Alexander the Great and the Logistics of the Macedonian Army Simon and Schuster  
Ten essays from a symposium held at Newcastle University in 1997, which examine the general themes of

kingship and imperialism by focusing on the romances that surround Alexander.  
Alexander the Great Routledge  
Alexander the Great: A New History combines traditional scholarship with contemporary research to offer an innovative treatment of one of history's most famous figures. Written by leading experts in the field Looks at a wide range of diverse topics including Alexander's religious views, his entourage during his

campaign East, his sexuality, the influence of his legacy, and his representations in art and cinema Discusses Alexander's influence, from his impact on his contemporaries to his portrayals in recent Hollywood films A highly informed and enjoyable resource for students and interested general readers  
From His Death to the Present Day Princeton University Press  
This exciting new volume includes a selection of the most significant and

representative published articles and chapters about Alexander and covers all the main areas of debate and discussion in Alexander scholarship.

*The First European Brill Archive*

The Book of Alexander the Great - or the Phyllada - has for three centuries been the most popular account of Alexander's career in modern Greece. After circulating in manuscript form, it was first published in 1680 in Venice, and has been continuously in print in Greek ever since. The

Phyllada broadly follows the structure of the ancient Alexander Romance, but is much better organized and is a work of popular literature reflecting the immense interest that the Conqueror has generated since earliest times. Numerous folktales and local legends kept his story alive, and many works about Alexander circulated in manuscript during the Byzantine period. The Phyllada is the culmination of this tradition. Yet it has never been translated into

English: a surprising neglect which Richard Stoneman - an acknowledged expert on Alexander - makes good in this elegant rendering supplemented by a full introduction. As a piece of literature, the Phyllada is among the best treatments of the Alexander legend, being full of color and human interest. Alexander not only encounters the heroes of Troy on his adventures but wears the crown and robe of Solomon. His descent into the "Cave of the Gods"

(Greek and Egyptian gods in the Romance) becomes a visit to a hell described in Christian terms. The pagan Alexander is thus filtered through a modern lens and becomes an emblem of the good king. The sophisticated narrative structure and world view of the Phyllada account for its lasting influence. This new translation does it full justice.

**Alexander the Great in Fact and Fiction** I. B. Tauris  
Alexander the Great Simon and Schuster

The Life of Alexander the Great Princeton University Press

The most important work on Alexander the Great to appear in a long time. Engels uses all the archaeological work done in Asia in the past generation and makes it accessible. Careful analysis of terrain, climate, and supply requirements are throughout combined in a fashion to help account for Alexander's strategic decision in the light of the options open to him. The chief merit of this

splendid book is the way in which it brings an ancient army to life, as it really was and moved: the hours it took for simple operations of washing and cooking and feeding animals; the train of noncombatants moving with the army--New York Review of Books.

*The Macedonian Who Conquered the World*  
Routledge

More than two millennia have passed, but Alexander the Great is still a household name. His life was an adventure story and took him to every

corner of the ancient world. His memory and glamour persist, and his early death at thirty-three has kept him evergreen in our imaginations with a legacy that meant something different to every age- in the Middle Ages he became an exemplar of knightly chivalry, he was a star of Renaissance paintings, and by the early twentieth century he even came to resemble an English gentleman. But who was he in his own time? In Alexander the Great, Anthony Everitt judges

Alexander's life against the criteria of his own age and considers all his contradictions. We meet the Macedonian prince who was naturally inquisitive and fascinated by science and exploration, who enjoyed the arts and used the poet Homer's great epic, the Iliad, as a bible. As his empire grew, stretching from Greece and Macedonia to Ancient Egypt and Persia and all the way to India, Alexander exhibited respect for the traditions of his new subjects and

careful judgment in administering rule over a vast territory. But his career also had a dark side. An inveterate conqueror, who in his short life built the largest empire to that point in history, Alexander glorified war and was known to commit acts of great cruelty. As debates continue about the meaning of his life, Alexander's death remains an unsolved mystery. Did he die of natural causes, felled by a fever, or did his marshals, angered by his tyrannical

behavior, kill him? An explanation of his death can lie only in what we know of his life, and Everitt ventures to solve that puzzle, offering an ending to Alexander's story that has eluded so many for so long.

The Book of Alexander the Great Cambridge Scholars Publishing

This book is possibly the most comprehensive biography of Alexander in print. It presents his story strictly on the basis of ancient sources, making use as much as possible of contemporary Greek

inscriptions, coins, and of non-western evidence (Babylonian tablets, Egyptian papyri, Bactrian parchments). The latter in particular change our understanding of how the Achaemenid state was run and how the Macedonian conquests were perceived from the Oriental perspective. The book's protagonist was the first in Western Civilization to be hailed Great. The specific aura and charisma of this young ruler, the scale of his conquests and the exotic landscapes and peoples

encountered during a tireless trek of over 35,000 km spanning three continents is what the broader public have always found particularly appealing. The author travelled extensively in the footsteps of Alexander and made use of other geographical accounts to elucidate the spatial perspective of his conquests. Space and politics define the dynamics of his story. The author presents Alexander as a component of the historical processes in his epoch and considers his

influence on developments in Greece, Macedonia, the Persian Empire and neighbouring countries. The book tries to steer clear of both idealizing Alexander the Great, typical of some earlier modern biographies, and of deconstructing his personality, which mars the minimalist approach of today's scholarship. *The Brief Life and Towering Exploits of History's Greatest Conqueror* Vintage Books The life of Alexander the Great began to be retold

from the moment of his death. The Greco-Roman authors used these stories as exemplars in a variety of ways. This book is concerned with the various stories of Alexander and how they were used in antiquity to promote certain policies, religious views, and value systems. The book is an original contribution to the study of the history and reception of Alexander, analysing the writings of over 70 classical and post-classical authors during a period of over 700 years.

Drawing on this extensive range and quantity of material, the study plots the continuity and change of ideas from the early Roman Empire to the early Middle Ages.

**The Rise of Macedonia, the Battles, Campaigns and Tactics of Alexander, and the Collapse of His Vast Empire After His Early Death, Depicted in More Than 250**

**Pictures** Sterling Publishing Company, Inc. In the spring of 334 B.C., the 22-year-old King Alexander of Macedon led

an army of 50,000 men on the most ambitious conquest of ancient times. This is a straightforward account of Alexander's remarkable campaigns, clearly and thoughtfully presented. A more intimate side of Alexander is also presented. 147 illustrations, 99 in color. 5 maps.

The Reign of Alexander the Great Penguin

An authoritative and dramatic portrait set against a backdrop of the war-torn Greek empire draws on extensive research to cover such

topics as Alexander's military prowess, premature death and inspiration to subsequent historical conquerors.

*Alexander the Great* Penguin Books

Alexander the Great conquers the New York Times best-selling Who Was...? series! When Alexander was a boy in ancient Macedon, he already had grand ambitions. He complained that his father, the great king of Macedon, wasn't leaving anything for him to conquer! This, of course, was not the case.

King Alexander went on to control most of the known world of the time. His victories won him many supporters, but they also earned him enemies. This easy-to-read biography offers a fascinating look at the life of Alexander and the world he lived in.

Alexander the Great Cambridge University Press

A concise introduction to the career and impact of the great Macedonian conqueror and the main themes of his reign.

*Alexander the Great* Penguin UK

This book explains what made Alexander 'Great' according to the people and expectations of his time and place.

*Alexander the Great in the Roman Empire, 150 BC to AD 600* Modern Library

For nearly two and a half millennia, Alexander the Great has loomed over history as a legend—and an enigma. Wounded repeatedly but always triumphant in battle, he conquered most of the known world, only to die mysteriously at the age of thirty-two. In his day he was revered as a god; in

our day he has been reviled as a mass murderer, a tyrant as brutal as Stalin or Hitler. Who was the man behind the mask of power? Why did Alexander embark on an unprecedented program of global domination? What accounted for his astonishing success on the battlefield? In this luminous new biography, the esteemed classical scholar and historian Guy MacLean Rogers sifts through thousands of years of history and myth to uncover the truth about

this complex, ambiguous genius. Ascending to the throne of Macedonia after the assassination of his father, King Philip II, Alexander discovered while barely out of his teens that he had an extraordinary talent and a boundless appetite for military conquest. A virtuoso of violence, he was gifted with an uncanny ability to visualize how a battle would unfold, coupled with devastating decisiveness in the field. Granicus, Issos, Gaugamela, Hydaspes—as

the victories mounted, Alexander's passion for conquest expanded from cities to countries to continents. When Persia, the greatest empire of his day, fell before him, he marched at once on India, intending to add it to his holdings. As Rogers shows, Alexander's military prowess only heightened his exuberant sexuality. Though his taste for multiple partners, both male and female, was tolerated, Alexander's relatively enlightened treatment of women was nothing short

of revolutionary. He outlawed rape, he placed intelligent women in positions of authority, and he chose his wives from among the peoples he conquered. Indeed, as Rogers argues, Alexander's fascination with Persian culture, customs, and sexual practices may have led to his downfall, perhaps even to his death. Alexander emerges as a charismatic and surprisingly modern figure—neither a messiah nor a genocidal butcher but one of the most

imaginative and daring military tacticians of all time. Balanced and authoritative, this brilliant portrait brings Alexander to life as a man, without diminishing the power of the legend.

*The Lost Book of Alexander the Great*  
Harvard University Press  
Tough, resolute, fearless. Alexander was a born warrior and a ruler of passionate ambition who understood the intense adventure of conquest and of the unknown. When he died in 323 B.C.E. at age thirty-two,

his vast empire comprised more than two million square miles, spanning from Greece to India. His achievements were unparalleled—he had excelled as leader to his men, founded eighteen new cities, and stamped the face of Greek culture on the ancient East. the myth he created is as potent today as it was in the ancient world. Robin Lane Fox's superb account searches through the mass of conflicting evidence and legend to focus on Alexander as a man of his own time.

Combining historical scholarship and acute psychological insight, it brings this colossal figure vividly to life.  
Alexander the Great  
Oxford University Press  
This is the first publication in English of Pierre Briant's classic short history of Alexander the Great's conquest of the Persian empire, from the Mediterranean to Central Asia. Eschewing a conventional biographical focus, this is the only book in any language that sets the rise of Alexander's short-lived

empire within the broad context of ancient Near Eastern history under Achaemenid Persian rule, as well as against Alexander's Macedonian background. As a renowned historian of both the Macedonians and the Persians, Briant is uniquely able to assess Alexander's significance from the viewpoint of both the conquerors and the conquered, and to trace what changed and what stayed the same as Alexander and the Hellenistic world gained ascendancy over Darius's

Persia. After a short account of Alexander's life before his landing in Asia Minor, the book gives a brief overview of the major stages of his conquest. This background sets the stage for a series of concise thematic chapters that explore the origins and objectives of the conquest; the nature and significance of the resistance it met; the administration, defense, and exploitation of the conquered lands; the varying nature of Alexander's relations with

the Macedonians, Greeks, and Persians; and the problems of succession following Alexander's death. For this translation, Briant has written a new foreword and conclusion, updated the main text and the thematic annotated bibliography, and added a substantial appendix in which he assesses the current state of scholarship on Alexander and suggests some directions for future research. More than ever, this masterful work provides an original and important perspective on

Alexander and his empire. Alexander the Great Princeton University Press A Wicked History is the definitive biography series for middle and high school students on the evil individuals who twisted the course of history. Newly revised editions include additional resources that supplement and support the core text. These include related primary sources, prompts for students to reflect on what they've read, and project ideas for further inquiry. Engaging

narratives introduce readers to history's most famous and infamous figures Sophisticated design appeals to high-school and middle-school readers Controlled vocabulary and sentence length make these books highly readable Directly correlated to Social Studies Standards for Middle and High School [www.factsfornow.scholastic.com](http://www.factsfornow.scholastic.com) See page 1 for more information.
