Noriko is just getting started as a junior reporter for the *Asagake Times*. She wants to cover the hard-hitting issues, like world affairs and politics, but does she have the smarts for it? Thankfully, her overbearing and math-minded boss, Mr. Seki, is here to teach her how to analyze her stories with a mathematical eye. In *The Manga Guide to Calculus*, you'll follow along with Noriko as she learns that calculus is more than just a class designed to weed out would-be science majors. You'll see that calculus is a useful way to understand the patterns in physics, economics, and the world around us, with help from real-world examples like probability, supply and

demand curves, the economics of pollution, and the density of Shochu (a Japanese liquor). Mr. Seki teaches Noriko how to:

- Use differentiation to understand a function's rate of change
- Apply the fundamental theorem of calculus, and grasp the relationship between a function's derivative and its integral
- Integrate and differentiate trigonometric and other complicated functions
- Use multivariate calculus and partial differentiation to deal with tricky functions
- Use Taylor Expansions to accurately imitate difficult functions with polynomials

Whether you're struggling through a calculus course for the first time or you just need a painless refresher, you'll find what you're looking for in *The Manga Guide to Calculus*. This EduManga book is a translation from a bestselling series in Japan, co-published with Ohmsha, Ltd. of Tokyo, Japan.

Bad Girls Go to Hell. Cannibal Holocaust. Eve and the Handyman. Examining film culture's ongoing fascination with the low, bad, and sleazy faces of cinema, *Sleaze Artists* brings together film scholars with a shared interest in the questions posed by disreputable movies and suspect cinema. They explore the ineffable quality of "sleaze" in relation to a range of issues, including the production realities of low-budget exploitation pictures and the ever-shifting terrain of reception and taste. Writing about horror, exploitation, and sexploitation films, the contributors delve into topics ranging from the place of the "Aztec horror film" in debates about Mexican national identity to a cycle of 1960s films exploring homosexual desire in the military. One contributor charts the distribution saga of Mario Bava's 1972 film *Lisa and the Devil* through the highs and lows of art cinema, fringe television, grindhouse circuits, and connoisseur DVD markets. Another offers a new perspective on the work of Doris Wishman, the New York housewife turned sexploitation director of the 1960s who has become a cult figure in bad-cinema circles over the past decade. Other contributors analyze the relation between image and sound in sexploitation films and Italian horror movies, the advertising strategies adopted by sexploitation producers during the early 1960s, the relationship between art and trash in Todd Haynes's oeuvre, and the ways that the *Friday the 13th* series complicates the distinction between "trash" and "legitimate" cinema. The volume closes with an essay on why cinephiles love to hate the movies. Contributors. Harry M. Benshoff, Kay Dickinson, Chris Fujiwara, Colin
