origin, organizations and local engagements, belief system, worship practices, Rites, Rituals, Christian life, Contributions, Spirituality and a few of the main doctrinal

items. The Second Part covers the doctrinal and theological arena. It examines the earlier phase of the history of Christianity starting with the traditional belief of the arrival of St. Thomas in AD 52, moving to the periods of its association with the Chaldean church, the Portuguese, the Dutch, English and so on. This volume highlights the missionary activities of persons like St. Francis Xavier, the

creative contributions made to the inter-religious dialogue by such people as Roberto de Nobili (1577-1656) and Swami Abhishiktanan da (1910-1973), the linguistic and educational contributions of some of the pioneers like the German Jesuit Johanne Ernst Hanxleden (known as Arnos Padiri) (1681-1732), Herman Gundert (1814-1893), St. Elias Kuriakos Chavara (1805-1871), and, a fortiori, the enormous contributions in the healthcare area throughout the country. Caring for and serving the socio-economically marginalized ones, the peripheralized people formed an integral part of the Christian activity in India, as it is done even today. This is highlighted very much in the volume. It, further, explores the contact India had with European Christianity, showing that European Christianity proved to have wider influence in the Northern part of India, unlike India's early episodic encounters with Palestinian and Persian forms of Christianity, which had deep influence in the Southern part of India. The volume also highlights the inner struggle among the followers resulting even in its division originating at the Synod of Diamper in

1599 manifesting, by and large, the Church-state 'love and hate' relationships. In fine, in spite of the drawbacks of putting the herculean task of two thousand years of history in eight hundred pages or so, this volume gives a rather comprehensive view of Christianity in India especially to those who are unfamiliar with its life and dynamics in the Indian context. The wide range of

photographs, especially of the churches revealing the architectural beauty and multiplicity along with the ensample of art and paintings and pilgrimage centers adds to the enrichment of the volume. CONTEMPORARY DEBATES IN PUBLIC ADMINISTRATION Notion Press Public administration is reeling under complex challenges and pressures in the face of the changing trends in

liberalization, privatization and globalization. As a pertinent area of social sciences, it is in search of a new identity in the form of theoretical bases, conceptual clarity and contextual applicability. The development of the discipline is characterized by failed, semi-developed and recycled narratives, which are unable to provide any well-defined epistemological parameters.

Whatever one finds in the form of conceptual and applied growth in public administration, especially pertaining to the Third World, appears to be borrowed, imitated and implemented out of context. The discipline of public administration must therefore reinvent itself in the wake of new developments in the areas of theory building, organizational reforms, information

technology, participatory development, corporate ethics, humane governance, responsive administration, non-state organizations and administrative capability. This book makes an attempt to grapple with some of these contemporary concerns in order to generate a debate on the impact of globalization on public administration. A collection of diverse topics that address

various facets of public administration, the overall thrust is on developing indigenous approaches for meeting the growing demands of the changing scenario. The wide range of issues covered in the volume makes for a comprehensive view of the various perceptions within the discipline of public administration. The book will be of immense use to students, academicians, researchers, policy makers

and practitioners in public administration .

"In the monsoons of 2012, a phantasm driven geriatrician, Dr. Suchitra Nigam, is all set to open her dream venture: Rajshree Varma Memorial Foundation, a holistic healthcare for the geriatrics. She then

encounters several irregularities plaguing the medical and social scene in the country. She is further intrigued when a nonagenarian from Singapore persistently lays claims to an ardent affair withered by a deadly war, seventy years back. Was he another geriatric with clouded coherence and unfounded delusions? A heart -rending tale of love, separation, dejection, violence,

compassion and corruption! A gripping story which narrates the saga of two saviours- the doctors, the soldiers and the common man. Natal Fault is an irresistible socio-political narrative. It is bold and beautiful; romantic and philosophical; contemporary and classic at the same time. It feels the pulse of the nation and scales a long span of Indian panorama, both contemporary and classic, as it flows and

fizzes out from a drab B class fictional Indian town of Jeerulot, through a war ravaged planet to a posh Singapore." *The Challenges of Culture-based Learning* Peterson's Care & Serve is the magazine that connects the Friend of MUT. This book investigates the impact of culture-based learning among secondary school children in

India. The bias of cultural values can determine a student's learning preference. This study reflects that students have the potential to adapt and develop their learning styles according to society, family, religion, and cultural demands. While traditional values are against certain types of students, there is still hope for strategic change by stimulating educators to

transform the way students should be allowed to learn.
