 The Motivation Manifesto is a poetic and powerful call to reclaim your life and find your own personal freedom from Brendon Burchard - the world's #1 high performance coach and #1 New York Times bestselling author of High Performance Habits. "It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book." —Paulo Coelho
 The Motivation Manifesto is a call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of

humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Brendon says, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Brendon motivates us to free ourselves from fear and take back our lives once and

for all. In this life-changing personal growth book, Brendon presents his nine declarations for personal power and motivation, drawing on insights from his own personal journey and from the lives of some of history's greatest leaders and thinkers. Each chapter focuses on one of the nine declarations, offering practical strategies and exercises to help you apply these principles to your life. Whether you're seeking to overcome self-doubt, boost your confidence, or achieve your goals, The Motivation Manifesto is an invaluable guide to unlocking your full potential. With its inspiring message and actionable advice, this bestselling book is a must-read for anyone who wants to unleash their inner greatness with the power of determination, resilience, and an empowering mindset.

The Sell John Wiley & Sons
Wall Street Journal Bestseller A groundbreaking approach to succeeding in business and life, using the science of resourcefulness. We often think the key to success and satisfaction is to get more: more money, time, and possessions; bigger budgets, job titles, and teams; and additional resources for our professional and personal goals. It turns out we're wrong. Using captivating stories to illustrate research in psychology and management, Rice University professor Scott Sonenshein examines why some people and organizations succeed with so little, while others fail with so much. People and organizations approach resources in two different ways: "chasing" and "stretching." When chasing, we exhaust ourselves in the pursuit of more. When stretching, we embrace the resources we already have. This frees us to find creative and productive ways to solve problems, innovate, and engage our work and lives more fully. Stretch shows why everyone—from executives to entrepreneurs, professionals to parents, athletes to artists—performs better with constraints; why seeking too many resources undermines our work and well-being; and why even those with a lot benefit from making the most out of a little. Drawing from examples in business, education, sports, medicine, and history, Scott Sonenshein advocates a powerful framework of resourcefulness that allows anybody to work and live better.

8 Secrets of the Truly Rich HarperCollins Originally written in 1938 but never published due to its controversial nature, an insightful guide reveals the seven principles of good that will allow anyone to triumph over the obstacles that must be faced in reaching personal goals.

On the Move to Meaningful Internet Systems 2007: OTM 2007 Workshops Rosetta Books Discover and cultivate the secret traits of self-made billionaires with **THE SELF-MADE BILLIONAIRE EFFECT** by John Sviokla and Mitch Cohen Imagine what Atari might have achieved if Steve Jobs had stayed there. Or what Steve Case could have done for Pepsi if he hadn't left for a start-up that eventually became AOL. Scores of billionaires worked for established corporations before they struck out on their own. People like Michael Bloomberg and Mark Cuban went on to build iconic household brands. Why didn't their former employers hang onto these people? And why are most big companies unable to create as much value as the world's 800 self-made billionaires? Billionaires aren't necessarily luckier, smarter or harder

working than the rest of us - and they rarely build something brand-new. The key difference is their mindset. They redefine what's possible - and they are critical to any company looking to create massive value. The **Self-Made Billionaire Effect** breaks down the five critical habits of massive value-creators, so you can learn how to identify, encourage, and retain them - and even become one yourself. It will forever change the way you think about talent and business value. John J. Sviokla is the head of Global Thought Leadership with PricewaterhouseCoopers. He is a frequent speaker on innovation, growth, and customer behavior. In addition to working with clients, John serves on PwC's Advisory Leadership Group and Global Thought Leadership Council. He was on the faculty of the Harvard Business School for ten years and has written for Harvard Business Review, The Wall Street Journal, Financial Times, and Sloan Management Review. Mitch Cohen is PwC's Vice Chairman. During his 33 years at the firm and 20 years as a partner, Cohen has held a variety of leadership roles and served numerous Fortune 500 clients.

The Million Dollar Decision John Wiley & Sons

#1 New York Times, Wall Street Journal, and USA Today Bestseller! *Secrets of the Millionaire Mind* reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our

subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!
