Memorandum of Understanding A Coordinated Approach to ...
 Anadromous Salmonid Passage Facility Design NMFS Anadromous
 Salmonid Passage Facility Design July 2011 viii FOREWORD The
 National Oceanic and Atmospheric Administration's National
 Marine Fisheries Service (NMFS) is charged by Congress to
 manage, conserve, and protect living marine resources within the
 United States Exclusive Economic Zone. NMFS also plays a
 supportive and advisory role in ANADROMOUS SALMONID
 PASSAGE FACILITY DESIGN If passage facilities are designed and
 constructed in a manner consistent with these criteria, adverse
 impacts to anadromous fish migration will be minimized.
 Instances will occur where a fish passage facility may not be a
 viable solution for correcting a passage impediment, due to
 biological, sociological, or economic constraints. Anadromous
 Salmonid Fish Passage Facility Design ... Anadromous Salmonid
 Passage Facility Design (ASPF) covers many topics concerning
 fish passage. Since WAC 220-660-190 applies only to water
 crossings, these notes concern only Chapter 7, Culverts and
 Other Stream Crossings. Anadromous Salmonid Passage Facility
