Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, "No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this

work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there form as well as its departure to other worlds according to its karma. "In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology

does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.

It is a simple method for prediction through which, even a person with a basic knowledge of astrology can give predictions based on the birth chart. The method utilizes the degrees of the planets in the birth chart. The planets in the highest degree and lowest degree are taken into account. Even planets

which are 6/8 positions away from each other, will be combined when their degrees are close. Through this method we can predict whose relationship will be beneficial for him/her. We can also predict the planets which will support him though out his/her life, the gods whom should be worship and so on. Predictions together with the planets in the transit and the birth chart are also easily given.

Astrological analysis has two components. The first is the deduction of likely trends in the life of a native. This determines the basic promise of a horoscope. The second, and more important, is to determine the time when the relevant events, according to the promise, would happen. The first part requires astrological knowledge & calculations etc; while for the second part great perception, synthesis, intuition and divine help are required. Astrology is basically the art & science of deciphering the characteristics & impulses gathered by various planets by

their position/ movement and their synthesis. It is the basic characteristics of planets as modified by various impulses/ vibrations which they receive and then imparts on the native. Essentially one has to understand planets- their relationship with houses, signs & Nakshatra and their roles as lords of sign/ houses, Nakshatra or its subdivisions, as dasha lords or their day to day transit with respect to their natal position or standard specific points like natal Moon, natal ascendant or dasha lords. This not only helps in understanding the basic promises, but the timing of their fructification as well.

'Blind Chart Analysis' is a procedure in which an astrologer predicts the past

events and present condition of a native only by looking into the horoscope, without having a prior knowledge about the native. Astrologers practice this method for many reasons: for birth-time rectification, to bring faith in the client about the efficacy of astrology, to test the astrological techniques, to find out which method suits best for the given case, and to demonstrate his/her predictive abilities. To do blind chart analysis successfully an astrologer should have very sound knowledge of the subject, vast experience, good intuition and a bit of luck also. This book presents 100 cases of Blind Chart Analysis of people who approached the author for astrological consultation. This is a book, first of its kind, where the author demonstrates the method of

Blind Chart Analysis by explaining the astrological reasons for the queries he asked the natives and for the responses he got. This work impresses the reader about the power and utility of Jyotisha in general and Nandi Naadi methods in particular. A must for anyone who wishes to gain command over the art of prediction.
