The Greatest Showman Hal Leonard Corporation

This stunning book charts the rich history of the blues, through the dazzling array of posters, album covers, and advertisements that have shaped its identity over the past hundred years. The blues have been one of the most ubiquitous but diverse elements of American popular music at large, and the visual art associated with this unique sound has been just as varied and dynamic. There is no better guide to this fascinating graphical world than Bill Dahl—a longtime music journalist and historian who has written liner notes for countless reissues of classic blues, soul, R&B, and rock albums. With his deep knowledge and incisive commentary—complementing more than three hundred and fifty

lavishly reproduced images—the history of the blues comes musically and visually to life. What will astonish readers who thumb through these pages is the amazing range of ways that the blues have been represented—whether via album covers, posters, flyers, 78 rpm labels, advertising, or other promotional materials. We see the blues as it was first visually captured in the highly colorful sheet music covers of the early twentieth century. We see striking and hard-to-find label designs from labels big (Columbia) and small (Rhumboogie). We see William Alexander's humorous artwork on postwar Miltone Records; the cherished ephemera of concert and movie posters; and Chess Records' iconic early albums designed by Don Bronstein, which would set a new standard for modern album cover design. What these images collectively portray is the evolution of a distinctively American art form. And they do so in the richest way imaginable. The result is a sumptuous book, a visual treasury as alive in spirit as the music it so vibrantly captures.

It's 1945. American soldiers return home to ticker tape parades and overjoyed families; Private First Class Donny Novitski, singer and songwriter, returns with the hope of rebuilding his life with just the shirt on his back and a dream in his heart. When NBC announces a national competition to find the nation's next swing band sensation, Donny joins forces with a motley group of fellow veterans, and together they form a band unlike any the nation has ever seen. However, complicated relationships, the demands of the competition, and the challenging after-effects of war may break these musicians. But, when Donny meets a beautiful, young singer named Julia, he finds the perfect harmony in words and music that could take this band of brothers all the way to the live radio broadcast finale in New York City. Victory will require every ounce of talent, stamina, and raw nerve that these musicians possess.

J'Entends Le Moulin Hal Leonard Corporation

This anthology was compiled to aid the scholar working on the origins and evolution of jazz. Covering materials published through 1929, it also begins with article from 1859 which do not concern jazz directly, but will serve to present a solid foundation for understanding the American music scene from which jazz developed. Chronologically listed and well-indexed, the hundreds of articles comprise, in effect, a history of jazz as it evolved. Beginning with accounts of Negro music in the pre-jazz era, continuing in an exploration of spirituals, followed by a description of ragtime, we finally learn about the development of jazz from its practitioners and informed audiences of the time.
