Art History Portables Prentice Hall

The history of art is inseparable from the history of color. And what a fascinating story they tell together: one that brims with an all-star cast of characters, eye-opening details, and unexpected detours through the annals of human civilization and scientific discovery. Enter critically acclaimed writer and popular journalist Victoria Finlay, who here takes readers across the globe and over the centuries on an unforgettable tour through the brilliant history of color in art. Written for newcomers to the subject and aspiring young artists alike, Finlay's quest to uncover the origins and science of color will beguile readers of all ages with its warm and conversational style. Her rich narrative is illustrated in full color throughout with 166 major works of art—most from the collections of the J. Paul Getty Museum. Readers of this book will revel in a treasure trove of fun-filled facts and anecdotes. Were it not for Cleopatra, for instance, purple might not have become the royal color of the Western world. Without Napoleon, the black graphite pencil might never have found its way into the hands of Cézanne. Without mango-eating cows, the sunsets of Turner might have lost their shimmering glow. And were it not for the pigment cobalt blue, the halls of museums worldwide might still be filled with forged Vermeers. Red ocher, green earth, Indian yellow, lead white—no pigment from the artist's broad and diverse palette escapes Finlay's shrewd eye in this breathtaking

exploration.

The cathedral of Saint-Pierre in Beauvais, France, is most famous as a failure--its choir vaults came crashing down in 1284--and only secondarily for its soaring beauty. This lavishly illustrated and elegantly written book represents the first serious look at the stunning collection of Gothic stained glass windows that has always dominated the experience of those who enter Beauvais Cathedral. Chapter by chapter, Michael Cothren traces the glazing through four successive campaigns that bridged the century between the 1240s and the 1340s. The reader is transported back in history, gaining fascinating insight into what the glazing of Beauvais actually would have looked like as well as what it would have communicated to those who frequented the cathedral. Contrary to the widespread assumption that these windows are heavily restored, Cothren shows that they are in fact surprisingly well preserved, especially in light of the cathedral's infamous history of architectural disaster. More importantly, Cothren goes far to dismantle a long-held misconception about medieval painted windows, and indeed monumental medieval pictorial art in general: the notion that it was conceived and produced as a substitute text for ignorant, illiterate folks, providing for them a "Bible of the Poor." Indeed, Cothren shows us that stained glass windows, rich with shaded meanings, functioned more like sermon than scripture. As an ensemble, they created a radiant interpretive backdrop that explicated and situated the performance of the Mass in this giant liturgical theater.

ART HISTORY provides students with the most student-friendly, contextual, and inclusive art history survey text on the market. These hallmarks make ART HISTORY the choice for instructors who seek to actively engage their students in the study of art. This new edition of ART HISTORY is the result of a happy and productive collaboration between two scholar-teachers (Marilyn Stokstad and Michael Cothren) who share a common vision that survey courses on the history of art should be filled with as much enjoyment as erudition, and that they should foster an enthusiastic, as well as an educated, public for the visual arts. Like its predecessors, this new edition seeks to balance formal and iconographic analysis with contextual art history in order to craft interpretations that will engage a diverse student population. Throughout the text, the visual arts are treated as part of a larger world, in which geography, politics, religion, economics, philosophy, social life, and the other fine arts are related components of a vibrant and cultural landscape. Art History Portable Edition offers exactly the same content as Art History, Fourth Edition but in smaller individual booklets for maximum student portability. The combined six segment set consists of four booklets that correspond to major periods in Western art and two that cover global art. Each book is available individually, making them ideal for courses focused on individual periods.

This beautifully produced survey of over a thousand years of Western art and architecture introduces the reader to a vast period of history ranging from ancient Rome to the age of exploration. The monumental arts and the diverse minor arts of the Middle Ages are presented here within the social, religious, and political frameworks of lands as varied as France and Denmark, Spain and Turkey. Marilyn Stokstad also teaches her reader how to look at medieval art--which aspects of architecture, sculpture, or painting are important and for what reasons. Stylistic and iconographic issues and themes are thoroughly addressed with attention paid to aesthetic and social contexts. Significantly updated, this second edition of Medieval Art spans the period from the second to the fifteenth centuries and includes over 4000 illustrations, over 100 in color, detailed maps, a time-line, glossary, bibliography, and index--all in a larger 8 by 10 inch trim size.

The Brilliant History of Color in Art Prentice Hall

In a very short time, Marilyn Stokstad's "Art History" has become the gold standard of introductions to the history of art. It has transformed the way the field of art history is perceived and experienced. Engaging, accessible, and, just as important, fun, "Art History" gives today's readers cultural and social context for art along with eloquent visual explanations of art's special qualities and particular vocabularies. Its animated and clear narrative tells the many-sided story of art, starting with the earliest prehistoric paintings and sculpture through today's wildly varying works in new mediums. In addition to offering an outstanding collection of color illustrations, "Art History" features glorious maps, chronologies, and scores of labeled line drawings and architectural plans. Special essays called "The Object Speaks" offer tantalizing insights on topics such as authenticity, patronage, and artistic intention. Thoroughly updated to reflect the latest in scholarship, this Revised Second Edition features even more works in color and more newly cleaned or restored works. Many works of art are completely new to the book, including a wall painting from Chauvet cave, a page from the Morgan Library Picture Bible, Bronzino's "Allegory with Venus and Cupid," Claude Lorrain's "Embarkation of the Queen of Sheba," Rembrandt's "Anatomy Lesson of Dr. Tulp," and Courbet's "The Stone Breakers," among many others. The addition of cutting edge contemporary artists Jeff Wall and Jennifer Steinkamp, and architect Daniel Libeskind bring present-day currency to the book's scope. More attention has been paid to the art and culture of the Islamic world and specifically the Ottoman Empire.
