Notes for an Art School Routledge

The study of popular music has reached an exciting and important moment in its development. Popular Music Studies introduces students to the most significant debates in the field, offering fresh perspectives and suggesting new directions. Genuinely interdisciplinary in scope, the book outlines the history and development of popular music studies while offering and unprecedentedly international perspective on popular music, featuring writers from North and South America, Europe, Japan, Australia, New Zealand, and South Africa. Combining insights from media and cultural studies, sociology, music analysis, ethnomusicology, and performance studies, the essays cover textual analysis, place and space, production, consumption, and everyday life.

Representing History, Class, and Gender in Spain and Latin America Bloomsbury Publishing
 Are we now, or have we ever been, a nation? As this century comes to a close, debates over immigration policy, racial preferences, and multiculturalism challenge the consensus that formerly grounded our national culture. The question of our national identity is as urgent as it has ever been in our history. Is our society disintegrating into a collection of separate ethnic enclaves, or is there a way that we can forge a coherent, unified identity as we enter the 21st century? In this "marvelously written, wide-ranging and thought-provoking" book, Michael Lind provides a comprehensive revisionist view of the American past and offers a concrete proposal for nation-building reforms to strengthen the American future. He shows that the forces of nationalism and the ideal of a trans-racial melting pot need not be in conflict with each other, and he provides a practical agenda for a liberal nationalist revolution that would combine a new color-blind liberalism in civil rights with practical measures for reducing class-based barriers to racial integration. A stimulating critique of every kind of orthodox opinion as well as a vision of a new "Trans-American" majority, *The Next American Nation* may forever change the way we think and talk about American identity. *New York Newsday

Emotional Intelligence Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play a major role in thought, decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us. *Working with Emotional Intelligence* Do you want to be more successful at work? Do you want to improve your chances of promotion? Do you want to get on better with your colleagues? Daniel Goleman draws on unparalleled access to business leaders around the world and the thorough research that is his trademark. He demonstrates that emotional intelligence at work matters twice as much as cognitive abilities such as IQ or technical expertise in this inspiring sequel.

Women Who Run with the Wolves Palgrave Macmillan

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

In *Voice of the Leopard: African Secret Societies and Cuba*, Ivor L. Miller shows how African migrants and their political fraternities played a formative role in the history of Cuba. During the eighteenth and nineteenth centuries, no large kingdoms controlled Nigeria and Cameroon's multilingual Cross River basin. Instead, each settlement had its own lodge of the initiation society called Ékpè, or "leopard," which was the highest indigenous authority. Ékpè lodges ruled local communities while also managing regional and long-distance trade. Cross River Africans, enslaved and forcibly brought to colonial Cuba, reorganized their Ékpè clubs covertly in Havana and Matanzas into a mutual-aid society called Abakuá, which became foundational to Cuba's urban life and music. Miller's extensive fieldwork in Cuba and West Africa documents ritual languages and practices that survived the Middle Passage and evolved into a unifying charter for transplanted slaves and their successors. To gain deeper understanding of the material, Miller underwent Ékpè initiation rites in Nigeria after ten years' collaboration with Abakuá initiates in Cuba and the United States. He argues that Cuban music, art, and even politics rely on complexities of these African-inspired codes of conduct and leadership. *Voice of the Leopard* is an unprecedented tracing of an African title-society to its Caribbean incarnation, which has deeply influenced Cuba's creative energy and popular consciousness.

The internationally acclaimed author of *The House on Mango Street* and winner of the PEN/Nabokov Award for Achievement in International Literature gives us a deeply moving tale of loss, grief, and healing: a lyrically told, richly illustrated fable for grown-ups about a woman's search for a cat who goes missing in the wake of her mother's death. The word "orphan" might not seem to apply to a fifty-three-year-old woman. Yet this is exactly how Sandra feels as she finds herself motherless, alone like "a glove left behind at the bus station." What just might save her is her search for someone else gone missing: Marie, the black-and-white cat of her friend, Roz, who ran off the day they arrived from Tacoma. As Sandra and Roz scour the streets of San Antonio, posting flyers and asking everywhere, "Have you seen Marie?" the pursuit of this one small creature takes on unexpected urgency and meaning. With full-color illustrations that bring this transformative quest to vivid life, *Have You Seen Marie?* showcases a beloved author's storytelling magic, in a tale that reminds us how love, even when it goes astray, does not stay lost forever.

A gorgeously illustrated and interactive full-color guide to more than 181 birds of North America, based on the bestselling board game, *Wingspan*. Praised for its gorgeous illustrations, accurate portrayal of bird habitats, and its gameplay, the bird-focused board game *Wingspan* has become an international sensation, available in a dozen languages and selling more than 200,000 copies its first year. *Celebrating Birds* is the ultimate companion to the game for fans, as well as a beautiful and in-depth field guide for avian and nature enthusiasts. In addition to large-size representations of each bird and the most up-to-date bird descriptions provided by Cornell Lab of Ornithology, *Celebrating Birds* includes a step-by-step guide that can be used to take the game into the real world. Players can collect points based on the birds, nests, and various habitat and feeding clues they find outside. Artists and best friends Natalia Rojas and Ana Maria Martinez collaborated to create the beautiful depictions featured in the original *Wingspan* board game. *Celebrating Birds* features larger illustrations of the 170 North American birds from the game, plus eleven exciting new birds. With *Celebrating Birds*, players and amateur naturalists can discover details about many of the birds currently at risk for extinction. As the number of birds in the United States and Canada has declined precipitously, *Celebrating Birds* is a fun way to raise awareness, educate, encourage activism, and provide resources on some of the most important ecological issues facing us today.

bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

Beckmann and Ling's *Obstetrics and Gynecology*, 9th Edition, provides the foundational knowledge medical students need to complete an Ob/Gyn rotation, pass national standardized exams, and competently care for women in clinical practice. Highly respected for its authoritative expertise and preferred by students for its concise, consistent approach, the text is fully aligned with the Association of Professors of Gynecology and Obstetrics' educational objectives, upon which most clerkship evaluations and final exams are based. The 9th Edition is updated throughout and enhanced with engaging new features that encourage reflection, strengthen retention, and deliver critical preparation for exams and clinical practice.

The information overload produced by the printing press and the new forms of the structuring of knowledge are echoed in fictional works. The essays assembled in this book study the textualization of problematic forms of knowledge in medieval and early modern Spanish literature. Literary Works like the *Libro buen amor*, *La Lozana Andaluza*, or the *Guzmán de Alfarache* are read against the backdrop of scientific developments of their times.
