WARREN CULLEN

The Intelligent Enneagram Harper Collins
From a master biographer and longtime Gurdjieff practitioner, a brilliant new exploration of the quintessential Western esoteric teacher of the twentieth-century. The Greek-Armenian teacher G.I. Gurdjieff was one of the most original and provocative spiritual teachers in the twentieth-century West. Whereas much work on Gurdjieff has

been either fawning or blindly critical, acclaimed scholar and writer Roger Lipsey balances sympathetic interest in Gurdjieff and his "Fourth Way" teachings with a historian's sense of context and a biographer's feel for personality and relationships. Using a wide-range of published and unpublished sources, Lipsey explores Gurdjieff's formative travels in Central Asia, his famed teaching institution in France, the development of the Gurdjieff Movements and music, and, above all, Gurdjieff's fascinating continuous evolution as a

teacher. Published on the 70th anniversary of Gurdjieff's death, *Gurdjieff Reconsidered* delves deeply into Gurdjieff's writings and those of his most important students, including P. D. Ouspensky and Jeanne de Salzmann. Lipsey's comprehensive approach and unerring sense of the subject make this a must-read for anyone with a serious intention to explore Gurdjieff's life, teachings, and reputation.

The Riso-Hudson Enneagram Type Indicator (Rheti, Version 2.5) The Enneagram of G. I.

Gurdjieff Mathematics, Metaphysics, Music, and Meaning This book is an attempt to explore various aspects of the enneagram, the symbol that G. I.

Gurdjieff introduced to the modern world, and which he stated represented a complete description of the laws governing the universe. Because of the importance he attached to it, it has long intrigued followers of his teaching, and others, yet the understanding of its meanings remains very incomplete. In particular, how it relates to modern mathematical and scientific descriptions of the laws governing the universe has largely been unexplored. This book tries to find connections between these two approaches to the truth, while also recognizing and exploring the differences between knowledge based on symbols and that based on scientific theories and mathematical formulae. In Subud the Coming New Age of Reality, author Simon Monbaron, a self-proclaimed Subud "zealot", shares the knowledge, wisdom and experience he has gained from forty years of receiving the spiritual training known as the "latihan kejiwaan" of Subud. This massive (594 pages) tome is not just for Subud members, but for anyone who seeks the reality that lies beyond the material world. At last, here is a book I can give to friends and family members who are curious about what I do when I go off to receive the latihan, but are not

yet ready to jump into the deep end to find out for themselves! For the merely curious, Monbaron's book recounts the history of Subud, and how it grew from a small group in Indonesia to a world-wide spiritual phenomenon. It tells the story of Muhammad Subuh Sumohadiwidjojo, an unremarkable government clerk whose life changed when a ball of light entered the top of his head when he was out for an evening stroll. And it discusses many aspects of the latihan, which is the central core of Subud. For those who are considering joining Subud, the Monbaron's book provides information regarding what this involves, as well as a detailed description of the Subud organization. Readers may also skip around and find out what Bapak had to say about topics as varied as suicide,

feminism, reincarnation, sex, drug use, and many other questions and issues with which people struggle. Whether you use it as a reference manual, a source of fascinating anecdotes and spiritual insights, or a way to learn about a spiritual path of profound power and simplicity, Subud the Coming New Age of Reality is a treasure chest of immense value.

Gurdjieff: The Key Concepts Castrovilli Giuseppe

An important book on liberating ourselves from the state of “waking sleep” in which we live our lives, as taught by one of the most influential spiritual teachers of the 20th century As the closest pupil of the charismatic spiritual master G. I. Gurdjieff (1866–1949), Jeanne de Salzmann was

charged with carrying on his teachings of spiritual transformation. Known as the Fourth Way or "The Work," Gurdjieff's system was based on teachings of the East that he adapted for modern life in the West. Now, some twenty years after de Salzman's death, the notebooks that she filled with her insights over a forty-year period (and intended to publish) have been translated and edited by a small group of her family and followers. The result is this long-awaited guide to Gurdjieff's teaching, describing the routes to be traveled and the landmarks encountered along the way. Organized according to themes, the chapters touch on all the important concepts and practices of the Work, including:

- Awakening from the sleep of identification with the ordinary level of

- being
- Self-observation and self-remembering
- Conscious effort and voluntary suffering
- Understanding symbolic concepts like the Enneagram
- The Gurdjieff Movements, bodily exercises that provide training in Presence and the awareness of subtle energies
- The necessity of a "school," meaning the collective practice of the teaching in a group

Madame de Salzman brings to the Work her own strong, direct language and personal journey in learning to live that knowledge of a higher level of being, which, she insists, "you have to see for yourself" on a level beyond theory and concept. De Salzman consistently refused to discuss the teaching in terms of ideas, for this Fourth Way is to be experienced, not simply thought or

believed.

Scores of books exist about the life and teachings of the Russian spiritual visionary G.I. Gurdjieff (~1866-1949), yet few devote significant coverage to “the Gurdjieff Movements.” These several-hundred precise and mostly asymmetrical gestures, arranged into detailed choreographies for groups of practitioners, were designed by Gurdjieff himself. This new book reconsiders the eminent role of the Movements, revealing them as a vital yet often-neglected component in the transmission of Gurdjieff’s legacy. Van Dullemen, whose first Movements’ teacher received her instruction from Gurdjieff himself, is in a unique position

to offer background, theory and first-hand experience about this subject. He is a professional musician and a long-time practitioner of the Gurdjieff work who trained in these Movements and served as a master accompanist for the practice for over thirty years. “No book can teach the Movements,” the author clearly asserts. And, he makes no such attempt here. Far from an instruction manual, *The Gurdjieff Movements, A Communication of Ancient Wisdom*, offers invaluable insight into and greater understanding of the whys and wherefores of this fourth arm of the vast teaching that comprises Gurdjieff’s complete communication: his books, his oral teachings, his music and finally his Movements. Along with fascinating stories of his own journey of discovery,

van Dullemen has skillfully integrated: – autobiographical descriptions of the master Gurdjieff – interviews with direct pupils of Gurdjieff – diligent research within a wide range of firsthand sources – descriptions of the scientific, cultural and social climate during Gurdjieff’s time, and – the relationship between these and his teaching. The book is also a rare accomplishment. While highly authoritative, it is nonetheless written in a direct style with clear language, making it accessible to the public at large who may have interest, but little background, in this esoteric science and practice.

Over one hundred years ago in Russia, G. I. Gurdjieff introduced a spiritual teaching of conscious evolution—a way of gnosis or “knowledge of being” passed on from remote antiquity. Gurdjieff’s early talks in Europe were published in the form of chronological fragments preserved by his close followers P. D. Ouspensky and Jeanne de Salzmann. Now these teachings are presented as a comprehensive whole, covering a variety of subjects including states of consciousness, methods of self-study, spiritual work in groups, laws of the cosmos, and the universal symbol known as the Enneagram. Gurdjieff respected traditional religious practices, which he regarded as falling into three general categories or “ways”: the Way of

the Fakir, related to mastery of the physical body; the Way of the Monk, based on faith and feeling; and the Way of the Yogi, which focuses on development of the mind. He presented his teaching as a “Fourth Way” that integrates these three aspects into a single path of self-knowledge. The principles are laid out as a way of knowing and experiencing an awakened level of being that must be verified for oneself.

A great deal of mystery surrounds G.I. Gurdjieff and "The Work." Today, many on the path of selfexploration find themselves drawn to the symbolism of the enneagram, and to Gurdjieff's other teachings. Gurdjieff was undeniably

charismatic many famous and influential people lived in his "shadow," accepting his guidance while changing and transforming their lives. *Shadows of Heaven* focuses on the relationship between Gurdjieff and the poet-novelist Nathan Jean Toomer, from 1924 until Gurdjieff's death in 1949, as well as each man's relationship with Edith Annesley Taylor and her son Paul, the author of this book. Caught in the middle of this tense triad of interests was the English critic/publisher A.R. Orage, who was close to all three parties, and whose wife, Jessie, was Edith's best friend. Paul Taylor's unique life experience has made it possible for him to combine his mother's memoir's conversations between Toomer and Gurdjieff, and entries from Jessie Orage's diary into this

fascinating book. It is probably the first to reveal something of Gurdjieff's "love life" with the mothers of his children. Several new descriptions of Gurdjieff's voyages with his pupils reveal aspects of Gurdjieff's character not documented elsewhere. Excerpts from Jessie Orage's diaries testify to the magnetic attraction Gurdjieff exercised over those he felt were vital to the dissemination of his ideas. With 16 pages of never-before published photographs, this book presents a fresh new picture of Gurdjieff and his teaching, adding to his legend a tangible humanity to which we can all relate.

An application of Gurdjieffian principles to fully and properly activate the power of language • Explains the relationship between the Gurdjieff enneagram and sacred geometry and harmonics • Shows that the objective power of language--and art and music--lies in the ability to use symbols that will mean precisely the same thing to anyone • Includes a new English translation of René Daumal's essay "The Holy War" In *The Magic Language of the Fourth Way*, Pierre

Bonnasse applies the esoteric teachings of Fourth Way mystic G. I. Gurdjieff and the insights of initiate René Daumal to show how to fully and properly activate the power of language. Bonnasse shows how words can regain the strange magical powers they possessed in the first days of humanity, when words created the realities of what they described. This is a far cry from today's world in which even writers lament the impotent nature of language. Bonnasse uses the relationship between the Gurdjieff enneagram and sacred geometry and harmonics to reveal the power given to words by the notes of the scale. He shows not only how to discover the objective power of words but also how to apply the relationship between language and living to maximum effect.

He explains that the objective power of language--and art and music--lies in the ability to use symbols that will mean precisely the same thing to anyone. The Magic Language of the Fourth Way serves as a clear and generous introduction to the complexities of Gurdjieffian thought as well as a descriptive how-to manual for Fourth Way aspirants on the uses of objective language for spiritual advancement. Gurdjieff Reconsidered Inner Traditions

The main subject of this book is the relationship between sexual health and spiritual evolution. Specifically, the book focuses on Wilhelm Reich's discoveries regarding sexual health and George I. Gurdjieff's concept of spiritual evolution. The thesis is that spiritual evolution, in Gurdjieff's sense, is not possible apart

from sexual health as Reich determined it. Throughout the book, Brahinsky presents an in-depth discussion on Gurdjieff's conception of the evolution of consciousness, sex, Reich's discovery of the prime source biological life energy, the fundamental laws of world creation and world maintenance, the evolution and involution of consciousness, the food of impressions and the crystallization of the higher-being bodies, and finally, sexuality and evolution. Students of Reich and Gurdjieff will acquire the knowledge they need through this edifying book. For more information on Reich and Gurdjieff: Sexuality and the Evolution of Consciousness, interested parties may log on to www.Xlibris.com. [Fourth Way University-Press.org](http://FourthWayUniversity-Press.org) This Essay follows Gurdjieff's challenge:

"Take the understanding of the East and the knowledge of the West - and then seek!" "Enneagram & Transformation" is dedicated to the knowledge/science of the West, by examining and describing the systemic and processual foundations of the Enneagram. The result is the acknowledgement of the Enneagram as a universal Metamodel whose rules can be applied to analyze the most complex issues. The explanations presented in "Enneagram & Transformation" confirm what Gurdjieff taught his students in St. Petersburg: "Generally speaking, one must understand that the Enneagram is a universal symbol. All knowledge can be summarized in the Enneagram and interpreted with the help of the Enneagram. And so you can say that you only know, or understand, what you can

insert into the Enneagram. What you can not fit into the Enneagram is not understood. "An additional way for further model creation is the extended form of the Enneagram based on relevant Gurdjieff's quotes - the EN-Cosmogram©.

The Universal Hieroglyph Routledge

From the author: For many years now, I have sought out and spoken to people who actually knew Gurdjieff, and others whom I respect for their dedication to the Work. Of course I asked them questions that were important to me personally, but I also tried to find out what in the Work was most vital for them. What was, in their opinion, the most important idea, method, form, direction, meaning, and how did they weight them? Finally, what was the

sense and aim of this Work? Why does it, and why should it, continue to exist? What is, as Michel de Salzmann asked, the specificity of the Work? What does the Work touch and develop that the many other teachings do not? This inquiry inevitably led to trying to understand this particular phase of our Work and what is required of you and me if the Work is to evolve, that is, to continue. This moment is connected with the whole life of the Work, yet it cannot all be lumped together. It is like building a house or raising a child; each phase must be attended to and respected. . . . As to what is most important, that is, the state of the Gurdjieff Work, and to, so-to-say "stir-up" in each reader the cognition that it is their personal duty to assure its continuation, along with some

digressions into related areas that might interest him or her, that is the subject of this book. It reflects my viewpoint, nothing more and nothing less.
