Women, Men, and Identity Politics John Wiley & Sons

In this engrossing and original book, Leslie Salzinger takes us with her into the gendered world of Mexico's global factories. Her careful ethnographic work, personal voice, and sophisticated analysis capture the feel of life inside the maquiladoras and make a compelling case that transnational production is a gendered process. The research grounds contemporary feminist theory in an examination of daily practices and provides an important new perspective on globalization.

Waging Gendered Wars Routledge

Globally climate-induced disasters have been impacting marginalised communities' lives, livelihood and gendered relations. This book explores the effects of Cyclone Aila (as a result of climate change) in 2009 on the rural livelihoods and gendered relations of two ethnically distinct forest communities – Munda, an indigenous group, and Shora, a Muslim group – dwelling near the Sundarbans Forest in Bangladesh. Examining the cyclone's medium- to long-term impacts on livelihoods and comparative aspects of gendered relations between these two contrasting communities, this book addresses a gap in current critical development studies. It adopts an ethnographic research design and analyses the alterations to livelihood activities and reconfiguration of gender relations within the Munda and Shora communities since 2009. The study primarily contends that post-Aila, livelihoods and gendered relations have been substantially transformed in both communities, making the case that the improvement of local infrastructure, as an important part of the geographical location, has noticeably progressed the living conditions and livelihoods of some members of the Munda and Shora communities. Connecting climate-induced changes with the construction and alteration of gendered livelihood patterns, the book will be of interest to a wide range of academics in the fields of Asian Studies, Sociology of Environment, Social Anthropology, Human Geography, Gender and Cultural Studies, Human Geography, Disaster Management and Forestry and

Environmental Science.

The purpose behind *Communicating Gender Diversity: A Critical Approach* is not to provide any final conclusions about communicating gender. Because gender is a constantly evolving concept, both in terms of individuals' gender identity development and the larger culture's predominant notions of gender, such absolute claims are not possible. Instead, the intent is to better equip readers with tools with which they can examine, and make sense of, the intersections of communication and gender. The text covers the variety of ways in which communication of and about gender and sex enables and constrains people's intersectional identities. The authors believe

people are social actors and, as such, create meaning through their symbolic interactions. Thus, the book's emphasis is not on how gender influences communication, but on how communication constitutes gender. They also believe that people are capable of being self-reflective about communication processes, and creative in generating new ways to play with symbols.

Communicating Gender Diversity Routledge

How does gender influence social movements? How do social movements deal with gender? In *Gender and Social Movements*, Jo Reger takes a comprehensive look at the ways in which people organize around gender issues and how gender shapes social movements. Here gender is more than an individual quality, it is a part of the very foundation of social movements, shaping how they recruit, mobilize and articulate their strategies, tactics and identities. Moving past the gender binary, Reger explores how movements can shift understandings of gender and how backlash and countermovements can often follow gendered movement successes. Adopting both an intersectional and global lens, the book introduces readers to the idea that gender as a form of societal power is integral in all efforts for social change. With a

critical overview across different types of movements and gender activism, such as the women's liberation, #MeToo and transgender rights movements, this book offers a solid foundation for those seeking to understand how gender and social movements interact.

Written by award-winning African novelist Mariama Bâ and translated from the original French, *So Long a Letter* has been recognized as one of Africa's 100 Best Books of the 20th Century. The brief narrative, written as an extended letter, is a sequence of reminiscences —some wistful, some bitter—recounted by recently widowed Senegalese schoolteacher Ramatoulaye Fall. Addressed to a lifelong friend, Aissatou, it is a record of Ramatoulaye's emotional struggle for survival after her husband betrayed their marriage by taking a second wife. This semi-autobiographical account is a perceptive testimony to the plight of educated and articulate Muslim women. Angered by the traditions that allow polygyny, they inhabit a social milieu dominated by attitudes and values that deny them status equal to men. Ramatoulaye hopes for a world where the best of old customs and new freedom can be combined. Considered a classic of contemporary African women's literature, *So Long a Letter* is a must-read for anyone interested in African literature and the passage from colonialism to modernism in a Muslim country. Winner of the prestigious Noma Award for Publishing in Africa.

Why are we so insistent that women and men are different? This introduction to gender provides a fascinating, readable exploration of how society divides people into feminine women and masculine men. *Gender and Everyday Life* explores gender as

a way of seeing women and men as not just biological organisms, but as people shaped by their everyday social world. Examining how gender has been understood and lived in the past; and how it is understood and done differently by different cultures and groups within cultures; Mary Holmes considers the strengths and limitations of different ways of thinking and learning to 'do' gender. Key sociological and feminist ideas about gender are covered from Christine Pisan to Mary Wollstonecraft; and from symbolic interactionism to second wave feminism through to the work of Judith Butler. *Gender and Everyday Life* illustrates gender with a range of familiar and contemporary examples: everything from nineteenth century fashions in China and Britain, to discussions of what Barbie can tell us about gender in America, to the lives of working women in Japan. This book will be of great use and interest to students to gender studies, sociology and feminist theory.

Gender and Close Relationships deals with gender and its possible effects on aims and behaviour in close relationships: dating, romantic and sexual partnerships, marriage and friendship. The authors warn their readers that they should not be looking at why there are gender differences, but at whether, when and under what conditions. The book starts with the explanatory concepts that have been found useful in considering these questions. The authors suggest two dimensions of explanations for gender differences: one dimension involves structural (social roles and expectations) versus individual (traits, needs etc.) explanations. The other dimension distinguishes between socialisation and biological explanations.... This is not just a *Between Song and Silence* Univ of California Press
