Face2face Pre-intermediate Teacher's Book with DVD
Cambridge University Press
This volume is a collection of seventeen papers, on languages of all three indigenous Caucasian families as well as other languages spoken in the territory of the former Soviet Union. Several papers are concerned with diachronic questions, either within individual families, or at deeper time depths. Some authors utilize their field data to address problems of general linguistic interest, such as reflexivization. A number of papers look at the evidence for contact-induced change in multilingual areas. Some of the most exciting contributions to the collection represent significant advances in

the reconstruction of the prehistory of such understudied language families as Northeast Caucasian, Tungusic and the baffling isolate Ket. This book will be of interest not only to specialists in the indigenous languages of the former USSR, but also to historical and synchronic linguists seeking to familiarize themselves with the fascinating, typologically diverse languages from the interior of the Eurasian continent. Dee Ann Holisky is Professor of English and Linguistics, and Associate Dean for Academic Programs of the College of Arts & Sciences at George Mason University. She is the author of *Aspect and Georgian Medial Verbs* (Caravan Books, 1981) and of numerous articles on Georgian and Kartvelian linguistics. Kevin Tuite is Professor of Anthropology at the Université de Montréal. Among his books are *An Anthology of Georgian Folk Poetry* (Fairleigh Dickinson University Press, 1994) and *Ethnolinguistics and*

Anthropological Theory (co-edited with Christine Jourdan; Montréal: Éditions Fides, 2003).

A Grammar of the English Language for Middle and Higher Class Schools
Cambridge University Press

This volume presents an in-depth study of the so-called irregular Past Tense (sing/sang) and Noun Plural (foot/feet) forms with Internal Vowel Alternation (IVA) in English demonstrating that they possess both a fixed phonological and semantic regularity. The innovative sign-oriented analysis and inductive methodology employed in this study are further supported by additional first language acquisition data, experimental studies and historical evidence. The data culled from multiple linguistic anthologies, dictionaries and thesauri have shown that although the IVA process comprises a relatively small number of nominal and verbal forms in Modern English, IVA, originally, was a prevalent

and productive process in Old English, Indo-European and other language families. The results of this empirical study present and introduce a novel classification based on the regular and systematic iconic-phonological and semantic nature of all these diverse IVA processes both nominal and verbal that has been maintained throughout the history of English.

Best English Grammar Book Learn English Grammar in Two Week (Revised Edition)
Adjective of English Grammar 2 Minute Grammar class This book was begun as a result of

the author's experience in teaching some classes in English in the night preparatory department of the Carnegie Technical Schools of Pittsburg. The pupils in those classes were all adults and needed only such a course as would enable them to express themselves in clear and correct English. English Grammar, with them, was not to be preliminary to the grammar of another language, and composition was not to be studied beyond the everyday needs of the practical man. A verb is a kind of word (part of speech) that tells about an action or a state. It is the main part of a sentence: every sentence has a verb. In English, verbs are the only kind of word that changes to show past or present tense. Best English Grammar Book Learn English Grammar in Two Week (Revised Edition) Adjective of English Grammar 2 Minute Grammar class Great difficulty was experienced because of the inability to secure a text that was suited to the needs of the class. A book was needed that would be simple, direct, and dignified; that would cover grammar, and the essential

principles of sentence structure, choice of words, and general composition; that would deal particularly with the sources of frequent error, and would omit the non-essential points; and, finally that would contain an abundance of exercises and practical work. Best English Grammar Book Learn English Grammar in Two Week (Revised Edition) Adjective of English Grammar 2 Minute Grammar class It is with these ends in view that this book has been prepared. The parts devoted to grammar have followed a plan varying widely from that of most grammars, and an effort has been made to secure a more sensible and effective treatment. The parts devoted to composition contain brief expositions of only the essential principles of ordinary composition. Especial stress has been laid upon letter-writing since this is believed to be one of the most practical fields for actual composition work. Because such a style seemed best suited to the general scheme and purpose of the book, the method of treatment has at times been intentionally rather

formal. Best English Grammar Book Learn English Grammar in Two Week (Revised Edition) Adjective of English Grammar 2 Minute Grammar class
