Chambers's Etymological Dictionary of the English Language - Scholar's Choice Edition Forgotten Books

Excerpt from Chambers's Etymological Dictionary of the English Language: Pronouncing, Explanatory, Etymological In this department full advantage has been taken of the best French and German works, as also of the labours oi' the new English school or philologists, who have done so much during the last twenty years to promote the historic and scientific study of our own language Special acknowledgment of indebtedness is due to Diez, EM girder Wb'rterbuchfi de-r Rmmlwfiias Sprocket. (4th ed. 1878) to Littre's great work; to the dewar-m norms (3d ed. T878) of Weigand, one of the continuators of Grimm and above all to Prof. Skeat, whose Etymological Dictionary is indispensable to every scientific student of the English language. Great assistance has also been obtained from the Emologs'rckr www do Englilem Spud: (2d ed. 1878) of n Muller; from the French Etymological Dictionaries or Brachet and Scheler; from Diefenbach's Gothic Dictionary; from the works of Morris and Trench; and hunt the well-known lectures of Max Millier. As final authorities in their respective languages. The following dictionaries have been used, Liddell and Scott's Greek Lexicon and Vigfsson. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **Chambers Dictionary of Etymology** Wordsworth Editions

"The Chambers Dictionary covers the latest words and meanings to enter the English language but also takes delight in preserving many rare, historical and dialect words that are omitted from other dictionaries. Thus it offers a uniquely rich coverage of English vocabulary from Shakespeare to the present day." "This dictionary has more words and definitions than any other single-volume English dictionary; accurate, clear and, on occasion, characteristically witty definitions; over 500 new words and meanings covering recent developments in technology, culture and s easy-to-follow pronunciation guidance; scholarly explanations of word origins; and extensive appendices of foreign phrases, first names, scientific information, and conversion tables."--BOOK JACKET.

*Chambers's Etymological Dictionary of the English Language* Walter de Gruyter

As all lovers of language know, words are the source of our very understanding of ourselves and the world around us. Often, however, our use of language is so automatic that we neglect to consider where those words came from and what they assume. What are the implications, beyond the simple dictionary definitions, of using words such as privilege, hysteria, seminal, and gyp? Browsing through the pages of *The Barnhart Concise Dictionary of Etymology* is like exploring the historical, political, and rhetorical wonderland of our linguistic heritage. We see the evolution of ideas, as rootword connections that now seem arbitrary are traced to schools of thought from the past. We also find an opportunity to examine how the sometimes backwards, sometimes hilarious, and sometimes illuminating ideologies built into our language affect our modern thinking. Written in a fresh, accessible style, this book provides the derivations of over 21,000 English-language words without resorting to the use of abbreviations, symbols, or technical terminology. Drawing on the most current American scholarship, and focusing on the core words in contemporary English, *The Barnhart Concise Dictionary of Etymology* is both a diverting browse and a thinking person's Bible. [Chambers's Etymological Dictionary of the English Language](#) Andesite Press  
Walter Skeat (1835-1912) was one of the greatest investigators of the roots of the English language, and his remarkable scholarship was instrumental in the revival of the great works of early English Literature. His astonishing detective work into the origins and development of the world's most widely used language provides an unsurpassed guide to its flexibility and richness.

**The Concise Dictionary of English Etymology** Wentworth Press

In the literature on English lexicography there have been few attempts at a systematic study of the history of popular dictionaries that have been around for many years in English-speaking countries. A dictionary like Chambers deserves special attention because of its long tradition that goes back to the nineteenth century. Although it has gone through numerous editions, its history has received little attention from scholars. The book traces the development of the Chambers Dictionary from its origins to the present time by comparing corresponding parts of successive editions of the dictionary. This comparative approach aims to determine major trends in the evolution of the dictionary. It will provide scholars and interested students with insights into the Chambers lexicographers' work, the goals they aimed to achieve, and the problems they had to face when

revising the dictionary.
