In the year 1953 the presence of coded Huna information in the Bible was discovered. Since that time the research work has progressed, with a number of additional pieces of coded information uncovered. This book gives not only the later findings, but further expands the study to show similar coded information in the religions of the ancient Egyptians, Israelites, Buddhists and practitioners of Yoga. The complete investigation of the Bible and Gnostic literature has not yet been finished, and the reader who wishes to do so may carry on for himself without much difficulty, once this book has been read and the research method is understood. Yesterday the unveiling of the coded knowledge would have been countered by the Church with burnings and any torture needed for the suppression of heresy. Today, happily, even the humblest Galileo is able safely to take up his telescope and peer into the realms of the new and strange.... and still forbidden. (From the Forward.)

Emerging Technologies in Data Mining and Information Security Crown

Vietnam was a different kind of war, calling for a different kind of soldier. The LRRPs--Long Range Reconnaissance Patrols--were that new breed of fighting man. They operated in six-man teams deep within enemy territory, and were the eyes and ears of the units they served. This is their story--of perseverance under extreme hardship and uncommon bravery--and how they carried out the war's most hazardous

missions.

For the first time, the CIA has authorized a top-level operative to tell all in an unforgettable behind-the-scenes look at espionage in action. an undisputed genius who could create an entirely new identity for anybody, anywhere, anytime, Antonio J. Mendez combined the cunning tricks of a magician with the analytical insight of a psychologist to help hundreds of people escape potentially fatal situations. From "Wild West" adventures in East Asia to Cold War intrigue in Moscow and helping six Americans escape revolutionary Tehran in 1980, Mendez was on the scene. Here he gives us a privileged look at what really happens in the field and behind closed doors at the highest levels of international espionage, some of it shocking, frightening, and wildly inventive--all of it unforgettable.

Fallen Angels Merriam-Webster

The Evolution of Major Faiths World Religions looks at the beliefs and practices of many different religions, from the ancient Egyptians to Zoroastrianism -- the oldest "living" religion -- and the great faiths practiced today. Each of the major faiths --

Christianity, Judaism, Hinduism, Buddhism, Jainism, Sikhism, and Islam -- is examined in detail through its sacred texts, epic imagery, key beliefs, and religious artifacts. The distinctive identities of different faiths are explored in *World Religions* by studying the main principles and thinking of each religion. The book's superb reproduction allows the symbolism and meaning in religious imagery and iconography to be revealed in great detail. Accessible and far-reaching, *World Religions* will engage the whole family as much as the serious student. Book jacket.

The Huna Code In Religions Psychology Press

This thoroughly revised and updated second edition of *The Visual Culture Reader* brings together key writings as well as specially commissioned articles covering a wealth of visual forms including photography, painting, sculpture, fashion, advertising, television, cinema and digital culture. The Reader features an introductory section tracing the development of visual culture studies in response to globalization and digital culture, and articles grouped into thematic sections, each prefaced by an introduction by the editor and conclude with suggestions for further reading.

Chaplains as Liaisons with Religious Leaders Constable

In the most dramatic and intimate account of battle reporting since Michael Herr's classic *Dispatches*, NBC News's award-winning Middle East Bureau Chief, Richard Engel, offers an unvarnished and often emotional account of five years in Iraq. Engel is the longest serving broadcaster in Iraq and the only American television reporter to cover the country continuously before, during, and after the 2003 U.S. invasion. Fluent in

Arabic, he has had unrivaled access to U.S. military commanders, Sunni insurgents, Shiite militias, Iraqi families, and even President George W. Bush, who called him to the White House for a private briefing. He has witnessed nearly every major milestone in this long war. *War Journal* describes what it was like to go into the hole where U.S. Special Operations Forces captured Saddam Hussein. Engel was there as the insurgency began and watched the spread of Iranian influence over Shiite religious cities and the Iraqi government. He watched as Iraqis voted in their first election. He was in the courtroom when Saddam was sentenced to death and interviewed General David Petraeus about the surge. In vivid, sometimes painful detail, Engel tracks the successes and setbacks of the war. He describes searching, with U.S. troops, for a missing soldier in the dangerous Sunni city of Ramadi; surviving kidnapping attempts, IED attacks, hotel bombings, and ambushes; and even the smell of cakes in a bakery attacked by sectarian gangs and strewn with bodies of the executed. *War Journal* describes a sectarian war that American leaders were late to understand and struggled to contain. It is an account of the author's experiences, insights, bittersweet reflections, and moments from his private video diary -- itself the subject of a highly acclaimed documentary on MSNBC. *War Journal* is the story of the transformation of a young journalist who moved to the Middle East with \$2,000 and a belief that the region would be "the story" of his generation into a seasoned reporter who has at times believed that he would die covering the war. It is about American soldiers, ordinary Iraqis, and especially a few brave individuals on his team who

continually risked their lives to make his own daring reporting possible.

Sappers in the Wire Devorss Publications
 No one can understand the complete tragedy of the American experience in Vietnam without reading this book. Nothing so underscores the ambivalence and confusion of the American commitment as does the composition of our fighting forces. The rich and the powerful may have supported the war initially, but they contributed little of themselves. That responsibility fell to the poor and the working class of America.-- Senator George McGovern "Reminds us of the disturbing truth that some 80 percent of the 2.5 million enlisted men who served in Vietnam--out of 27 million men who reached draft age during the war--came from working-class and impoverished backgrounds. . . . Deals especially well with the apparent paradox that the working-class soldiers' families back home mainly opposed the antiwar movement, and for that matter so with few exceptions did the soldiers themselves.--New York Times Book Review "[Appy's] treatment of the subject makes it clear to his readers--almost as clear as it became for the soldiers in Vietnam--that class remains the tragic dividing wall between Americans.--Boston Globe

Military Intelligence Blunders and Cover-Ups DK Publishing (Dorling Kindersley)
 What will the fracturing of the United States look like? After the Revolution is an edge-of-your-seat answer to that question. In the year 2070, twenty years after a civil war and societal collapse of the "old" United States, extremist militias battle in the crumbling Republic of Texas. As the violence spreads like wildfire and threatens the Free City of Austin, three unlikely allies will have to work together in an act of resistance to

stop the advance of the forces of the white Christian ethnostate known as the "Heavenly Kingdom." Out three protagonists include Manny, a fixer that shuttles journalists in and out of war zones and provides footage for outside news agencies. Sasha is a teenage woman that joins the Heavenly Kingdom before she discovers the ugly truths behind their movement. Finally, we have Roland: A US Army vet kitted out with cyberware (including blood that heals major trauma wounds and a brain that can handle enough LSD to kill an elephant), tormented by broken memories, and 12,000 career kills under his belt. In the not-so-distant world Evans conjures we find advanced technology, a gender expansive culture, and a roving Burning Man-like city fueled by hedonistic excess. This powerful debut novel from Robert Evans is based on his investigative reporting from international conflict zones and on increasingly polarized domestic struggles. It is a vision of our very possible future.

A Soldier's Way Lulu.com

Fallen Angels by Walter Dean Myers is a young adult novel about seventeen-year-old Richie Perry, a Harlem teenager who volunteers for the Army when unable to afford college and is sent to fight in the Vietnam War. Perry and his platoon—Peewee, Lobel, Johnson, and Brunner—come face-to-face with the Vietcong, the harsh realities of war, and some dark truths about themselves. A thoughtful young man with a gift for writing and love of basketball, Perry learns to navigate among fellow soldiers under tremendous stress and struggles with his own fear as he sees things he'll never forget: the filling of body bags, the deaths of civilians and soldier friends, the effects of claymore mines, the fires

of Napalm, and jungle diseases like Nam Rot. Available as an e-book for the first time on the 25th anniversary of its publication, *Fallen Angels* has been called one of the best Vietnam War books ever and one of the great coming-of-age Vietnam War stories. Filled with unforgettable characters, not least Peewee Gates of Chicago who copes with war by relying on wisecracks and dark humor, *Fallen Angels* "reaches deep into the minds of soldiers" and makes "readers feel they are there, deep in the heart of war." *Fallen Angels* has won numerous awards and honors, including the Coretta Scott King Award, an ALA Best Book for Young Adults, a Booklist Editors Choice, and a School Library Journal Best Book. *Fallen Angels* was #16 on the American Library Association's list of the most frequently challenged books of 1990–2000 for its realistic depiction of war and those who fight in wars.

Civil War II Lulu.com

The premier source for journalists, now revised and updated for 2015. Does the White House tweet? Or does the White House post on Twitter? Can "text" be a verb and also a noun? When should you link? For anyone who writes--short stories or business plans, book reports or news articles--knotty choices of spelling, grammar, punctuation and meaning lurk in every line: Lay or lie? Who or whom? That or which? Is Band-Aid still a trademark? It's enough to send you in search of a Martini. (Or is that a martini?) Now everyone can find answers to these and thousands of other questions in the handy alphabetical guide used by the writers and editors of the world's most authoritative news organization. The guidelines to hyphenation, punctuation, capitalization and spelling are crisp and compact, created for instant reference in the rush of daily deadlines. The 2015 edition is a revised and condensed version of the classic guide, updated with solutions to problems that plague writers in the Internet age: · How to cite links and blogs · How to handle tweets, hashtags and other social-media content · How to use current terms like "transgender," or to choose thoughtfully between "same-sex marriage" and "gay marriage" With

wry wit, the authors have created an essential and entertaining reference tool.

Roadside Crosses in Contemporary Memorial Culture William Morrow

Paperbacks

As technological advancements accelerate change, global organizations must re-invent themselves periodically or they will become irrelevant. It is not only the change itself that is impacting so much, but more the rate of speed that change is occurring. To adopt new structures, adapt to changing situations and implement new systems requires innovative, flexible, visionary leaders. This is a learner-focused manual for training Emerging Business Leaders. It is not meant to be a scholarly dissertation, but a how and what to do manual or handbook. The manual is designed to empower a new kind of business leader - one that may have 7-10 careers during a fast-paced lifetime. Even though technology has a profound influence on business formation and operations, there are eternal principles that ultimately overshadow all else. These principles are time-tested and proven over centuries of industry and governing. Leading wisely is still a mandate to be embraced by CEOs and organizational leaders today.

Sing a Battle Song Hutchinson

The stunning English translation of the International Man Booker Prize Finalist novel hailed as "a story of grace and endurance, not mere survival" (The New York Times Book Review). Winner of the Premio Campiello, short-listed for the Independent Foreign Fiction Award, and published to critical acclaim in fourteen languages, this "spellbinding" historical novel by one of Italy's premier authors is now available in this luminous new translation (Booklist). In early 18th century Sicily, noblewoman Marianna

Ucrà is trapped in a world of silence after a terrible childhood trauma left her deaf and mute. Married off to a lecherous uncle, she struggles to educate and elevate herself against all convention—and find her true place in a world that sees her as little more than property. In language that conveys the keen vision and deep human insight

possessed by her protagonist, Dacia Maraini captures the splendor and the corruption of Marianna's world, as well as the strength of her unbreakable spirit, in "one of those rare, rich, deep, strange novels that create a world so fantastic and so real you want to start reading it again as soon as you come to the last page" (Newsday).
