 Editeur

In *Burning Rubber*, Charles Jennings tells the fast and furious tale of motor sport's premier competition, from its earliest roots in the suicidal road races of the Edwardian age to the brave new world of Hamilton, Button, Alonso and Vettel in the 2000s. In a narrative bristling with anecdote and incident, he explores the lost world of the 1950s racetrack, the rise of British constructors in the 1960s, the impact of technological changes from the late 1970s, the advent of the high-profile team boss in the 1980s and the revolution wrought on Formula One by computers in the 1990s. Throughout, sparkling and incisive profiles shed revelatory light on

the drivers who have risked life and limb: the brilliant but inscrutable Juan Manuel Fangio, the ebullient Stirling Moss, the champagne-gargling James Hunt, the cerebral Alain Prost and mercurial Ayrton Senna, the adenoidal Nigel Mansell, the metronomic Michael Schumacher, the precocious Lewis Hamilton and the reborn Jenson Button. *Burning Rubber* takes the reader on a white-knuckle drive through the bends, straights, chicanes and pit stops of Formula One's checkered history. **It is what it is** Bonnier Publishing Ltd. The bigger they are, the harder they fall" is how the old saying goes and while most of the time that is true the once-mighty Team Lotus was the exception. Because Lotus' decline was unusual: it was not a spectacular, swift or a sudden affair. Instead, it was a death by a 1000 cuts spanning years if not decades. During which time drivers were calling the shots,

resources not allocated efficiently, race-winning technologies squandered, and questionable investments made. But could all this have been avoided and if so who or what should take the blame? A new book explores...*Team Lotus: Beyond the Colin Chapman Era* tells a tale that has been criminally under-reported. Lotus' decline, and its death by 1,000 cuts. It contains approx. 500 pages (kindle size) with over 150 rare photos. In short it will be comparable to my last book, 1994 - *The Untold Story*. Given all the positive reviews of that, you can expect this new book to be a great read, please look out for any reviews if you don't believe me. Contributors towards it include: Frank Dernie - Lotus' Technical Director Between 1989/90. Peter Wright - The man behind Lotus' active suspension during the 1980s. Antony Hayes - Historian for Team Lotus, and someone who worked there

during the 1980s & 1990s. Willem Toet - Designer of championship-winning Benetton's and Ferrari F1 cars & F1 aerodynamics/wind tunnel expert. Nigel Beresford - Tyrrell's Race Engineer to Palmer, Alesi and Modena between 1989-1991 I'll add any reviews of this E-book here in due course so readers can make an informed decision. Peter Wright has read some of the draft and calls it an "interesting read." So what will be contained in this book? It focuses on the years from 1983 to the end of 1989 because we may produce a follow up book investigating Lotus' final years of 1990 - 1995. The reason they aren't in a single book is simple; this decline story is one that needs to be covered in detail. Remember there are 1000 cuts to cover. The book guides readers through all of Team Lotus' races between 1983 to the end of the 1989 F1 Season. This is to identify how the team bounced back after the death of their founder and inspiration, Colin Chapman, and to work out where their decline began. But it's also just an excuse to relive what was a great period of F1, the original turbo era. The book itself is full of detail, insights and written by someone passionate about this subject matter. An essential ingredient for a good book. This book is not shy in telling readers how things might have been done differently. It has many exclusives and is controversial in its findings. There are important lessons to be learned from a team's downfall, and that was certainly the case with Lotus as readers will come to learn. I've worked hard since the abridged version of this book (released in January 2020) to ensure any feedback from that has been implemented into this updated version. As a result this book is twice as long & detailed as that abridged version. I believe this book provides outstanding value for money for the content you are getting.

**Formula One 2021** White Lion Publishing 'A BRILLIANT TRIBUTE TO A BRILLIANT MAN.' BOOK OF THE MONTH - CLASSIC AND SPORTS CAR --- A celebration of the extraordinary life of legendary commentator Murray Walker, with tributes from key figures in Formula 1 and motorsport. Murray Walker was the voice of Formula One, matching the thrill of the track with his equally fast-paced and exhilarating commentary, delivering the euphoria of motor racing to millions. Commentating on his first grand prix for the BBC at Silverstone in 1949, Murray's broadcasting career spanned over fifty years. His natural warmth and infectious enthusiasm won great affection with audiences, whilst his passion and

knowledge of motorsport allowed him to hone his instinctive presenting style into a craft. When Murray passed away in March 2021, tributes came flooding in from every corner of the sporting world. This book, compiled by Murray's great friend and colleague Maurice Hamilton, celebrates the extraordinary life of this truly legendary man. With contributions from drivers and industry figures, and many friends from the world of motorsport and beyond, Incredible! combines fond memories, never-before-told stories and famous Murrayisms with reflections on the highlights of a life lived at full throttle.

*The Art of the Formula 1 Race Car 2022*

Springer

Formula One 2021, the world's bestselling Grand Prix handbook, is the essential resource for the season ahead. Formula One fans will be kept fully up to speed with detailed examinations of all the teams racing in 2021 (from Mercedes and Red Bull to Ferrari and Renault), every driver in competition (including Charles Leclerc, Max Verstappen and Lewis Hamilton), and all the tracks featured on the packed Grand Prix calendar. It also reviews the 2020 season with race-by-race reports and statistics; highlights changes to the rules and regulations for 2021; and discusses major talking points in F1. As well as the Drivers' and Constructors' World Championship tables from 2020, there is a fill-in guide for 2021, so each book can become a personalized record of the Formula One season.

*Life At The Limit* Lerner Publications

Formula One race cars are fast and sleek. They zoom around the racetrack. But how do these cars go so fast? And how do drivers stay safe? This title offers an exciting look at Formula One race cars, including how they work, the special equipment they need, and how they take the corners at blinding speeds. Explaining everything from the tires to the steering wheel and the roaring engine, this book will thrill Formula One fans!

*Formula One and Beyond* Random House

Tackling the subject of Formula One's most influential figures, Timothy Collings provides penetrating insights into Bernie Ecclestone, Max Mosley, Alain Prost, Jackie Stewart, Ron Dennis and many more.

*Team Lotus* Veloce Publishing

Paul Parker's In Camera titles about motor racing have been so acclaimed by pundits and book buyers that he is returning to where he started - Formula 1 in Camera 1970-79 - by compiling 'Volume 2', containing a completely fresh selection of 250 images. Meticulously researched, rare

color photographs are brought to life through the author's well-observed and atmospheric commentary to create a visually stunning and highly nostalgic record of the decade.

*Burning Rubber* Pan Macmillan

'The story of Brawn GP is legendary...

Exciting and magical.' Damon Hill 'Nick Fry and Ed Gorman take us behind the mysterious and tightly closed doors of F1 to tell the remarkable story of the 2009 season.' Martin Brundle Foreword by Bernie Ecclestone The full story of F1's incredible 2009 championship battle has never been told. Until now. In this gripping memoir, Nick Fry, the former CEO of Brawn GP, reveals how he found himself in the driving seat for one of the most incredible journeys in the history of motor sport. At the end of 2008, Nick, then head of Honda's F1 team, was told by his Japanese bosses that the motor company was pulling out of F1 in thirty days. This bolt from the blue was a disaster for the team's 700 staff, for Ross Brawn, who Nick had recently recruited as chief engineer, and for the drivers, Jenson Button and Rubens Barrichello. But in a few short weeks, Nick and Ross would persuade Honda to sell them the company for £1 (plus all the liabilities). Just thirteen weeks later, the Brawn GP team, led by Nick and Ross, would emerge from these ashes, win the first Grand Prix of the 2009 season, and go on to win the Driver's and the Constructor's Championship, with a borrowed engine, a heavily adapted chassis and, at least initially, no sponsors. In *Survive. Drive. Win.*, Nick gives an up-close-and-personal account of how he and Ross turned disaster into championship glory and laid the foundations for what was to become the Mercedes-AMG Petronas F1 team. Along the way he gives the inside track on the drivers, the rivalries between teams, on negotiating with Bernie Ecclestone, on hiring and working with two global superstars: Michael Schumacher and Lewis Hamilton - and offers a unique and thrilling perspective on an elite global sport.

*Formula One: The Champions* Virgin Books Limited

Studies the case of Formula 1® to show how businesses can achieve optimal performance in competitive and dynamic environments.

GOD AND FORMULA ONE: 'BEYOND THE ZONE' (THE FASTEST BOOK IN THE WORLD) Published BEFORE it's been written! See Kindle edition at <http://www.amazon.com/GOD-AND-FORMULA-ONE-ebook/dp/B005Z6BFX0A> look into the spirituality of Grand Prix drivers, their

"religious" beliefs - what faith means to them and what part it plays in their successes, their failures... and in their lives."If you have God on your side, everything becomes clear." - Ayrton Senna "I am able to experience God's presence on earth. If I go to church, I go on my own and I like to be there alone. I find more peace that way."- Ayrton Senna\* From 'The Death of Ayrton Senna' by Richard Williams "Ayrton has a small problem. He thinks he can't kill himself, because he believes in God... and I think that's very dangerous for the other drivers."- Alain Prost on his great rival, Ayrton Senna from 'FORMULA 1: The Autobiography' Thanks for the great gift, dad."I see the human being is an incredible machine, totally undiscovered in many ways. Every one of us has a hidden tank of energy that comes out when it is needed." - Alex Zanardi (former F1 and Indycar driver, who lost both legs in a horrific accident in Germany in 2001) From [www.overdrivef1.com](http://www.overdrivef1.com) The Glory of God in Formula One Racing Click on <http://vimeo.com/68142485> Also click on <http://www.youtube.com/watch?v=NeFqsWWG1qE> "The Zone could simply be a gateway to the divine, one of God's methods of reminding us of His - and our - glorious power. Omnipresence means that power must be everywhere, everytime. Including the racetracks. Including today."- Clyde Broolin writing in his great book 'Overdrive; Formula One in the Zone' "There are only three sports: bullfighting, mountain climbing and motor racing; all the rest are merely games."- Ernest Hemingway "Grand Prix racing is primarily a mental contest... it's a battle of strength of wills by the combatants and a magnificent contest, the arena to display and share unique gifts and talents. Perhaps in this 'theatre of speed', F1 is a metaphor for life itself"- craig THE "FOUR MINUTE MILE, er sorry RACEI just had this idea a minute ago (just "popped/flew into my little head"), so will write and post up at Amazon. In the meantime, if anyone is interested in my writings to date on this "airey-fairey" spiritual manuscript, they can email me I've been fascinated by the overlap between the human mind and spirituality for over two decades... and the Ultimate Source, God I feel is "leading" me to write and share this manuscript, yet another "true labour of love" ("Crazy" or perhaps not!!!). At least I believe so ... but then perhaps it's just me and my intuition/will/choice. We'll see! No matter, so better start writing then... or as my dear mother used to say "get cracking/weaving"... "totally impulsive" craig 25th October in the year 2011 "The

greatest mountain we need to climb lies in our own minds". It's not the highest mountain that we conquer, but ourselves, our own mentality. Overcoming perceived limits to reach (attain) the pinnacle of our own minds."- craig (as inspired by the words of Sir Edmund Hillary, conquerer of Mount Everest (1919-2008) "Aim at heaven and you'll have earth thrown in. Aim at earth and you'll hit neither."- CS Lewis, English poet, essayist and novelist "Whenever (or perhaps rather 'if ever') you arrive in heaven, let faith, hope and love be the wings that carried you there." - craig (as adapted from the words of Jonathan Edwards, a former minister in Massachusetts (New England)

#### **The Art of War** Pan Macmillan

The adrenaline-fueled, high-octane world of Formula One has created some of the greatest moments in sporting history. From the intense rivalries between teams and drivers, such as Alain Prost and Arton Senns and 2015's Rosberg and Hamilton, to the infamous tracks that have created moments of tragedy and triumph -- F1's greatest moments read like a film script. The Cahier Archive has captured the drama from the 1950's to the present day including Lewis Hamilton's 2015 winning season. It is filled with stunning behind-the-scenes shots, from pit stops to personal moments, beautiful portraits of the drivers and atmospheric shots of the racing in action. Structured around three sections: Drivers and Rivalries, Teams and Cars, and Tragedy and Triumph of the Circuits, Formula 1: The Pursuit of Speed captures the intensity and beauty of the sport. Each section is introduced with vivid essays by F1 correspondent Maurice Hamilton, and filled with the Cahier's beautiful and resonating photographs, many unpublished giving a behind-the-scenes look at the world of F1.

#### **Formula One Circuits from Above**

Haynes Publishing UK

In his trademark straight-talking, no-nonsense style Mark Webber reveals his amazing life on and off the Formula One race track in Aussie Grit. Mark Webber was at the centre of one of the most captivating chapters in the history of Formula One. In 2010, while racing for Red Bull, he and his team mate Sebastian Vettel went head to head for the World Championship. There could only be one winner. Since retiring from Formula One Mark has concentrated on endurance racing, including the legendary Le Mans 24 Hour race. He hit the front pages of newspapers around the world in December 2014 when he slammed into the barricades in the final round of the FIA World Endurance Championship in South

America, and was lucky to escape with his life. But the controversy of his relationship on and off the track with Vettel, who went on to win multiple world titles, has never been far beneath the surface. Here, for the first time, Webber tells the inside story of one of Formula One's most intriguing battles - it is a story that goes to the heart of why the sport is loved by millions of fans around the world. From his first taste of karting to his F1 debut in 2002, scoring Minardi's first points in three years at the Australian Grand Prix, through to his first win with Red Bull at the 2009 German Grand Prix and the year he should have been crowned World Champion. Mark Webber's journey to the top of Formula One was every bit as determined and committed as his racing. Aussie Grit is his searingly honest story. Includes a foreword by Formula One legend Sir Jackie Stewart. [Formula One Racing For Dummies](#) Formula One and Beyond After Max Mosley decided to take the News of the World to court for invading his privacy, a friend of Rupert Murdoch asked Bernie Ecclestone 'Does Max know what he's taking on?' Ecclestone replied that he thought Mosley probably did, but he wasn't sure about Murdoch. It was a mark of the respect in which the former president of the FIA is held by those who know him best. Mosley not only won, but he has now become a formidable campaigner against the abuses of the press. Now, having been in the public eye all his life, after his parents Oswald and Diana Mosley were interned during the second world war for their political beliefs, he has decided to give his fascinating account of his extraordinary career. He gave up a promising position at the Bar to take up motor racing, initially as a driver and later as a team owner. He got to know some of the sport's most famous names, but also saw the reckless disregard for their lives shown by many organisers. Mosley went on to form a formidable partnership with Ecclestone, and he reveals in compelling detail how they set about transforming Formula One into the most glamorous, exciting and extravagant form of motorsport. His inside knowledge is unrivalled, and for any fan of the sport this account is sure to shed much new light. His often unsung work for the FIA not only made Formula One safer, it was also to have hugely beneficial consequences to motorists everywhere. [Formula One and Beyond](#) Cross Sports Book Awards Autobiography of the Year For almost 50 years, Max Mosley has been involved in motor racing, having seen the sport at all levels: as a driver, a team owner (with March) and, between 1993 and 2009, as president of the FIA,

motor sport's governing body. In partnership with Bernie Ecclestone, he helped transform Formula One into a multi-billion-pound global brand. Now, in this fascinating and revealing memoir, Mosley gives a compelling insight into the sport and its most influential figures and biggest stars - it is a book that no fan of Formula One can afford not to read. But Mosley's story goes far beyond motor sport, as his life and career have taken him through an extraordinary range of experiences, from being brought up as the son of Oswald and Diana Mosley, who were interned during the war, and having to deal with the taint of the family name; through his vital campaigns for road safety that have helped to save many thousands of lives; and on to the recent intrusions into his private life that led to a famous court case against the Murdoch press. It is a book that sheds new light on events from Formula One through to Ecclestone's controversial donation of a million pounds to the Labour party. It is packed with behind-the-scenes gossip, vital business tips and some hilarious stories.

The Economics of Motorsports

The history of Formula One and the changes which have taken F1 from its rudimentary beginnings to the exhilarating high octane spectacle it is today. A fascinating insight into one of the most exciting and dangerous sports in the world

Survive. Drive. Win. Orion

The path of Grand Prix racing in America wound through raceways at Sebring, Riverside, Watkins Glen, Long Beach, and finally Caesars Palace in Las Vegas. At each stop, the influence of organized crime seemed no more than a handshake away. But at Caesars the vast crime syndicate appeared deeply involved in the operations of the luxury-branded resort. The Caesars Palace Grand Prix then culminated in an unholy alliance of the world capital of gambling, the mob, and the international czar of Formula One. During its four-year run of successive Formula One and CART IndyCar events, the race hosted the biggest names in motorsport--Mario Andretti, Bernie Ecclestone, Roger Penske, Chris Pook, Alan Jones, Nelson Piquet, Niki Lauda, Danny Sullivan, Bobby Rahal and Al Unser among them. The podium celebration of the inaugural Grand Prix put the convergence of alleged organized crime influences and auto racing on public display, while the years that followed provided their own curiosities. This book traces the intertwined threads through decades of accounts, extensive interviews, and the files of the FBI.

Formula One: The Pinnacle Random House

MISTER F1, FORMULA ONE & HUMOR COMICS, I have done a tribute to MICHAEL SCHUMACHER and his generation. It's a kind of comics of humor with flash back on Formula one with a back to the 2004 year and much more beyond the legends drivers !

My Greatest Defeat Atlantic Books

After Max Mosley decided to take the News of the World to court for invading his privacy, a friend of Rupert Murdoch asked Bernie Ecclestone 'Does Max know what he's taking on?' Aussie Grit: My Formula One Journey

Random House

It's pretty rare to come across a motor racing book that tempts you to read the thing in one sitting but "Prof" Watkins has produced a gem ... [he] is a superb raconteur, not afraid to speak his mind yet peppering the gravity with occasionally side-splitting humour. No true motorsport fan should be without this book.' Autosport Grand Prix racing has undergone sweeping changes in the last thirty years. Many of these involve safety and medical rescue. The man behind them - a champion in the racing world although he has never won a race - is the eminent neurosurgeon Sid Watkins. Life at the Limit is his remarkable story. It spans the most exciting years in Grand Prix racing and includes intimate portraits of motorsport's greatest names, from Jackie Stewart and

Niki Lauda to Alain Prost and Damon Hill. Sid Watkins has also witnessed, at first hand, some of the most severe and spectacular racing accidents. His account of these is made all the more poignant by the fact that some of the men he has rescued, sometimes at the point of death, have been personal friends. From Monza, in 1978, where Ronnie Petersen suffered a fatal accident, to Imola in May 1994 where Ayrton Senna met his untimely death, the high, and low, points of Grand Prix racing are vividly described. For all fans of Formula One, this is the inside story of the world's most dangerous sport.

No Angel McFarland

Meet Marc 'Elvis' Priestley: the former number-one McLaren mechanic, and the brains behind some of Formula One's greatest ever drivers. Revealing the most outrageous secrets and fiercest rivalries, *The Mechanic* follows Priestley as he travels the world working in the high-octane atmosphere of the F1 pit lane. While the spotlight is most often on the superstar drivers, the mechanics are the guys who make every World Champion, and any mistakes can have critical consequences. However, these highly skilled engineers don't just fine-tune machinery and crunch data through high-spec computers. These boys can seriously let their hair down. Whether it's partying on luxury yachts or gravity-defying photos aboard aeroplanes, this is a world which thrills on and off the track. This is Formula One, but not like you've seen it before.

**Formula 1** Carlton Books Limited

Formula One: Made in Britain is one of Formula One's last untold stories. As a centre of technical excellence for over thirty years, Britain is at the sharp end of the worldwide motor sport industry, and playing ever harder to win. Most of the sport's Grand Prix teams are based in the UK and many of them have British managers and designers who act as a showcase for the UK's skill base - past, present and future. The success of Britain's Formula One industry has gone largely unrecognised outside the close-knit world of the racing aficionado. Now, with *Formula One: Made in Britain*, Clive Couldwell reveals what makes this industry tick and why many of the world's players choose to come here. He explores Motorsport Valley, an area which covers the south and Midlands of the UK, where 75 per cent of the world's single-seater racing cars are designed and built, and talks to many of F1's leading lights. Winning in F1 depends on innovation and performance-critical engineering, and in this fascinating and insightful book, Clive Couldwell show how UK research and

development are leading the world.
