FSc Physics Book1, CH 11, LEC 1: Pressure of Gases Chapter 10 (Gases) - Part 1 review questions chapter 11 Class 10(Physics) World Climate \u0026amp; Climate Change \u2013 Chapter 12 Geography NCERT Class 11 Class 10th-Physics-Chapter 11-Sound-Exercise-Review Questions Chapter 11 Review Gases Section SECTION 1 Date CHAPTER 11 REVIEW Gases Class SHORT ANSWER Answer the following questions in the space provided. b Pressure \u2013 orce For a constant force, when the surface area is tripled the surface area pressure is (a) doubled. as much. (c) ripled. 7-0 (d) unchanged. Rank the following pressures in increasing order. (c) 76 torr (a) 50 kPa

O, OOictbv-xHome - Kenilworth Public Schools If a gas and a liquid are the same temperature and pressure, diffusion occurs much faster in the gas because. A. there are more elastic collisions between the particles in a gas. B. gases are more compressible. C. the particles move faster in a gas and there is a greater distance between them. Chapter 11 Gases Review Flashcards | Quizlet Section 11.4 Dalton's Law of Partial Pressures Goals To describe the properties of mixtures of gases. To describe calculations that deal with mixtures of gases. In the real world, gases are usually mixtures. This section describes how mixing gases affects the properties of the resulting mixture. Chapter 11 - Gases 462 Chapter 11 Gases Discovering the Relationships Between Properties If we want to explain why a weather balloon carrying instruments into the upper atmosphere expands as it rises, we need to consider changes in the properties of the gases (pressure, volume, temperature, or number of gas particles) inside and outside the balloon. Chapter 11 Gases - An Introduction to Chemistry CHAPTER 11 REVIEW Gases

SECTION 1 SHORT ANSWER Answer the following questions in the space provided.

1. b Pressure surf f a o c r e c e area. For a constant force, when the surface area is tripled the pressure is (a) doubled. (b) a third as much. (c) tripled. (d) unchanged.
2. d, c, a, b Rank the following pressures in increasing order. (a) 50 kPa (c) 76 torr (b) 2 atm (d) 100 N/m² 3.mc06se cFMsr i-vi - Ed W. Clark High School

Start studying Chapter 11- Gases: Section 1: Gases and Pressure. Learn vocabulary, terms, and more with flashcards, games, and other study tools.Chapter 11- Gases: Section 1: Gases and Pressure ...this theory explains some of the properties of ideal gases. In this chapter, you will study the predictions of kinetic-molecular theory for gases in more detail. This includes the relationship among the temperature, pressure, volume, and amount of gas in a sample.
