LANE BOOTH

Better Love (from "The Legend of Tarzan") Cambridge University Press
 The author recounts his life experiences following his year-long journey circling the world. This is the fifth book in the series covering his life from birth to elder age.
Connecting the Dots Between Environmental Toxins and Rising Autism Rates Golden Books
 Jennifer Hansleman's second book follows Ohio's first set of triplets as they turn into preschoolers.
Just Like Other Daughters Jessica Kingsley Publishers
 The alarming spike in autism in recent years has sent doctors and parents on a search for answers. And while many

controversies have erupted around the issue, none have gotten us any closer to a definitive explanation, and many key concerns remain unexplored. Moving beyond the distractions of the vaccine debate, *The Autism Puzzle* is the first book to address the compelling evidence that it is the pairing of environmental exposures with genetic susceptibilities that may be impacting the brain development of children. Journalist Brita Belli brings us into the lives of three families with autistic children, each with different ideas about autism, as she explores the possible causes. She interprets for readers compelling evidence that environmental toxins—including common exposures from chemicals mounting in our everyday lives—may be sparking this disorder in vulnerable children. Belli calls for an end to the use of hazardous materials—like

toxic flame retardants used in electronics and furniture, which have been banned elsewhere—insisting that we cannot afford to experiment with our children. *The Autism Puzzle* puts a human face on the families caught in between the debates, and offers a refreshingly balanced perspective.

If you are the parent of a child with autism or Asperger syndrome, you may feel that involvement in the community is not

possible for your family. This book sets out to change that, with a rich and varied menu of suggestions for how you can take a full part in community life and support the strengths and interests of your child at the same time. *Get Out, Explore, and Have Fun!* is your guide to what's out there, how to find it, and how to make it work for your family. It includes hints and tips for involving your family in the right community activities, from sports to science; information on museums, arts organizations and science institutions as venues for enjoyable and enriching days out for the family; and resources and ideas to help your child build on their strengths, interests, and preferred learning styles. Handouts about autism and Asperger syndrome are also included, as well as suggestions about how organizations and institutions can successfully include children on the spectrum in their activities. This book will open the door to community inclusion, creative exploration, and social learning, and is a must-read for any parent of a child on the autism spectrum.

By the time he was three, Walker's
parents were concerned enough about his
delayed development to consult a
paediatric neurologist. Doctors diagnosed
autism and issued a grim prognosis: 'I hold
out no hope for this child'. But they hadn't
accounted for Walker's intelligence,
affection, and sense of humour - or for the
remarkable bonds that grew within his
family. Walker's father, Robert Hughes,
tells a touching and inspiring story of
discovering that their 'perfect little boy
had a problem'. With disarming honesty
and humour, the book tells how a family
copes and keeps hope alive despite the
staggering difficulties autism presents.
