Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready edition, you can personalize the text to match your unique study needs! Prepare to give pediatric patients the specialized care they deserve with the leading text in pediatric nursing. Written by pediatric experts, Wong's Nursing Care of Infants and Children, 11th Edition takes a unique, easy-to-follow developmental approach to describe the care of children at each age and stage of development. This longtime bestseller provides an evidence-based, clinical perspective that shows how the quality of nursing care can impact quality patient outcomes. Childhood diseases and disorders are organized by age groups and body systems and explained through the nursing process framework. This edition features completely updated and reorganized chapters that present content in a clear, easy-to-understand way. New Quality Indicator boxes paint a bigger picture of hospitals and how they look

at quality and safety. A focus on family-centered care emphasizes the role and influence of the family in health and illness with a separate chapter and Family-Centered Care boxes. Emergency Treatment boxes serve as a quick reference in critical situations. Pathophysiology Reviews explain complicated disease processes with illustrated summary boxes. Quality Patient Outcomes are discussed for major childhood diseases and disorders, showing how nursing care directly impacts patient outcomes. Nursing Tips include helpful hints and practical, clinical information. Critical Thinking Case Studies help you test and develop your own analytical skills. Cultural Considerations provide cultural tips from clinical experts. Nursing Care Plans provide models for planning patient care, with rationales explaining why specific nursing interventions have been chosen, and include nursing diagnoses, patient/family goals, nursing interventions/rationales, expected outcomes, and NIC and NOC guidelines. Nursing Care Guidelines offer clear, step-by-step, detailed instructions on performing specific skills or procedures. Translating Evidence into Practice and Applying Evidence to Practice boxes help you apply research to support, guide, and improve the outcomes of nursing care. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress, and provide guidance for performing procedures in a caring manner. Community and Home Health Considerations boxes focus on wellness information and illness-related topics. Drug Alerts highlight important drug-related information for safe, appropriate care. Nursing Alerts provides critical information that must be considered in providing care. Research Focus boxes emphasize research with concise reviews of important evidence. NEW! Quality Indicator boxes present a bigger picture of hospitals and how they look at quality and safety, or Pediatric Clinical Quality Measures. EXPANDED! For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020.
