There is a negative marking 0.25 mark for every incorrect answer attempted in Air force X and Y group exam. Negative Marking - 0.25 Conducting Body- Indian Air Force *The Afghanistan Papers* Upkar Prakashan The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials

lost sight of their original objectives. Distracted by the war in Iraq, the US military became mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains startling revelation after revelation from people who played a direct role in the war, from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes

entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to make time to meet with him. Secretary of Defense Donald Rumsfeld admitted he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit about al-Qaeda." The Afghanistan Papers is a shocking account that will supercharge a long overdue reckoning over what went wrong and forever change the way the conflict is remembered. When we see two great batsmen, the comparison tends to take over. Who is the greatest? Is A better or Is B has an edge over his rival? The opinion is divided if it is related to different formats. Virat Kohli and Steve Smith are the leading batsmen in international cricket, making their competitors look ordinary in front of them. I think it's not right to compare Virat and

Smith and let them carry on with their business of scoring tons in international arena. Rohit Sharma, the new captain of India, is a new synonym of records. After scoring his third double ton in the ODIs, he turned the heat on Lankan bowlers in the second T20 international, equaling the record of fastest hundred. He had a fair idea of Sri Lankan bowlers, hitting them where he wanted and his flair was pleasing to eyes. There is much more to read from cricket in this issue...
