CUNNINGHAM STERLING

The French Revolution Harvard
University Press

By analytically decoupling war and violence, this book explores the causes and dynamics of violence in civil war. Against the prevailing view that such violence is an instance of impenetrable madness, the book demonstrates that there is logic to it and that it has much less to do with collective emotions,

ideologies, and cultures than currently believed. Kalyvas specifies a novel theory of selective violence: it is jointly produced by political actors seeking information and individual civilians trying to avoid the worst but also grabbing what opportunities their predicament affords them. Violence, he finds, is never a simple reflection of the optimal strategy of its users; its profoundly interactive character defeats simple maximization logics while producing surprising outcomes, such as relative nonviolence in the 'frontlines' of civil

war.

The Beach Beneath the Street

Cambridge University Press

Here are the complete prophecies of Nostradamus. Nostradamus is the best known and most accurate mystic and seer of all times. There are those who say that he predicted Napoleon and even the attack on the World Trade Center. Read the prophecies and judge for yourself.

Body My House Springer

This book is about how people behaved during the German occupation of France during World War Two, and more specifically about how individuals from different social and political backgrounds recorded and reflected on their experiences during and after these tragic events. The book focuses on the

concepts of treason and sacrifice, and takes the form of an introductory overview, followed by contextualised case studies in the areas of politics, daily life, civil administration, paramilitary action, literature and film.

Global Trends 2030 Utah State University Press

A richly illustrated book exploring the origins of the modern fascination for heritage, comparing preservation in France, Germany and England.

This volume brings together Pierre

Bourdieu's highly original writings on language and on the relations among language, power, and politics. Bourdieu develops a forceful critique of traditional approaches to language, including the linguistic theories of Saussure and Chomsky and the theory of speech-acts elaborated by Austin and others. He argues that language should be viewed not only as a means of communication but also as a medium of power through which individuals pursue their own interests and display their practical competence. Drawing on the concepts that are part of his distinctive theoretical approach, Bourdieu maintains that linguistic utterances or expressions can be understood as the product of the relation between a "linguistic market" and a "linguistic habitus." When

individuals use language in particular ways, they deploy their accumulated linguistic resources and implicitly adapt their words to the demands of the social field or market that is their audience. Hence every linguistic interaction, however personal or insignificant it may seem, bears the traces of the social structure that it both expresses and helps to reproduce. Bourdieu's account sheds fresh light on the ways in which linguistic usage varies according to considerations such as class and gender. It also opens up a new approach to the ways in which language is used in the domain of politics. For politics is, among other things, the arena in which words are deeds and the symbolic character of power is at stake. This volume, by one of the leading social thinkers in the world

today, represents a major contribution to the study of language and power. It will be of interest to students throughout the social sciences and humanities, especially in sociology, politics, anthropology, linguistics, and literature. May Swenson's Work and Life JHU Press This Companion examines the lives of medieval women by focusing on the texts that emerged from and shaped their experience.

The Everyday Life and Glorious Times of the Situationist International Verso Books

This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for

thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the

potential trajectories for the US role in the international system and the possible the impact on future international relations. and more. This publication helps anticipate where the world will be: socially, politically, technologically, and culturally over the next few decades. Keywords: Global Trends 2030 Alternative Worlds, global trends 2030, Global Trends series, National Intelligence Council, global trajectories, global megatrends, geopolitics, geopolitical changes Alternative Worlds McDougal Littell/Houghton Mifflin Situating the French Revolution in the context of early modern globalization for the first time, this book offers a new approach to understanding its international origins and worldwide effects. A distinguished group of contributors shows that the political culture of the Revolution emerged out of

a long history of global commerce, imperial competition, and the movement of people and ideas in places as far flung as India, Egypt, Guiana, and the Caribbean. This international approach helps to explain how the Revolution fused immense idealism with territorial ambition and combined the drive for human rights with various forms of exclusion. The essays examine topics including the role of smuggling and free trade in the origins of the French Revolution, the entwined nature of feminism and abolitionism, and the influence of the French revolutionary wars on the shape of American empire. The French Revolution in Global Perspective illuminates the dense connections among the cultural, social, and economic aspects of the French

Revolution, revealing how new political forms-at once democratic and imperial, anticolonial and centralizing-were generated in and through continual transnational exchanges and dialogues. Discovering French BRILL
" Salvator Rosa (1615-1673) was a colorful and controversial Italian painter, talented musician, a notable comic actor, a prolific correspondent, and a successful satirist and poet. His paintings, especially his rugged

landscapes and their evocation of the sublime, appealed to Romantic writers, and his work was highly influential on several generations of European writers. James S. Patty analyzes Rosa's tremendous influence on French writers, chiefly those of the nineteenth century, such as Stendhal, Honoré de Balzac, Victor Hugo, George Sand, and Théophile Gautier. Arranged in chronological order, with numerous quotations from French fiction, poetry, drama, art criticism, art history, literary history, and reference works, *Salvator Rosa in French Literature* forms a narrative account of the reception of Rosa's life and work in the world of French letters. James S. Patty, professor emeritus of French at Vanderbilt University, is the author of *Dürer in French Letters*. He lives in

Nashville, Tennessee.

The Arcades Project Princeton University Press

Critiquing the arcades of nineteenth-century Paris--glass-roofed rows of shops that served as early malls--the author, who wrote the work in the 1920s and 1930s, covers thirty-six still-trenchant topics, including fashion, boredom, photography, advertising, and prostitution, among others.

Preserving the Past in France, Germany and England, 1789-1914 McDougal Littell/Houghton Mifflin

Study of the intersection of history and philosophy as it relates to recent French political change, evidenced in essays concerning popular justice, power struggles, and the history of sexuality *An Intellectual History of the French*
