Horngren's Accounting McGraw-Hill Education The Fifth Edition of International Accounting provides an overview of the broadly defined area of international accounting, but also focuses on the accounting issues related to international business activities and foreign operations. This edition also includes substantially updated coverage of the International Accounting Standards Board (IASB) and International Financial Reporting Standards (IFRS). The unique benefits of this textbook include its up-to-date coverage of relevant material, extensive numerical examples provided in most chapters, two chapters devoted to the application of International Financial Reporting Standards (IFRS), and coverage of nontraditional but important topics such as strategic accounting issues of multinational companies, international corporate governance, and corporate social responsibility reporting.

Accounting Principles Irwin/McGraw-Hill This innovative new introduction to Mathematical Statistics covers the important concept of estimation at a point much earlier (Chapter 2) than others on this subject. Applies mathematical statistics to topics such as insurance, Pap smear tests, estimating the number of whales in an ocean, fitting models, filling 12 ounce containers, environmental issues, and results in certain sporting events. Includes summaries of the most important aspects of discrete distributions, continuous distributions, confidence intervals, and tests of hypotheses. Provides computer applications for data analysis and also for theoretical solutions such as simulation and bootstrapping. A comprehensive reference for individuals who need to brush up on their knowledge of statistics. **Introduction to Managerial Accounting** Managerial Accounting Creating Value in a Dynamic Business Environment Emphasises on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. This text also covers contemporary topics such as, activity-based costing, target costing, the value chain, and more. **Managerial Accounting** Creating Value in a Dynamic Business Environment **Managerial Accounting** (16th Edition) Guan Li Kuai Ji (Ying Wen Ban Yuan Shu Di 16

Managerial Accounting Prentice Hall

This book is an adaptation of the successful US text "Cost Management" by Hilton, Maher and Selto, written specifically for an international audience. Major improvements include: Diverse and truly international examples of organizations - Examples used throughout the book are from all over the world and represent manufacturing, retail, not-for-profit, and service firms in many different countries. Completely restructured and rewritten text - The book has been rewritten, restructured and also shortened significantly to align content closer with international courses. Integral use of spreadsheets - Spreadsheet software is used for explaining techniques and making applications more realistic. In depth research - Summaries of international research studies that address important cost management issues have been updated and more references to recent research findings have been added. Intuitive explanation of accounting - The authors show directly how events impact the balance sheet and profit and loss account

Managerial Accounting Richard d Irwin

The authors have kept the text concise by focusing on the key concepts students need to master. Opening vignettes & 'in action' boxes show realistic applications of these concepts throughout. Comprehensive end-of-chapter problems provide students with all the practice they need to fully learn each concept.
