With its unparalleled coverage of English slang of all types (from 18th-century cant to contemporary gay slang), and its uncluttered editorial apparatus, Cassell's Dictionary of Slang was warmly received when its first edition appeared in 1998. 'Brilliant.' said Mark Lawson on BBC2's The Late Review; 'This is a terrific piece of work - learned, entertaining, funny, stimulating' said Jonathan Meades in The Evening Standard. But now the world's best single-volume dictionary of English slang is about to get even better. Jonathon Green has spent the last seven years on a vast project: to research in depth the English slang vocabulary and to hunt down and record written instances of the use of as many slang words as possible. This has entailed trawling through more than 4000 books - plus song lyrics, TV and movie scripts, and many newspapers and magazines - for relevant material. The research has thrown up some fascinating results

**Commissioner's Letter** YOUTH COMPETITION TIMES

"It has long been an article of faith that the census of 1841 was the first British census to list the names of individuals. In nearly 90 pages of text, accompanied by unique notes and references to original documents, Mr. Chapman explodes this myth by describing hundreds of pre-1841 name lists (censuses, poll lists, national surveys, tax lists, parish enumerations, etc.), explaining most of them, as far as possible, in their historical framework. As logic would dictate, the work follows a chronological pattern, and for this new fifth edition the author has appended, in Appendix I, a county-by-county breakdown of the various censuses containing individuals' names with the dates of those censuses; and for completeness, in Appendix II, he has added a list of decennial censuses containing names of individuals from 1801 to 1831. This new fifth edition, completely rewritten, incorporates over 200 additional listings for Ireland, making it a unique chronological account of censuses and enumerations in the British Isles from 1086 to 1841"--Publisher's description.
