Architectural representation and the perspective hinge ... Alberto Pérez-Gómez. Jump to navigation Jump to search. Alberto Pérez-Gómez (born 24 December 1949) is an eminent architectural historian. He is also

well known as an theorist with an orientation rooted in a phenomenological approach to architecture. Alberto Pérez-Gómez - Wikipedia Writing from inside the discipline of architecture, rather than from the more common extrapolations from the history of painting and philosophy, Alberto Pérez-Gómez and Louise Pelletier focus on the implications of the tool of perspective (and the hegemony of vision) for architectural representation. The relationship between the architectural representation and its intended product - a building - has undergone a profound transformation over the centuries. Before the age of modern

technology, the systematically predictive role of architectural drawing so taken for granted today was less dominant in the evolution from architectural idea to built work.

Architectural Representation and the Perspective Hinge ...

The book Architectural Representation and the Perspective Hinge discusses such issues as optical correction and the nature of architectural drawing in selected treatises, revealing the complexity and potential contradiction inherent in any linear history of representation. The authors' ultimate aim is to probe the possibilities of the constructed world -

that is, architecture - as a poetic translation, rather than prosaic transcription, of its representations.

Architectural representation and the perspective hinge ...

Architectural Representation and the Perspective Hinge. Their primary thesis is that tools of representation have a direct influence on the conceptual development of projects and generation of forms, and that there are alternatives to the reductive working methods of most contemporary practice.

Architectural drawing - Wikipedia

Architectural Representation and the Perspective Hinge. Their primary thesis is that tools of

representation have a direct influence on the conceptual development of projects and generation of forms, and that there are alternatives to the reductive working methods of most contemporary practice.

Architectural Representation and the Perspective Hinge ...

Writing from inside the discipline of architecture, rather than from the more common extrapolations from the history of painting and philosophy, Alberto Pérez-Gómez and Louise Pelletier focus on the implications of the tool of perspective (and the hegemony of vision) for architectural representation.
