Exploring the broad spectrum of the forensic sciences practiced both inside and outside of a crime lab, this text investigates forensic sciences that are used both in criminal and civil contexts, along with non-traditional and new applications such as occupational fraud, wildlife protection, and homeland security. The approach is unifying in that it seeks to explain the underlying theoretical and practical concepts that unite all forensic science as well as the individual challenges of each of the forensic sciences. The scientific concepts that underly the forensic sciences are explained in a manner that is understandable by readers without a science background.

Clementine can't believe her ears: her beloved teacher, Mr. D'Matz, might be leaving them for the rest of the year to go on a research trip to Egypt! No other teacher has ever understood her impulsiveness, her itch to draw constantly, or her need to play "Beat the Clock" when the day feels too long. And in his place, he's left a substitute with a whole new set of rules that Clementine just can't figure out. The only solution, she decides, is to hatch a plan to get Mr. D'Matz back. Even if it means ruining her Mr. D'Matz's once-in-a-lifetime chance, it's worth it -- isn't it?

South African artist Irma Stern (1894-1966) is one of the nation's most enigmatic modern figures. Stern held conservative political positions on race even as her subjects

openly challenged racism and later the apartheid regime. Using paintings, archival research, and new interviews, this book explores how Stern became South Africa's most prolific painter of Black, Jewish, and Colored (mixed-race) life while maintaining controversial positions on race. Through her art, Stern played a crucial role in both the development of modernism in South Africa and in defining modernism as a global movement. Spanning the Boer War to Nazi Germany to apartheid South Africa and into the contemporary #RhodesMustFall movement, Irma Stern's work documents important twentieth-century cultural and political moments. More than fifty years after her death, Stern's legacy challenges assumptions about race, gender roles, and religious identity and how they are represented in art history.

Wimpy Kid author Jeff Kinney comes Poptropica, a brand-new graphic novel adventure series by Jack Chabert and Kory Merritt. In *Mystery of the Map*, Oliver, Mya, and Jorge take a ride in a hot-air balloon, only to crash-land on an unknown island filled with extinct animals and a horde of angry Vikings. Welcome to Poptropica, an uncharted group of islands whose existence is hidden from the rest of the world. As the three friends embark on a perilous search for a way home, they quickly discover the shocking reason they were brought there—something that threatens the very existence of Poptropica and their ability to ever make it off the island!
