 In her latest book, depression counselor, Alexandra Massey, distils years of hard-won strategies for treating depression. She provides an easy-to-follow ten-step program that will help you beat it quickly and without pharmaceuticals. Massey, who has suffered from depression most of her life, refused to take prescription drugs when her symptoms became debilitating. "I was very clear about the root cause of the depression," she says. "It was very, very low self-esteem. The overriding symptom was deep hopelessness and I

had a sense that connecting with others who knew how I felt was what I needed—not drugs." According to Massey, the first step toward recovery from depression is acceptance. "Depression is like wet sand. The more you push, the harder it gets. By accepting depression, you will find a sense of relief." The second step is trust. "When we are dealing with the despair and hopelessness of depression, it's almost impossible to believe that everything is going to turn out OK," she writes. Massey attributes her own recovery in part to her years-long participation in 12-step programs. From the recovery movement she learned the power of "letting a greater power into your life." Says Massey, "For me, real change

didn't happen until I acknowledged that I couldn't beat depression on my own and that I needed to rely on something bigger and wiser than myself." These are the foundations stones. The remaining steps will lead you on a journey to a new, depression-free life. By following the steps, you will find greater peace of mind, more resilience, and, inevitably, the reemergence of your dreams.

 The First Native American tradition of elders imparting wisdom to younger generations has no counterpart in contemporary American culture. Our culture has no systematic way of transmitting the knowledge of our seniors to our young people. If anything, a societal

disconnect or gulf exists between our older and our younger people. As a grandfather and as an elder at age 60, I use this book to pass on to my three grandchildren (as well as to other readers) 50 bits of wisdom I have learned from six decades of living in this society. The 50 bits are derived from experiential learning. They come from the joys and the vicissitudes I have had and from the successes and the mistakes I have made. The 50 bits of wisdom are by no means intended to be exhaustive of all the wisdom available to us. Numerous sources contain additional and valuable wisdom, and I encourage my grandchildren (and my readers) to pursue these other helpful resources. The 50 bits are those which I have been able to integrate into my life, and so I know them personally. They are a part of my value system and my daily behavior. My goal for this book is to help make my three grandsons lives (and my readers lives) a little bit better, happier, or easier. My hope is that something written here will be of benefit to them. The book is organized into three sections and an appendix. Section I: Universal (Non-Spiritual) Concepts is devoted to a discussion of 14 concepts experienced by most, if not all, people; hence, the word, Universal. These concepts are: Change; Struggle; Suffering; Wounded and Healing; Diversity; Acknowledgment; Cause and Effect; Broad Strokes versus Fine Strokes; Communication; Transcending Ego; Projection; Support Systems; Unintended Outcomes; and Entropy. Section II: Spiritual Concepts explicates 19 concepts which draw on interfaith spiritual wisdom, transcending teachings of any one particular religion. They also draw on near-death experience research findings. The concepts included are: God; The Golden Rule; Unconditional Love; We Are All Children of God; Religious Pluralism; Mindfulness; Balance; Helping Others; Karma; Dark Night of the Soul; Compensatory Gifts; Go With Your God-Given Gifts; Environmental Stewardship; Putting Problems in Gods Hands; Thankfulness; Mission; Be a Good Person; Forgiveness; and Find Your Own Spiritual Path. Section III: Helpful Maxims elucidates 17 principles which have provided guidance for leading my life. These are: take a problem and turn it into an opportunity; most things in life are neither all black nor all white; always try to make things a little bit better; it is better to be safe than sorry; speak truth to power; bad things may happen to good people; when is enough, enough?; waste not, want not; the known often seems safer than the unknown; all behavior is understandable if

seen through the eyes of the person doing the behaving; learn from your mistakes; never stop learning; trust your feelings; if you are not sure, dont make a hasty decision; dont be afraid to go against the grain; make hay while the sun shines; and, vote. And, the Appendix catalogues 20 additional axioms, the truth of which I have been able to glimpse but the essence of which I have not been able to incorporate into my life as fully as the 50 bits of wisdom discussed in Sections I, II, and III. These are: if it isnt broken, dont fix it; let the person who is without sin cast the first stone; dont panic; what are the underlying, unspoken feelings here?; dont look back; cut your losses; everything happens for a reason; make time for play; buyer beware; laughter is good medicine; when one door closes, another door opens; image, regrettably, matters; two steps forward and one step back; expectations may lead to disappointments; speak from your own experience; the ends do not justify the means; do the job right; practice right speech; recognize a window of opportunity; and namaste! The 50 co In Step with the Spirit Inspiring Voices The concept of gender is one that is static for many and malleable for some. Many mistakenly interchange gender with sexuality. Some argue that it is cultural/environmental, while other say that it is genetic. What is gender? The answer continues to elude. Tarynn Whitten's introspective work seeks to explore the mystery of gender identity through an integration of various principles of Taoism. The Tao of Gender grew out of a personal need to provide peaceful reading for those who seek "The Way" on their journey through life, in a world where transgenderism and transsexuality are all too often misunderstood. The author hopes to help those on this journey to find balance by tapping into their infinite capacity for resourcefulness and wisdom within. What readers are saying This book is a gift of inspiration and insight for those who experience gender fluidity or want to explore the nature of trans-genderism. Tarynn artfully weaves the personal and the philosophical, creating a tapestry of gender and Taoism with threads of self-discovery and renewal.—Randi Ettner, Ph.D., author of *Gender Loving Care*; and *Confessions of a Gender Defender* Wife, Mother, Spirit, Angel Jewish Lights Publishing From USA Today bestselling author Grahame Claire comes the gripping conclusion to the *Crash & Burn Duet*. For as long as I can remember I've wanted to

fight fire. There's no high like rushing into a burning building knowing you could save a life. Ever since I met Pepper, I've only put her in danger. But even that knowledge can't keep me away. She's everything I never knew I needed. Kind, brave, and never hesitates to put me in my place. But someone isn't happy I've found a place with her. As the threats close in around us, I have a choice make. Give up everything I've dreamed or lose the woman who has made me whole. The fires are closing in. Time is running out. And we might both be burned to ashes. *Wiser* Hazelden Publishing & Educational Services When One Door CLOSES Another Door OPENS Doors speak of opportunities, chances or possibilities. Sandi Bachom has spent a fair amount of time "in the hallways" of life, trying to find her way out of, around, or through various crises—addiction, divorce, unemployment, and more. She developed a keen ear for wise sayings along the way—and it's a good thing she was paying such close attention. In *Hell in the Hallway*, Bachom shares hundreds of insights gathered in the midst of life's stall-outs, setbacks, and hardships. One-liners dispensed with a humorous slant. Peterside felt God must be having a laugh; if not, why would he choose to put his destiny across great waters. Knowing fully well the fear of water was the beginning of wisdom for Peterside. But God did have a great sense of humour when he revealed that his destiny was across great waters, then confronts Peterside with great sand instead. But Peterside was determined to be the hero of his destiny: whether he had to swim to get there or walk until his feet blistered. Having to confront every obstacle imaginable were the best and worst times of his life. It was the time for destiny fulfilment and an era to lean on his own understanding, and believing this was his lot to fulfil. His time had come, and nothing was going to stop him. Come petrifying great waters, come deadly Nubian snakes, come scary bedouin, come monstrous sand storms, come killer pirates, even trigger happy guards and crazy boat captains. He was determined to get to his destiny as predicted. But one thing he forgot to take into account; Man proposes, but God disposes.

Here is a timeless collection of traditional stories that recount the personal spiritual journeys and true acts of selflessness by saints from various religious traditions indigenous to India, including Buddhism, Hinduism, Jainism, Sikhism, and Sufism. The authors present a diverse selection of these inspirational tales—about both men and women saints, from a variety of time periods, and from all over India—and make them relevant for a modern audience. The stories reveal that, despite their perceived differences, the same spiritual principles underlie all the great religious traditions.

Drawn from intimate interviews with 14 modern-day "steel rail nomads," One More Train to Ride provides a revealing picture of today's American hobo. Interspersed with their stories are original poems and songs echoing the ancient lyricism and loneliness of life on the road. Their connections with the past make the experiences of these hoboes even more striking, as they ride freight trains and jungle up in hobo camps, light years away from the 21st-century cyberworld -- yet touching the very core of American freedom and individualism. Cliff Williams

skillfully elicits details of family background, motives, and clear insights into the daily life and philosophy of the modern hobo. With its evocative link to the past, *One More Train to Ride* continues a long tradition of books on hobo oral history, including Nels Anderson's *The Hobo* (1923) and Thomas Minehan's *Boy and Girl Tramps of America* (1934).

God reveals Himself to us in the Holy Scriptures, and from His Word we can learn about His nature, His character, and His plan for humankind. Yet this spiritual journey takes something more than just reading the words in the Bible and applying our own interpretations—it takes authentic faith and a good deal of help from the Holy Spirit. *God's Unreasonable Reasoning* is a captivating spiritual guidebook that can help you understand God's reasoning in life's many transitions, and it can change the way you interpret the experiences that you don't understand

in your daily life. Author and ordained bishop Dr. Preston Williams II offers insight into why human reasoning can't assume that God sees things as we see them, explaining how human reasoning can be an enemy of faith since it is driven by our human nature and the physical experiences of life. With this understanding, you can experience the self-discovery and the wisdom that can prepare you to confront the rapid and complex challenges and transformations in today's world. Sharing his own remarkable personal stories of trials, transitions, and ultimate triumphs, Dr. Williams invites you to be inspired to follow your own dreams by seeing the world through God's eyes and allowing your path to be illuminated by biblical principles, metaphors, and insights that will stir your soul and touch the core of every heart earnestly seeking its own destiny on the journey of life.
