The Fast Track series is designed to prepare applicants who are seeking Federal Aviation Administration (FAA) certifications for the full range of material on each test of the series. This test guide offers current test questions, answers, detailed explanations, illustrations, and oral and practical study outlines to the FAA's Powerplant Knowledge Exam. The series is designed in a "fast-track" format for increased comprehension and retention of the studied materials. This guide also lists and identifies all the FAA Learning Statement Codes (LSC) that the FAA uses on their Knowledge Test Reports, which are useful for test takers to find out what their weak areas are if they missed any questions on their FAA exams, and focus further study on those areas.

Featuring all the questions from the FAA Knowledge Exam's "Powerplant" section for Aviation Maintenance Technicians, this new edition answers and explains the

toughest questions on the FAA exams.
