Coyote and the Turtle's Dream St. Martin's Press

Rev. 2:7 'He that has an ear, let him hear what the Spirit says unto the Churches.' He says it to each of the seven churches giving them warning as to what will happen if they don't listen. Later in the same book, he says something that opened my understanding to the reason people don't hear. He says, 'If any man have an ear, let him hear.' This indicates to me, the Spirit will no longer be speaking to people because He is no longer in the world. Those left behind will only be able to hear with the natural ear what is going on around them. I would warn the church to listen NOW while there is still time to hear the Spirit and obey the Lord. There is coming a time when the Spirit will no longer speak to the hearts of man, for judgment will be falling on the world who would not listen. It will be a time of famine of the Word. I pray the church wake up now. Don't be like the five virgins, who feel asleep with no oil in their lamps and woke up left behind. Now is the day of salvation, now is the day to listen with the ear of the Spirit and have a Holy Spirit encounter that will change your life. You can't change yourself, you can only die to the self life and grow in the God life the savior provided for you at the cross. Living in the Last Days is not a popular phrase, but it is what is happening. We have no leadership, and preachers are preaching to itching ears and tickling ears. Hearts are cold or

very lukewarm with no attention span to help one another to grow. Evil is growing and good people are doing nothing because they are too busy, to overworked, to far asleep. 666 is now here and is going to be required by government and good people are doing nothing because they don't care, don't see what it happening right in front of them. The evil that is in the middle east will be in American unless people wake up and listen with the ear of the Spirit and do it soon.

In the song, Sky Heart provides clues about strange vanishings on the Medicine Cave Indian Reservation. Thistle, the rabbit, has suspicions that Coyote is behind the disappearance of fossils from an ancient turtle, the sudden evaporation of water from the reservation's rivers, and the ominous absence of a 7th grader from Thunder Rock Middle School. Searching for the meaning of the dream, Rain seeks the help of Boomer (Thunder Cloud), Simon, and Hummingbird. Unknowingly, the four friends are drawn into the coyote's game and the criminal activities of a dangerous fossil poaching ring. A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, Infinite Jest explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and

about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, Infinite Jest bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do.

For a Logic of Future Coexistence Penguin UK

Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop

form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.
