This updated edition profiles twenty of the world's leading street photographers and teaches readers how to capture profound urban moments. In recent years, photo sharing on social media has rejuvenated street photography, and its spirit has been reborn. *The Street Photographer's Manual* is about the possibilities of street photography as a medium, and how it can be approached in an accessible way. The book begins with an overview of street photography, examining its past, present, and future, and looking at how the genre has changed over time. The reader is then introduced to twenty of the most acclaimed international street photographers. This new, revised edition features six new photographers: Troy Holden, Merel Schoneveld, Melissa Breyer, David Gaberle,

Michelle Groskopf, and Craig Whitehead.

Integrated within the profiles are twenty fully illustrated tutorials, including how to shoot a face in a crowd and how to train your eye to observe and capture the unexpected. *The Street Photographer's Manual* shows you that being a street photographer is partly about looking for luck. But luck requires inspiration—and that is where this book is indispensable.

In "Istanbul: City of a Hundred Names," Magnum photographer Alex Webb displays his particular ability to distill gesture, color and contrasting cultural tensions into a single, beguiling frame. He presents a vision of Istanbul as an urban cultural center, rich with the incandescence of its past--a city of minarets and pigeons rising to the heavens during the early-morning call to Muslim prayers--yet also a city riddled with ATM machines and clothed in designer jeans. Webb began photographing Istanbul in 1998, and became instantly enthralled: by the people, the layers of culture and

history, the richness of street life. But what particularly drew him in was a sense of Istanbul as a border city, lying between Europe and Asia. "For 30-some years as a photographer, I have been intrigued by borders, places where cultures come together, sometimes easily, sometimes roughly." The resulting body of work, some of Webb's strongest to date, conveys the frisson of a culture in transition, yet firmly rooted in a complex history. With essay by the Nobel Prize winning novelist, Orhan Pamuk. **The City** Photography Workshop Series
 Rebecca Norris Webb's meditation on fathers and daughters, one's first landscape, caretaking of the land and its inhabitants, and on history that divides us as much as heals us
 Rebecca Norris Webb (born 1956) first came across W. Eugene Smith's "Country Doctor," his famous Life magazine photo essay, while studying at the International Center of Photography in New York. She was immediately drawn to the subject of Smith's essay, Dr Ernest Ceriani, a Colorado country doctor who was just a few years older

than her father. She wondered: How would a woman tell this story, especially if she happened to be the doctor's daughter? In light of this, for the past six years Norris Webb has retraced the route of her 99-year-old father's house calls through Rush County, Indiana, the rural county where they both were born. Following his work rhythms, she photographed often at night and in the early morning, when many people arrive into the world--her father delivered some one thousand babies--and when many people leave it. Accompanying the photographs, lyrical text pieces addressed to her father create a series of handwritten letters told at a slant.

Cape Light, Joel Meyerowitz's series of serene and contemplative color photographs taken

on Cape Cod, Massachusetts, quickly became one of the most influential and popular photobooks in the latter part of the 20th century after its publication in 1978, breaking new ground both for color photography and for the medium's acceptance in the art world. Now, more than 35 years later, Joel Meyerowitz: Cape Light is back. This edition features all the now-iconic images, newly remastered and luxuriously printed in a larger format. In Cape Light, everyday scenes--an approaching storm, a local grocery store at dusk, the view through a bedroom window--are transformed by the stunning natural light of Cape Cod and the luminous vision of the photographer. Though Meyerowitz had begun shooting in color on the streets of New York a decade earlier, it was this collection of photographs that brought his sensitive color photography to wider notice. Meyerowitz is a contemporary master of color photography, and this powerful, captivating photobook is a classic of the genre.

'A photographer's gift to the viewer is sometimes beauty in the overlooked ordinary' Saul Leiter
Photography lovers the world over are now embracing Saul Leiter, who has enjoyed a remarkable revival since fading into relative obscurity in the 1980s. This collection reveals the secrets of his appeal, from his life philosophy and lyricism to masterful colours and compositions. Some 200 works - including early street photographs, images for advertising, nudes and paintings - cover Leiter's career from the 1940s onwards, accompanied by quotations from the artist himself that express his singular world view.

In 1980 Bruce Davidson began photographing the New York subway system, venturing regularly into this intoxicating, sometimes dangerous subterranean world. At first Davidson photographed in black and white, but he soon realized color was necessary to depict the intensity of this graffiti-covered landscape. Originally published in 1986, this updated Steidl edition of Subway is

printed from new scans of Davidsons Kodachrome slides and features additional images.

Social and cultural transition is usually hard to gauge. New York in the 1980s and the first half of the 1990s was clearly a different place than it is now. The city was more violent and more street weird. Times Square was still wonderfully sleazy. Andrew Savulich is a photographer living and working in New York City. His work is a unique mix of spot news and street photography capturing scenes of crime as well as everyday life. The startling immediacy of the moment prevails in his black-and-white images on which he provides handwritten captions. What at first seems like objective commentary soon reveals the photographers dry ironic tone, at times bordering on black humour.

In 2005, Rebecca Norris Webb set out to photograph her home state of South Dakota, a sparsely populated frontier state on the Great Plains with more buffalo, pronghorn, mule deer and prairie dogs than people. South Dakota is a land of powwows and rodeos, corn palaces and buffalo roundups; a harsh and beautiful landscape dominated by space, silence, brutal wind and extreme weather. The next year, however, everything changed for Norris Webb, when her brother died unexpectedly of heart failure. "For months," she writes in the introduction to this volume, "one of the few things that eased my unsettled heart was the landscape of South Dakota. For each of us, does loss have its own geography?" My Dakota is a small intimate book about the west and its weathers, and an elegy for a lost brother.

Suffering and evil affect
us all, both at a general
level, as we look at a
world filled with injustice,
natural disasters and
poverty, and at a personal
level, as we experience

grief, pain and unfairness. And how we think about and process the reality of pain is at the heart of why many people reject God. Dr. Amy Orr-Ewing is no stranger to pain and gives a heartfelt yet academically rigorous examination of how different belief systems deal with the problem of pain. She explains the unique answer that is found in Christ and how he can give us hope in the reality of suffering. This empathetic, easy-to-read and powerful evangelistic book is good for both unbelievers and believers alike. It will help those hoping to answer one of life's biggest questions as well as those who are either suffering personally or comforting others.

Memory City Rizzoli International Publications
 Winner of the National Book Critics Circle Award in Criticism *A New York Times Book Review Editors' Choice* *A New York Times Top 10 Nonfiction Book of the Year, as selected by Dwight Garner* Geoff Dyer has earned the devotion of passionate fans on both sides of the Atlantic through his wildly inventive, romantic novels as well as several brilliant, uncategorizable works of nonfiction. All the while he

has been writing some of the wittiest, most incisive criticism we have on an astonishing array of subjects—music, literature, photography, and travel journalism—that, in Dyer's expert hands, becomes a kind of irresistible self-reportage. Otherwise Known as the Human Condition collects twenty-five years of essays, reviews, and misadventures. Here he is pursuing the shadow of Camus in Algeria and remembering life on the dole in Brixton in the 1980s; reflecting on Richard Avedon and Ruth Orkin, on the status of jazz and the wonderous Nusrat Fateh Ali Khan, on the sculptor ZadKine and the saxophonist David Murray (in the same essay), on his heroes Rebecca West and Ryszard Kapuścin'ski, on haute couture and sex in hotels. Whatever he writes about, his responses never fail to surprise. For Dyer there is no division between the reflective work of the critic and the novelist's commitment to lived experience: they are mutually illuminating ways to sharpen our perceptions. His is the rare body of work that manages to both frame

our world and enlarge it. American Music National Geographic Books
 "Alex Webb and Rebecca Norris Webb take an elegiac look at Rochester, New York. For this project, Alex took images with his last rolls of Kodachrome, a formerly vibrant color film that can now only be processed as black-and-white. The resulting photos have a weathered quality akin to a fading memory. Alex also took to the streets of Rochester and shot in digital color--work that punctuates the black and white work with images from his signature style. Rebecca, who still uses film for all her work, responded to the medium's uncertain future by creating an elegiac refrain of color still lifes and portraits of Rochester women past and present. Woven into the book are quotes by many of the famous writers and thinkers who have been connected to Rochester, including women's rights activist Susan B. Anthony, abolitionist Frederick Douglass, and poets John Ashbery and Ilya Kaminsky. And the authors have also created a timeline on the cultural history of the city that traces the evolution of a once-vibrant and now complex city."--
