May 9, 2020 By David O'Reilly. May 9, 2020. By David O'Reilly May 9, 2020 - The healthcare industry is becoming ever more reliant on connected, digital tools to store records, run systems and machinery, and support and diagnose patients.

With these numerous vital interconnected devices, a secure and ...When downtime is not an option - Electrical Business When Downtime Is Not An Option! As more and more organisations continue their digital transformation journeys, applications and data are playing an increasingly important role in this process. As they are living across a diverse ecosystem of platforms, the ability to provide an always-on, always secure experience to your users or customers is a key

priority. When Downtime Is Not An Option! - BrightTALK The term downtime is used to refer to periods when a system is unavailable. Downtime or outage duration refers to a period of time that a system fails to provide or perform its primary function. Reliability, availability, recovery, and unavailability are related concepts. The unavailability is the proportion of a time-span that a system is unavailable or offline. This is usually a result of the system failing to function

because of an unplanned event, or because of routine maintenance. The term Downtime - Wikipedia If downtime is not implemented, staff layoffs - accompanied by emotional and rational considerations - take place. Statistics show that any solidarity among employees (with respect to salary cuts or salary alignment) is unlikely and the decision on the layoff algorithm will have to be made by the manager and the shareholders. Downtime is not an option -

VILGERTSVIDEO: "Downtime is not an option" July 31, 2015 For a company like Fox Sports, system downtime doesn't just disrupt business operations: it can potentially lead to major loss of customers, revenues, and even contracts with partners. VIDEO: "Downtime is not an option" | Dell Technologies A zero-downtime future Understanding problems before they happen is the panacea for industrial operations - maximising

output and revenue while reducing impact to workers and the wider environment. What, on the surface, seems like a mutually exclusive option, APM not only solves, but its incorporation safeguards the future of the factory as we know it. How to say no to unplanned downtime - Not just business as ... 1. uncountable noun. In industry, downtime is the time during which machinery or equipment is not operating. On the production line, downtime has been reduced from

55% to 26%. 2.  
 uncountable noun. In  
 computing, downtime is  
 time when a computer is  
 not working. 3.  
 uncountable noun.  
 Downtime is time when  
 people are not  
 working. Downtime
