Have you ever wondered why many of the over 28 million small businesses in operation in the United States do not survive past the first five years? Is it the economy? The stock market? Or is it something else? Two years of research on factors affecting small business survival revealed a direct relationship linking management and leadership skills. 'Management and Leadership Skills That Affect Small Business Survival' presents the research leading to this discovery that focuses solely on small businesses in the United States and teaches small businesses how to improve management

and leadership skills so that they can survive past the historical five-year failure mark.

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters. Contributing Authors David S. Bright, Wright State University Anastasia H. Cortes, Virginia Tech University Eva Hartmann, University of Richmond K.
