Much more than a ribbon of crumbling asphalt, Route 66 is a cultural icon revered the world over for its nostalgia value—an east-west artery pointing America toward all the promise that the great West represented. But as stretches of Steinbeck's "Mother Road" were bypassed and fell into disuse, so too did most of the bustling establishments that had sprouted up from Illinois to California to cater to weary travelers and hopeful vacationers alike.

courts, cafes, main streets, filling stations, and greasy spoons—all are represented in this second volume of *Lost & Found* images from photographer Russell Olsen. As with its predecessor, *Route 66 Lost & Found* (2004), this new installment presents dozens of locations along Route 66's entire 2,297 miles, showing them both as in their heydays in period photographs and postcards and as they appear today. Each site is accompanied by a capsule history tracing the locale's rise and fall (and sometimes rebirth), as well as an exclusive map pointing out its location along Route 66./DIVdiv /DIV

**The Adventures of Johnny Bunko** Aperture Direct

Stephen Shore's *Uncommon Places* is indisputably a canonic body of work--a touchstone for those interested in photography and the American landscape. Remarkably, despite having been the focus of numerous shows and books, including the eponymous 1982 Aperture classic (expanded and reissued several times), this series of photographs has yet to be explored in its entirety.

Over the past five years, Shore has scanned hundreds of negatives shot between 1973 and 1981. In this volume, Aperture has invited an international group of fifteen photographers, curators, authors, and cultural figures to select ten images apiece from this rarely seen cache of images. Each portfolio offers an idiosyncratic and revealing commentary on why this body of work continues to astound; how it has impacted the work of new generations of photography and the medium at large; and proposes new insight on Shore's unique vision of America as transmuted in this totemic series. Texts and image selections by Wes Anderson, Quentin Bajac, David Company, Paul Graham, Guido Guidi, Takashi Homma, An-My Leê, Michael Lesy, Hans Ulrich Obrist, Francine Prose, Ed Ruscha, Britt Salvesen, Taryn Simon, Thomas Struth, and Lynne Tillman

The source of any photograph is not the camera or even the scene viewed through the viewfinder—it is the mind of the photographer: this is where an image is created before it is

committed to a memory card or film. In *The Photographer's Mind*, the follow-up to the international best-seller, *The Photographer's Eye*, photographer and author Michael Freeman unravels the mystery behind the creation of a photograph. The nature of photography demands that the viewer constantly be intrigued and surprised by new imagery and different interpretations, more so than in any other art form. The aim of this book is to answer what makes a photograph great, and to explore the ways that top photographers achieve this goal time and time again. As you delve deeper into this subject, *The Photographer's Mind* will provide you with invaluable knowledge on avoiding cliché, the cyclical nature of fashion, style and mannerism, light, and even how to handle the unexpected. Michael Freeman is the author of the global bestseller, *The Photographer's Eye*. Now published in sixteen languages, *The Photographer's Eye* continues to speak to photographers everywhere. Reaching 100,000 copies in print in the US alone, and

300,000+ worldwide, it shows how anyone can develop the ability to see and shoot great digital photographs.

Born in 1908 in France, Henri Cartier-Bresson is considered to be the father of modern photojournalism. Early on he adopted the versatile 35mm format and helped develop the popular "street photography" style, influencing generations of photographers that followed. In his own words, he expressed that "the camera is a sketch book, an instrument of

intuition and spontaneity, the master of the instant which, in visual terms, questions and decides simultaneously. . . . It is by economy of means that one arrives at simplicity of expression." In 1947 Cartier-Bresson founded Magnum Photos with four other photographers. August 22 will be the 100th anniversary of his birth. *An Archaeology of the Industrial Age* Bookport Langford's Advanced Photography is the only advanced photography guide a serious student or aspiring professional will ever need. In this eighth edition, Efthimia Bilissi continues in the footsteps of Michael Langford by combining an unrivalled level of technical detail with a straightforward writing style while simultaneously bringing the text firmly in to the digital era. This book covers the entire photographic process from a technical standpoint - not only detailing the 'how' but also explaining the 'why' that is so often missing from photography texts. From the workings of cameras, lenses, digital imaging sensors and software to new hot topics such as HDR imaging, digital asset

management, and even running your own photography business, everything a serious photographer could need to extend their art into professional realms is covered. The book also benefits from a full glossary, charts and inspirational full color images throughout, with summaries and projects at the end of each chapter to reinforce the theory.

Published in 1982, *Bad Weather* has been long out of print and is one of Parr's most sought after books. *Books on Books # 17* offers an in-depth study of this important photobook including a new essay by Thomas Weski called *Even the Queen Gets Wet.*-- Publisher.

In 1942, a dashing young man who liked nothing so much as a heated game

of poker, a good bottle of scotch, and the company of a pretty girl hopped a merchant ship to England. He was Robert Capa, the brilliant and daring photojournalist, and Collier's magazine had put him on assignment to photograph the war raging in Europe. In these pages, Capa recounts his terrifying journey through the darkest battles of World War II and shares his memories of the men and women of the Allied forces who befriended, amused, and captivated him along the way. His photographs are masterpieces — John G. Morris, Magnum Photos' first executive editor, called Capa "the century's greatest battlefield photographer" — and his writing is by turns riotously funny and deeply moving. From Sicily to London, Normandy to Algiers, Capa experienced some of the most trying conditions imaginable, yet his compassion and wit shine on every page of this book. Charming and profound, *Slightly Out of Focus* is a marvelous memoir told in words and

pictures by an extraordinary man.—Print Ed.
