 "Resurrection: How Record Store Day Led to the Most Improbable Comeback of the 21st Century provides the official inside story on how Record Store Day managed to revive the vinyl format from oblivion over the past fifteen years. Based on original reporting of more than fifty record industry professionals, this is the first full account of how a global holiday prompted vinyl to grow exponentially since 2008 and was not deterred by a two-year pandemic. Resurrection is sure to appeal to record collectors who line up the night before in a quest to snag limited-edition collectibles on vinyl, and also captures the important role that independent record stores play in their communities"--

 A history of the American Constitution's formative decades from a preeminent legal scholar When the US Constitution won popular approval in 1788, it was the culmination of thirty years of passionate argument over the nature of government. But ratification hardly ended the conversation. For the next half century, ordinary Americans and statesmen alike continued to wrestle with weighty questions in the halls of government and in the pages of newspapers. Should the nation's borders be expanded? Should America allow slavery to spread westward?

What rights should Indian nations hold? What was the proper role of the judicial branch? In *The Words that Made Us*, Akhil Reed Amar unites history and law in a vivid narrative of the biggest constitutional questions early Americans confronted, and he expertly assesses the answers they offered. His account of the document's origins and consolidation is a guide for anyone seeking to properly understand America's Constitution today.

The Words That Made Us Routledge
 "The unexamined life is not worth living." Ford and Blisko share Socrates' quote in their offering of *The Root Cause Analysis of A Balanced Leader*. I believe the timing is right, in our business world, for this treatise which guides the Leader through a Root Cause Analysis process designed for discovery - the discovery of the reader's Balanced Leader within. The illustrated process models Ford and Blisko have designed are both enlightening and practical. They work to highlight the need and provide methodology for a systematic discovery of where the Leader is and where the Leader wants to be. Offered in a unique presentation format, this organized study informatively walks with the Leader from start to finish. The finish? The who, what, when, where, how, and why of the reader and their leadership efforts; their approaches, their goals and their techniques, as a Leader.
Colleges That Change Lives Routledge
 "Drawing upon the experience of faculty from across the country, *Integrating Doctrine and Diversity* is a collection of essays with practical advice, written by faculty for faculty, on specific ways to integrate diversity, equity and inclusion into the law school curriculum. Chapters will focus on subjects traditionally taught in the first-year curriculum (Civil Procedure, Constitutional Law, Contracts, Legal Writing, Legal Research, Property, Torts) and

each chapter will also include a short annotated bibliography curated by a law librarian. With submissions from over 40 scholars, the collection is the first of its kind to offer reflections, advice and specific instruction on how to integrate issues of diversity and inclusions into first-year doctrinal courses"--

Graduate Programs in Business, Education, Information Studies, Law & Social Work 2014 (Grad 6) Princeton Review
This IAMSE Manual, *Mentoring Across the Continuum*, is a product of its co-editors' and authors' lifetime work in mentoring faculty and studying the impact of this mentoring. The book defines the field of academic medicine as highly dependent on finding and relating to mentors at virtually every stage of a doctor's career. It describes and analyzes successful mentor/mentee relationships, examining the authors' personal experiences, as well as a data-driven approach, to explore the many different roles and perspectives on mentoring relationships and ultimately the mentoring culture. The editors look at the data with respect to the success of different strategies in mentoring, as well as different structures of diverse mentoring programs. As well, proven ways to deliver these programs successfully for all professionals who lead mentoring programs or are active participants as mentees. There is a special emphasis on the mentoring of medical educators. However, the themes explored in this book are generalizable beyond the medical educator to include diverse academic roles across the continuum. In particular, enumerating the many specific roles of a mentor beyond just the traditional concepts adds breadth and depth to understanding what can be gained from mentor-mentee relationships. This Manual is a valuable resource for clinicians, educators, and trainees in addition to anyone involved in medical education and progressing through the stages of practicing, teaching, and learning in medicine. This Manual represents a meaningful addition to the literature on this most important professional subject.
Higher Education Rulemaking Princeton Review
'None of this is the truth. It's just people saying things. It's all subjective. There's the truth, and there's what people think is the truth, and it all depends on how you slant it...' *Taking Care of Baby* tackles the complex case of Donna McAuliffe, a young mother convicted of the murder of her two infant children. In a series of probing interviews the people in this extraordinary story, including Donna herself and her bewildered mother Lynn, reveal how they may have harmed those they sought to protect. Dennis Kelly's ambitious play uses the popular techniques of drama-documentary and verbatim theatre to explore how truth is compromised by today's information culture.

Winner of the NCA Health Communication 2021 Distinguished Book Award. This book examines interpreter-mediated medical encounters and focuses primarily on the phenomenon of bilingual health care. It highlights the interactive and coordinated nature of interpreter-mediated interactions. Elaine Hsieh has put together over 15 hours of interpreter-mediated medical encounters, interview data with 26 interpreters from 17 different cultures/languages, 39 health care providers from 5 clinical specialties, and surveys of 293 providers from 5 clinical

specialties. The depth and richness of the data allows for the presentation of a theoretical framework that is not restricted by language combination or clinical contexts. This will be the first book of its kind that includes not only interpreters' perspectives but also the needs and perspectives of providers from various clinical specialties. *Bilingual Health Communication* presents an opportunity to lay out a new theoretical framework related to bilingual health care and connects the latest findings from multiple disciplines. This volume presents future research directions that promise development for both theory and practice in the field.

The *Law Professor's Handbook* is designed as a guide for those who are transitioning to, engaged in, or contemplating a law school faculty position. Simply because an attorney mastered a substantive area of the law, refined his advocacy or negotiation skills, and has extensive experience in analytical thought, writing, and other scholarly pursuits, doesn't necessarily mean that he's prepared to educate others. Schachter offers information about the application process and factors to take into account in choosing amongst offers of faculty appointment. There's information about designing a course, crafting a syllabus, and choosing textual materials. In an effort to facilitate review of matters of particular interest, headings, a table of contents, and a detailed index have been included. Cross-references have also been incorporated to enable additional textual review. "I was impressed with the practical advice that *The Law Professor's Handbook* offered for a variety of situations. As Academic Dean, I had it distributed to many of our most involved adjuncts... They were grateful for the information, and their feedback was overwhelmingly positive. We plan to continue distributing it to adjuncts and new faculty in the future." -- Gregory Sergienko, Associate Dean of Academics and Professor of Law at Western State University

This book provides a comprehensive description of the federal government's relationship with higher education and how that relationship became so expansive and indispensable over time. Drawing from constitutional law, social science research, federal policy documents, and original interviews with key policy insiders, the author explores the U.S. government's role in regulating, financing, and otherwise influencing higher education. Natow analyzes how the government's role has evolved over time, the activities of specific governmental branches and agencies that affect higher education, the nature of the government's influence today, and prospects for the future of federal involvement in

higher education. Chapters examine the politics and practices that shape policies affecting nondiscrimination and civil rights, student financial aid, educational quality and student success, campus crime, research and development, intellectual property, student privacy, and more. Book Features: Provides a contemporary and thorough understanding of how federal higher education policies are created, implemented, and influenced by federal and nonfederal policy actors. Situates higher education policy within the constitutional, political, and historical contexts of the federal government. Offers nuanced perspectives informed by insider information about what occurs behind the scenes in the federal higher education policy arena. Includes case studies illustrating the profound effects federal policy processes have on the everyday lives of college students, their families, institutions, and other higher education stakeholders.

Peterson's Guide to Graduate Programs in Business, Education, Health, Information Studies, Law and Social Work 1997 Peterson Nelnet Company

THE STORY: Nestled in the Catskills—1962's land of dirty dancing and Borscht Belt comedy—an inconspicuous bungalow colony catered to a very special clientele: heterosexual men who delighted in dressing and acting as women. These white-collar professionals would discreetly escape their families to spend their weekends safely inhabiting their chosen female alter-egos. But given the opportunity to share their secret lives with the world, the members of this sorority had to decide whether the freedom gained by openness was worth the risk of personal ruin. Based on real events and infused with Fierstein's trademark wit, this moving, insightful, and delightfully entertaining work offers a glimpse into the lives of a group of "self-made women" as they search for acceptance and happiness in their very own Garden of Eden.
