This collection of forty hadith by one of the most famous compilers of hadith is generally regarded as the most popular anthology and the best introduction to the study of the Prophet's sayings which, together with the Qur'an, contain the essential teachings of Islam. The Arabic original has been printed alongside the English translation for the benefit of those with a knowledge of Arabic. The translation, by two scholars working in close collaboration, combines accuracy with readability.

**The New Testament as Canon** Rowman & Littlefield

This wide-ranging collection of essays provides the reader with a critical introduction to the New Testament as the church's canon. The authors' conviction is that the Bible belongs first of all to the community of believers rather than to the guild of biblical scholars. But that does not make the tools and tasks of modern biblical criticism unimportant. Rather, they are the constructive means by which the scholar discerns the nature of the ongoing conversation between the church and its biblical canon and helps form the church into a community of worship and witness. Whether from a particular composition's point of origin, or from the various properties added to it during the canonizing process, or from its location within the final canonical product, the scholars recover multiple clues from the ancient church's dialogue with its scriptures that help delimit the boundaries and establish the aims of the same dialogue between today's faith community and its biblical canon.

Introductory courses in Islam in universities and colleges often concentrate on the development of Islamic institutions in the classical period. Before embarking on such a course, would-be students would benefit from (1) a discussion of the problems raised by Western perceptions of Islam; (2) a brief panoramic account of Islamic history down to the present; (3) a sympathetic description of Islam as a living faith. All three are provided in this work. General readers, and those who have already embarked on the study of Islam, require a reference work which furnishes them with technical matters such as the structure of Arabic names and the various ways of transliterating

Arabic. Their needs are also catered to here.

Who is Allah? What does He ask of those who submit to His teachings? Pulitzer Prize-winner Jack Miles gives us a deeply probing, revelatory portrait of the world's second largest, fastest-growing and perhaps most tragically misunderstood religion. In doing so, Miles illuminates what is unique about Allah, His teachings, and His resolutely merciful temperament, and he thereby reveals that which is false, distorted, or simply absent from the popular conception of the heart of Islam. So, too, does Miles uncover the spiritual and scriptural continuity of the Islamic tradition with those of Judaism and Christianity, and the deep affinities among the three by setting passages from the Hebrew Bible, the New Testament, and the Qur'an side by side. In the spirit of his two previous books, *God and Christ*, and with his characteristic sensitivity, perspicacity and prodigious command of the subject, Miles calls for us all to read another's scriptures with the same understanding and accommodating eye that we turn upon our own.

Named by Time magazine as one of the 100 most important innovators of the century, Tariq Ramadan is a leading Muslim scholar, with a large following especially among young European and American Muslims. Now, in his first book written for a wide audience, he offers a marvelous biography of the Prophet Muhammad, one that highlights the spiritual and ethical teachings of one of the most influential figures in human history. In *Footsteps of the Prophet* is a fresh and perceptive look at Muhammad, capturing a life that was often eventful, gripping, and highly charged. Ramadan provides both an intimate portrait of a man who was shy, kind, but determined, as well as a dramatic chronicle of a leader who launched a great religion and inspired a vast empire. More important, Ramadan presents the main events of the Prophet's life in a way that highlights his spiritual and ethical teachings. The book underscores the significance of the Prophet's example for some of today's most controversial issues, such as the treatment of the poor, the role of women, Islamic criminal punishments, war, racism, and relations with other religions. Selecting those facts and stories from which we can draw a profound and vivid spiritual picture, the author asks how can the Prophet's life remain -- or become again -- an example, a model, and an inspiration? And how can Muslims move from formalism -- a fixation on ritual -- toward a committed spiritual and social presence? In this thoughtful and engaging biography, Ramadan offers Muslims a new understanding of Muhammad's life and he introduces non-Muslims not just to the story of the Prophet, but to the spiritual and ethical riches of Islam.
