Temporal Realities and Experience Harper Collins
 Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear:

to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives
You Asked? Harper Collins
 As Maynard grew from a scattering of small hill farms to a booming center of industry and immigration, much of its colorful history was nearly forgotten. With a rollicking collection of his essays, newspaper columnist David A. Mark uncovers

the hidden gems of the town's history. Learn why Babe Ruth shopped in Maynard during his Red Sox days and what they fed the animals at the Taylor mink ranch. Find out who is buried--and who is not--in the Maynard family crypt and which rock 'n' roll bands recorded in the studio upstairs from Woolworths on Main Street. Almost lost to time, these remarkable moments in history helped shape Maynard into the vibrant community that it is today.

Why do clocks run clockwise? Why does laughing make you feel good? Why do jumping

beans jump? This giant collection of frequently asked questions brims with amazing, fascinating, and informative answers. The layout is easy to navigate: readers find the answer to the perennial "Why do people burp?" under Human Body, or the all-important "Are there really only seven colors in a rainbow?" under Science. Vibrant full-color pages are packed with photographs, diagrams, and illustrations, making this book a fun, educational package and a quality gift. Why do

salty foods make you thirsty? How do worms see underground? Are all frogs green? Children have posed all these questions, but the answers fascinate everyone, young and old alike.

Penguin

Is it true that elephants are afraid of mice? How much gold does the United States store in Fort Knox? Why do I get a headache when I eat ice cream too fast? How did the "seventh inning stretch" originate? As the official webmaster for

Xerox, Bill McLain was surprised by the kinds of questions he was receiving, like whether people born blind can see in their dreams and why rabbits are associated with Easter. McLain began to answer each and every question--attracting national attention from MSNBC, CNN, and People--and the result, collected in *Do Fish Drink Water?*, is a surprising, funny, and

informative collection of facts. McLain's answers can often be as wild as the questions and prompt entertaining anecdotes about where he found them. McLain explains how magnets are made, what caused the Great Depression of 1929, and even explains why cats purr. Also included is an extensive list of websites where he conducts research, offering an

informative guide to making the most of the Internet.
