"Simply brilliant, both in its granular storytelling and its enormous compassion" --The New York Times Book Review The story of two refugee families and their hope and resilience as they fight to survive and belong in America The welcoming and acceptance of immigrants and refugees have been central to America's identity for centuries--yet America has periodically turned its back in times of the greatest humanitarian need. After the Last Border is an intimate look at the lives of two women as they struggle for the twenty-first century American dream, having won the "golden ticket" to settle as refugees in Austin, Texas. Mu Naw, a Christian from Myanmar struggling to put down roots with her family, was accepted after decades in a refugee camp at a time when America was at its most open to displaced families; and Hasna, a Muslim from Syria, agrees to relocate as a last resort for the safety of her family--only to be cruelly separated from her children by a sudden ban on refugees from Muslim countries. Writer and activist Jessica Goudeau tracks the human impacts of America's ever-shifting refugee policy as both women narrowly escape from their home countries and begin the arduous but lifesaving process of resettling in Austin--a city that would show them the best and worst of what America has to offer. After the Last Border situates a dramatic, character-driven story within a larger history--the evolution of modern refugee resettlement in the United States, beginning with World War II and ending with current closed-door policies--revealing not just how America's changing attitudes toward refugees have influenced policies and laws, but also the profound effect on human lives.

U.S. Policy Toward Burma Simon and Schuster

To whom do we offer refuge — and why? After a life that rubbed up against the century's great events in New York City, Mexico, and Montreal, 96-year-old Cassandra MacCallum is surviving well enough, alone on her island, when a young Burmese woman contacts her, claiming to be kin. Curiosity, loneliness, and a slender filament of hope prompts the old woman to accept a visit. But Nang's story of torture and flight provokes memories in Cass that peel back, layer by layer, the

events that brought her to this moment — and forces her, against her will, to confront the tragedy she has refused for half a century. Could her son really be Nang's grandfather? What does she owe this girl, who claims to be stateless because of her MacCallum blood? Drawn, despite herself, into Nang's search for refuge, Cass struggles to accept the past and find a way into whatever future remains to her.

As a missionary in the Sudan, amid unrest and war following Sudanese independence, Nikkel wrote these quasi-public letters -- missionary epistles --to his friends and supporters back home in the USA. These letters present a vivid picture of daily struggle in an impoverished, war-torn, but lavishly beautiful country.

The North of Thailand is emerging as a standalone, off-the-beaten-path destination in the otherwise well-traversed Southeast Asia travel route. With the northern mountains covered in verdant jungle and sprinkled with age-old hill tribes, elephant camps, and ancient ruins, it is no wonder that the North is becoming an unforgettable experience for travelers. Laid back cities like Chiang Mai and Chiang Rai offer a burgeoning restaurant and nightlife scene that provides the perfect respite after experiencing the natural beauty of Northern Thailand. T. F. Rhoden has spent seven years exploring this fascinating country. First as a graduate student, then as a Peace Corps volunteer, and finally as an aid worker on the Thai-Burma border. Through his unique experiences, Rhoden provides insight into the country that has become his second home. With a comprehensive background section covering the history, culture, and logistics of travel, and sixteen sections dedicated to each stop on his recommended travel route, this book will allow travelers to feel like locals while enjoying the indisputable beauty that the North has to offer.

For decades Myanmar has been portrayed as a case of good citizen versus bad regime - men in jackboots maintaining a suffocating rule over a majority Buddhist population beholden to the ideals of non-violence and tolerance. But in recent years this narrative has been upended. In June 2012, violence between Buddhists and Muslims erupted in western Myanmar, pointing to a growing divide between religious communities that before had received little attention from the outside world. Attacks on Muslims soon spread across the country, leaving hundreds dead, entire neighbourhoods turned to rubble, and tens of thousands of Muslims confined to internment camps. This violence, breaking out amid the passage to democracy, was spurred on by monks, pro-democracy activists and even politicians. In this gripping and deeply reported account, Francis Wade explores how the manipulation of identities by an anxious ruling elite has laid the foundations for mass violence, and how, in Myanmar's case, some of the most respected and articulate voices for democracy have

turned on the Muslim population at a time when the majority of citizens are beginning to experience freedoms unseen for half a century.

Pacification: Burma Médecins Sans Frontières

A New York Times Critics' Top Book of 2019 A Foreign Affairs Best Book of 2020 "An urgent book." —Jennifer Szalai, New York Times During a century of colonialism, Burma was plundered for its natural resources and remade as a racial hierarchy. Over decades of dictatorship, it suffered civil war, repression, and deep poverty. Today, Burma faces a mountain of challenges: crony capitalism, exploding inequality, rising ethnonationalism, extreme racial violence, climate change, multibillion dollar criminal networks, and the power of China next door. Thant Myint-U shows how the country's past shapes its recent and almost unbelievable attempt to create a new democracy in the heart of Asia, and helps to answer the big questions: Can this multicultural country of 55 million succeed? And what does Burma's story really tell us about the most critical issues of our time?

The Hidden History of Burma: Race, Capitalism, and the Crisis of Democracy in the 21st Century W. W. Norton & Company

"Refugee Solutions in the Age of Global Crisis: Human Rights, Integration, and Sustainable Development addresses the question of what to do about the global refugee crisis. One in every ninety-five people on the planet has been forcibly displaced from their home, the collective response is woefully inadequate. Through comparative case study, this book provides the first policy analysis of all three durable solutions in the context of the global refugee crisis. The durable solutions are designed to find a permanent place for refugees were developed more than 70 years ago. Last year, fewer than two percent of refugees found their way any of these solutions. Reforming yesterday's solutions requires understanding how they have been used, how they have failed, and how they can be improved. Comparative case studies of the Somali Voluntary Repatriation Program, the Kalobeyei Integrated Settlement, and the Arizona Refugee Empowerment Project provide a comprehensive, global, and timely policy analysis grounded in social work, human rights, and sustainable development. The policy analysis of all three durable solutions is comprehensive, these are rarely considered together. The policy analysis is global in scope as the case studies are from refugee policies and populations from Africa, Asia, the Middle East, and North America. The policy analysis is timely in its focus on contemporary voluntary repatriation, local integration, and third country resettlement programs. This book offers implications for improving refugee solutions to promote human rights, integration, and sustainable development. This is vital to counter the rising tide of restrictionist, anti-refugee sentiment and policies"--

This timely volume uses critical ethnographic methods to trace the experiences and identities of refugee students from Burma as they move through their final year of schooling in an urban high school in the United States. Against the backdrop of increasing tensions surrounding immigration and identity in America, *The Experiences of Refugee Youth from Burma in an American High School*

presents an analysis of the academic paths of adolescent immigrants and the challenges they face throughout their schooling. Delving into the historical and socio-political context of the school and surrounding landscape, this volume offers an immersive, insider perspective of the educational circumstances of SaySay, Paw Htoo, and Hlaing, the three newcomer youths—from Burma. Through detailed ethnographic narratives, readers are introduced to resilient adolescents who navigate their way through the maze of social expectations, language-learning demands, and ethnic-related tensions to rebuild their identities in the United States. By highlighting the students' stories and identities, the book shows how racism is subtly woven into the fabric of education in the United States, and how schools can provide more equitable schooling for newcomers from other nations. This volume will benefit graduate students, researchers, academics, and pre-service teachers in the fields of English language learning, refugee and immigrant education, and the sociology of education. Those with an interest in urban and multicultural education will also find this text useful.

Asian Americans are a growing, minority population in the United States. After a 46 percent population growth between 2000 and 2010 according to the 2010 Census, there are 17.3 million Asian Americans today. Yet Asian Americans as a category are a diverse set of peoples from over 30 distinctive Asian-origin subgroups that defy simplistic descriptions or generalizations. They face a wide range of issues and problems within the larger American social universe despite the persistence of common stereotypes that label them as a "model minority" for the generalized attributes offered uncritically in many media depictions. *Asian American Society: An Encyclopedia* provides a thorough introduction to the wide-ranging and fast-developing field of Asian American studies. Published with the Association for Asian American Studies (AAAS), two volumes of the four-volume encyclopedia feature more than 300 A-to-Z articles authored by AAAS members and experts in the field who examine the social, cultural, psychological, economic, and political dimensions of the Asian American experience. The next two volumes of this work contain approximately 200 annotated primary documents, organized chronologically, that detail the impact American society has had on

reshaping Asian American identities and social structures over time. Features: More than 300 articles authored by experts in the field, organized in A-to-Z format, help students understand Asian American influences on American life, as well as the impact of American society on reshaping Asian American identities and social structures over time. A core collection of primary documents and key demographic and social science data provide historical context and key information. A Reader's Guide groups related entries by broad topic areas and themes; a Glossary defines key terms; and a Resource Guide provides lists of books, academic journals, websites and cross references. The multimedia digital edition is enhanced with 75 video clips and features strong search-and-browse capabilities through the electronic Reader's Guide, detailed index, and cross references. Available in both print and online formats, this collection of essays is a must-have resource for general and research libraries, Asian American/ethnic studies libraries, and social science libraries.

Urban refugees now account for over half the total number of refugees worldwide. Yet to date, far more research has been done on refugees living in camps and settlements set up expressly for them. This book provides crucial insights into the worldwide phenomenon of refugee flows into urban settings, repercussions for those seeking protection, and the agencies and organizations tasked to assist them. It provides a comparative exploration of refugees and asylum seekers in nine urban areas in Africa, Asia and Europe to examine issues such as status recognition, international and national actors, housing, education and integration. The book explores the relationship between refugee policies of international organisations and national governments and on the ground realities and demonstrates both the diverse of circumstances in which refugees live, and their struggle for recognition, protection and livelihoods.

Once a royal kingdom and then part of the British Empire, Burma long held sway in the Western imagination as a mythic place of great beauty. In recent times, Burma has been torn apart and isolated by one of the most brutal dictatorships in the world. Now, Zoya of the, a young member of the Karen tribe in Burma, bravely comes forward with her astonishingly vivid story of growing up in the idyllic green mansions of the jungle, and her violent displacement by the military junta that has controlled the country for almost a half century. This same cadre has also relentlessly hunted Zoya and her family across borders and continents. *Undaunted* tells of Zoya's riveting adventures, from her unusual childhood in a fascinating remote culture, to her years on the run, to her emergence as an activist icon. Named for a courageous Russian freedom fighter of World War II, Zoya was fourteen when Burmese aircraft bombed her peaceful village, forcing her and her family to flee through the jungles to a refugee camp just over the border in Thailand. After being trapped in refugee camps for years in poverty and despair, her family scattered: as her father became more deeply involved in the struggle for freedom, Zoya and her sister left their mother in the camp to go to a college in Bangkok to which they had won scholarships. But even as she attended classes, Zoya, the girl from the jungle, had to dodge police and assume an urban disguise, as she was technically an illegal

immigrant and subject to deportation. Although, following graduation, she obtained a comfortable job with a major communications company in Bangkok, Zoya felt called back to Burma to help her mother and her people, millions of whom still have to live on the run today in order to survive—in fact, more villages have been destroyed in eastern Burma than in Darfur, Sudan. After a plot to kill her was uncovered, in 2004 Zoya escaped to the United Kingdom, where she began speaking at political conferences and demonstrations—a mission made all the more vital by her father's assassination in 2008 by agents of the Burmese regime. Like Ayaan Hirsi Ali, Zoya has become a powerful spokesperson against oppressors, undaunted by dangers posed to her life. Zoya's love of her people, their land, and their way of life fuels her determination to survive, and in *Undaunted* she hauntingly brings to life a lost culture and world, putting faces to the stories of the numberless innocent victims of Burma's military

The events of the 11th of September 2001 revealed most dramatically that globalization has a shadow. While large sections of the world's population enjoy the perceived benefits of globalization, others seek to utilize globalization for their own politically violent purposes. If 9/11 demonstrated anything, it is that globalization can as readily facilitate violence and insecurity as it can produce stability, prosperity and political order. This edited volume offers important new methodological and multi-disciplinary insights into the study of globalization and political violence. It brings together studies from various disciplines in order to address the precise nature of the relationship between

globalization and political violence as it seeks to offer new theoretical and empirical understandings of the types of actors involved in political violence, either as perpetrators or victims. Examples of the studies include the changing character of state militaries and state-to-state conflict under globalization, the emergence of 'new wars' fuelled by globalization, the role of state militaries in intervention, new forms of violence directed by states against refugees and anti-globalization

protesters, the role of terrorist actors post-9/11, networks for the proliferation of weapons of mass destruction and the rise of private military firms amongst others. The Globalization of Political Violence will be of interest to students and researchers of politics, international relations, security studies and international political economy.
