Medical Jurisprudence and Toxicology for India covers some essential details and practical aspects of medical jurisprudence and toxicology. This book is organized into two part encompassing 34 chapters. The opening chapters of Part I deal with legal procedure in criminal courts, physical evidence of the crime, autopsy, exhumation, and some medico-legal practices. Considerable chapters are devoted to other aspects of legal medicine, including determination of death causation, legitimacy of evidence, incident of rape and unnatural offenses, miscarriage, infanticide, insanity, and the privileges of medical men. Part II focuses on the toxicological aspects. This part emphasizes the medico-legal aspects of some classes of poisons, such as corrosive, irritant, neurotic, cerebral, spinal, cardiac, and peripheral poisons. This book will prove useful to medical college students.

A Textbook of Medical Jurisprudence and Toxicology, Sixth Edition discusses medico-legal points concerning the different causes of death, examination of evidence, and crimes that merit medical attention and advice. The author reviews the legal procedures in criminal courts of medical jurisprudence, including the inquest procedures, the difficulties encountered in detecting crime, medical evidence, rules for presenting evidence, and the powers of criminal courts. The post-mortem examination concerns the external and internal examination of the deceased to establish identity (if unknown), to determine time and cause of death. Under the written orders of the court, an exhumation can take place when suspicions of foul play arises after death. The author discusses death in terms of somatic (physical) or molecular (tissues and cells dying individually after vital organs have stopped functioning). The book also describes in detail the primary modes of

dying, namely, syncope, asphyxia, and coma. The book explains the medico-legal aspects of injuries, pregnancy, legitimacy, rape, miscarriage, infanticide, and insanity. This book is intended for medical students, but can also benefit students in law courses, and practitioners of legal jurisprudence and of the medical sciences.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Excerpt from d104-Book of Medical Jurisprudence and Toxicology This d104-book has been written more particularly to meet the wants of students of Legal Medicine. The author is aware that the field has already been occupied by able and popular treatises on medical jurisprudence, well known to the professions of medicine and law; but an experience of over twenty years, as a public teacher of this branch of science, has convinced him that

students in both these professions, who desire to acquire a knowledge of medical jurisprudence, are too often deterred from their purpose by being confronted by the ponderous works of recognized masters, extending to three, and even six large octavo volumes.
