Why is that Art? Cengage Learning

Why A World of Art? Henry Sayre wrote the first edition of *World of Art* because he wanted to use a text in his own art appreciation course that truly represented all artists, not just the Western canon found at that time in the other texts. He also wanted a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. We are proud to present the new sixth edition of *World of Art*, which further strengthens these two key aspects of the text while presenting hot topics like video and time-based media.

Art in Focus Pearson Prentice Hall

"Informed by the latest scholarship yet written for the general reader, this has been the first comprehensive study to present the arts of Africa in art historical terms. *A History of Art in Africa* covers all parts of the continent, including Egypt, from prehistory to the present day and includes the art of the African Diaspora. Many aspects of visual culture are given detailed consideration, including sculpture, architecture, and such quintessentially African forms as masquerades, festivals, and personal adornment. The arts of daily life, of royal ceremony, and of state cosmology receive compelling discussions. Throughout, the authors emphasize the cultural contexts in which art is produced and imbued with meanings." "Among the ancient works illustrated are masterpieces in brass, gold, ivory, stone and terracotta. Religious arts serving Islamic and Christian communities are presented, as are fascinating hybrid arts that periodically arose from African interactions with Europe, Asia and the Americas. Twentieth-century arts are explored as part of the vibrancy of modern Africa and as ingenious responses to historical change. 'Twenty-first-century African artists, and artists of the African Diaspora, are presented in the context of changing global economies and new theoretical positions.'" "This expanded and revised second edition provides a new chapter on African artists working abroad, and five new short essays on cross-cultural topics such as tourist arts, dating methods, and the illicit trade in archaeological artifacts. The illustrations - featuring a vast and rich array of images of artworks, archival and contemporary field photographs, explanatory drawings and plans, and individual objects displayed in museums and in use - have likewise been greatly extended, with many more pictures now shown in color."--BOOK JACKET.

"The Humanities through the Arts, tenth edition, explores the humanities with an emphasis on the arts. Examining the relationship of the humanities to values, objects, and events important to people is central to this book. We make a distinction between artists and other humanists: Artists reveal values, while other humanists examine or reflect on values. We study how values are revealed in the arts while keeping in mind a basic question: "What is art?" Judging by the existence of ancient artifacts, we see that artistic expression is one of the most fundamental human activities. It binds us together as a people by revealing the most important values of our culture"--
