The first edition introduced the newly emerging field called Positive Organizational Scholarship. Rather than focusing on organizational dysfunction, Positive Organizational Scholarship looks at organizations that are functioning at an unusually high level. Learning from such successful groups about what they did right forms the backbone of the strategy, because strategies that capitalize on the positive tend to produce life-giving, flourishing outcomes in organizations. The four strategies discussed in the first edition included the cultivation of positive climate, positive relationships, positive communication, and positive meaning. Each strategy is explained and illustrated. In this revised edition, the author will add the following materials: Chapter 1: Outlining three

outcomes associated with positive leadership and one more example. Chapter 2: Adding some empirical findings linking attributes of climate with physiological benefits. Chapter 3: A brief discussion of temporary encounters with positive or negative outcomes. Chapter 4: Additional research on the results of the positive-to-negative-communication-ratio. Chapter 5: Elaboration on the issue of meaningfulness in work. Chapter 6: More ideas for implementation

The church is a contextualized reality, and if it is to flourish, its leaders must be raised up to serve their own

communities. Yet our very techniques for teaching and learning are culturally defined. If the church is to be effective in developing the leaders it needs, our approach to training must be informed by its local context. In this immensely practical text, Joseph Nehemiah combines sound pedagogical research with rich cultural insight to provide a framework for training leaders in an Arab context. Examining principles of adult education in light of Arab cultural dynamics, Nehemiah offers a paradigm for experiential learning that is biblically rooted and contextually appropriate. Informed by the experience of professors in the Arab Gulf, along with extensive interviews from local church leaders, *Leadership Training in the Hands of the Church* seeks to place the development,

teaching, and training of leaders into the hands of the local church.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a

programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach

someone how to live well.

Every manager, executive, and leader eventually learns that there's a "dirty" side of leadership. Most leadership books and training programs gloss over the more personal aspects of management. This book is different. It opens as Ron Ward, the newly appointed director of a federal law enforcement academy,

prepares to terminate a tenured employee. As he anxiously waits for the employee to walk into his office, Ron realizes he is woefully unprepared for this moment and sets out on a quest to gain the knowledge and skills necessary to confront the many issues leaders face every day. Now, he is ready to share this information with you. In this book, Ron shares the many twists and turns of growing up in the Appalachian Coal Fields and then progressing through a dynamic career in local, state, and federal law enforcement, directing a successful national training academy, and becoming Chair of The Federal Law Enforcement Training Accreditation Board. Each story provides a takeaway, strategy, or mindset suggestion that can be applied immediately in your day-to-

day business relationships. This book is for anyone who aspires to be a truly great leader, by someone who endeavors to help you master the Dirty Side of Leadership. For management consulting and training services with 4Ward Management Coaching and on-line resources, visit RonWard.com.
