Law - work expands to fill the time available for its completion - means that if you give yourself a week to complete a two hour task, then (psychologically speaking) the task will increase in complexity and become more daunting so as to fill that week. It may not even fill the extra time with more work, but just stress and tension about having to get it done. How to Use Parkinson's Law to Your Advantage Parkinson's law is the tendency for the amount of work required

for something to increase so that it consumes any amount of time that may be allotted to it. The concept is often generalized to refer to the tendency for any available capacity in a given system to be used. What is Parkinson's law? - Definition from WhatIs.com Parkinson's Law: "Work expands so as to fill the time available for its completion." If work expands to fill the time allotted to it, make less time available to get more work done quicker. How can you add artificial

parameters to your life and work in order to become more productive and more prolific, and to operate on a bigger scale? A Beginner's Guide to Parkinson's Law | IMPOSSIBLE Parkinson's Law is a principle that states that the time required to perform a task tends to extend to all the time available to perform it. Its name comes from the man who invented it: Cyril Parkinson. This Principle highlights our tendency to inefficiency when we have more time than we really need.

Parkinson's Law in Time Management
 Parkinson's Law explained in a simple way with Examples
 Parkinson's Law is usually expressed as "Work expands so as to fill the time available for its completion.". If something must be done in a year, it'll be done in a year. If it must be done in six months, then it will. Parkinson's Law should not be used to set unreasonable deadlines. Parkinson's Law is best used as a Thought Experiment question. Parkinson's Law -

The Personal MBA
 According to Wikipedia, Parkinson's law is the adage that: Work expands so as to fill the time available for its completion. It was first introduced in the 1950's by Cyril Northcote Parkinson and was used to describe economic and governmental efficiencies. The definition is pretty dry, but the lesson behind it is monumental. Parkinson's Law: The Little-Known Time Management Secret
