In this classic work, originally published in 1921, Jung categorized people into primary types of psychological function. He proposed four main functions of consciousness: Two perceiving functions: Sensation and Intuition Two judging functions: Thinking and Feeling The functions are modified by two main attitude types: extraversion and introversion. Jung theorized that the dominant function characterizes consciousness, while its opposite is repressed and characterizes unconscious behavior. The eight psychological types are as follows: Extraverted sensation Introverted sensation Extraverted intuition Introverted intuition Extraverted thinking Introverted thinking Extraverted feeling Introverted feeling In "Psychological Types," Jung describes in detail the effects of tensions between the complexes associated with the dominant and inferior differentiating functions in highly and even extremely one-sided types.

In the late 1800s a supremely qualified woman educator and administrator made an unforgettable imprint on well-known missionaries, educators, and preachers. Emma Dryer worked with Pacific Garden Mission's George and Sarah Clarke, Methodist deaconess Lucy Rider Meyer, Wheaton College President Charles Blanchard, Anna Spafford--whose husband wrote the beloved hymn It is Well with My Soul--and many others. However, her greatest achievement came from her divinely guided association with evangelist Dwight L. Moody. Moody Bible Institute in Chicago, with its compelling and far-reaching ministries, would undoubtedly not exist today if not for the driving missionary fervor of Emma Dryer. Her story is finally being told in light of this association. A close examination of her ministry relationship with Mr. Moody reveals the interconnected aspects of their lives from a viewpoint never before written. This includes examining their leadership styles and effectiveness in modern day terms as well as contrasting their learning styles, strengths, and weaknesses as both evangelist and educator. This book represents the first biography of Emma Dryer's life with undying evidence of the answered prayers of a noble and virtuous woman who dedicated her life to serve and honor Christ until his eminent return.

Coaching is an emerging profession across all walks of life. Coaches work in communities, businesses, governments, private and not-for-profit settings to assist people to grow personally and professionally. More people are engaging their own life, business, career transition, leadership, or executive coaches to help them

solve their life or work problems and reach their goals more quickly and easily. Coaches are sounding boards to clients, putting their agenda front and center and the clients back in control of their life. The coach works nonjudgmentally with clients to understand their situation and needs, help them become more self-aware and resourceful, uncover insights into themselves and what they need to do, and stand side by side with them as they take the actions they need to take. Why positive psychology coaching? Because before people can change their behavior, they often need to change their mind-set. A client's mind-set may be positive and supportive of change or negative and is holding them back. Coaching from a positive psychology perspective means that the coach and client are always focusing on what's right in life rather than what's wrong. The coach works with the client to identify their limiting beliefs and reframe them into positives. Together, they identify solutions or goals and develop action plans to achieve these outcomes. Change can happen very quickly once beliefs and actions are aligned and supported by positive affirmations that boost self-esteem and self-efficacy. Every day, we try to find meaning in life, and when we don't, we become confused and search for answers. We can look back and despair, or we can look forward into a compelling future. Many people neither want nor need to see a therapist or counselor, and they choose to see a professional coach instead to help them resolve their situation and find greater happiness in life.

In order to understand your relationships with other people, you must first understand yourself. Achievers throughout history have

one thing in common-they know themselves. This means they don't underestimate what they can do, they don't sell themselves short and they know their own limitations. More importantly, by understanding themselves, they are able to develop plans to overcome their shortcomings and take full advantage of their strengths to improve their communication and effectiveness with others. The DISC Assessment measures observable behavior. Behaviors are the "how" of your life and are apparent in the things you do and how you act. For more than three decades, author, speaker, and entrepreneur Merrick Rosenberg has taught America's leading corporations how to embrace the power of personality. By replacing the alphabet soup found in personality assessments with four birds - the Eagle, Parrot, Dove, and Owl - Rosenberg has helped people understand themselves and transform their relationships with colleagues, friends, and family members. Parents and teachers have long asked: Can you teach the birds to our children? From the author of *Personality Wins*, *The Chameleon*, and *Taking Flight!* comes the long-awaited book for children: *Which Bird Are You?* Young readers join 5th graders of Galen Elementary School at Camp Discovery for adventures (and misadventures) under the guidance of their teachers, Ms. Allport and Mr. Marston. By day, the students try to overcome their personality differences to

complete Ms. Allport's team building challenges. By night, Mr. Marston tells *The Bird Tale*, a fantasy adventure that follows four emissaries from the Eagle, Parrot, Dove, and Owl kingdoms of Aviara. Their world faces disaster, but they are unsure of how to work together against their collective threats. The emissaries seek out the wise Chameleon Ambassador in hopes that she can teach them how to unite and save their people. Through a wild ride in Aviara and *Camp Discovery, Which Bird Are You?* prepares children for the lifelong journey of interacting with different personalities. Young readers learn to understand their bird style, its strengths and challenges, and the risks of overusing their personality. They also discover how to identify the bird styles of others and treat people the way they want to be treated. Will the emissaries save Aviara? Will the students learn to work together? If they can master the four questions of the Chameleon Code, they might just save the day and win it all.
